One of these Pumps will soon pay for itself by preventing waste. Few parts and will not get out of order. It is so constructed that it will handle oil, kerosene, gasoline and many other liquids from either steel or wood barrels. You can rest container on the barrel as illustrated.

The telescopic base permits adjustment to any length of barrel up to 34 inches, and is equipped with 1½ and 2-inch bung fittings; also a cast drip tray. Pumping capacity is one pint to each stroke. Keeps oil from leaking and lessens the possibility of catching fire. May be used for other liquids. Barrel not included. Shipping weight, 7½ pounds.

575 C 999 ..... $2.98

Pure Neatsfoot Oil

For use on all kinds of leather articles such as belting, harness, boots and gloves. It preserves and softens the leather and adds to its wearing qualities.

575 C 7519—1-quart can. Shipping weight, 3 pounds ..... 65¢

575 C 7518—1-gallon can. Shipping weight, 12 pounds $2.15

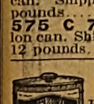
Completely Denatured 188 Proof Alcohol

POISON. Must not be taken internally. Prices subject to market changes.

For non-freezing solution in auto radiators use 30 per cent alcohol for 2 degrees below zero, and 45 per cent for 30 degrees below zero. Shipping weights: 4, 10 and 45 pounds. **Can be shipped by freight or express only.**

675 C 7656	1-quart can	$ .34
675 C 7657	1-gallon can	.95
175 C 7658	5-gallon can	4.50

Cream Separator Oil



Free flowing neutral oil. For all kinds of cream separators. Has light body and is a pale yellow color. Reduces friction and wear. Makes separators last longer. Shipping weights, 42, 12 and 4 pounds.

475 C 1206	5-gallon can. Per gallon	52¢
575 C 1207	1-gallon can	57¢
575 C 1209	1-quart can	24¢

Shipped from our Chicago Plant only.

Ward's Runrite Cup Grease

Runrite Cup Grease is furnished in three different grades: Soft, medium and hard. The soft is intended particularly for pillow blocks and cross heads. The medium is made especially for automobile use, but can be used satisfactorily for general purposes. Can be used on autos having regular grease cups or compression lubricating system. The hard is for heavy open bearings and grease cups. Each grade has the right consistency for the purpose it is intended for, and it is not affected by temperature changes. **Order medium for automobile cups and axles.** Shipping weights: 1½, 12, 28 and 65 pounds.

Size Pail	Soft	Medium	Hard	Per Pail
1 pound	75 C 1400	75 C 1405	75 C 1410	$ .16
10 pounds	475 C 1402	475 C 1407	475 C 1412	1.15
25 pounds	475 C 1403	475 C 1408	475 C 1413	2.75
50 pounds	175 C 1404	175 C 1409	175 C 1414	4.90

Graphite Axle Grease

Made with a graphite base that gives better lubrication and lasts longer. We recommend its use on slow speed bearings and pumps, as well as for axles on carriages and wagons. Shipping weights: 1½, 12 and 28 pounds.

75 C 1490	1-pound can	$ .10
475 C 1492	10-pound pail	.90
475 C 1493	25-pound pail	2.00

Economy Pumps For Gasoline or Kerosene

You can now have your own gasoline or kerosene filling station, either portable or stationary—underground if you want it. Keep your fuel supply in a safe place and prevent explosions, fires and theft.

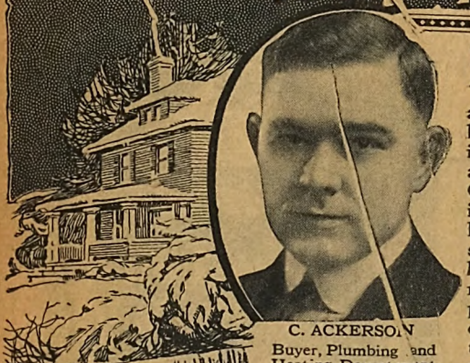
Saves Gasoline. You can put fuel in your car or tractor without wasting a drop. It pumps one-half gallon at each stroke or six gallons per minute. These pumps are made in two styles—designed especially for use with 50-gallon drums buried in the ground or with any size storage tank or line of tanks connected together.

Pumps are provided with locks which prevent theft of fuel. Height, 5 feet 8 inches. Cylinder is heavy gauge seamless drawn brass. Hose is 6 feet, with metal lined, cotton woven cover and non-breakable brass hose connection. Diameter, ½ inch. Pump without base has about 3 feet of pipe to insert in drum. Drum not included. **State size of bung hole in barrel.** Ship. wt., 50 lbs.

161 C 9593	With base	$20.95
161 C 9592	Without base	18.25

How to Save Money on Heating and Plumbing

Let Our Expert Engineers Tell You What it Will Cost to Equip Your Home — This Information is Free



C. ACKERSON
Buyer, Plumbing and Heating Department

HOME MAKERS, in considering the advantages of modern plumbing and heating, should not overlook the fact that a house that is modern in these respects is always worth more money. Often $500 spent in plumbing and heating for an old home will add $1500 to the selling price. The comfort it brings to your family is worth much more. Of all the improvements which make for comfort and convenience in the home, none contribute more than good plumbing and heating.

In making tremendous purchases to bring down the usual high cost of Plumbing and Heating Equipment, we feel we are conferring a benefit more lasting and more appreciated than almost anything else we could do.

Thousands of homes are now enjoying the convenience of hot and cold running water, bath, toilet, furnace, steam or hot water heat, and other conveniences at a great saving because of Ward's low prices on high grade plumbing and heating equipment. We not only give you the benefit of our low prices, but we also give you free the services of experts in our Engineering and Estimating Department to help you solve your problems and provide you with instructions which enable you to do almost any job of plumbing or heating work yourself at a great saving.

MANY people imagine that Modern Plumbing Equipment, Furnaces and Hot Water or Steam Heating installations are expensive. They are, if you buy them at the high prices usually asked, and pay high prices for having them installed. But these great conveniences are not expensive if you buy them from Montgomery Ward & Co.

We can sell you a high grade guaranteed bath room outfit, for example, complete ready to install, for as low as $63.50; and we show you how to install it yourself. We can sell you a steam boiler of the highest quality for as low as $84.85, or a hot water boiler large enough for a 5-room house for only $63.85. Our prices on steam and hot water equipment, with all transportation charges added, are about 50 per cent below what is usually asked. No finer Pipeless Furnace is made than our Windsor. You can buy it in a size large enough for a 5-room house for only $62.85. You can buy a fine porcelain sink for the kitchen, complete with all fittings, for as little as $13.95.

Our Quality Is Absolutely Guaranteed

In offering you Plumbing and Heating Supplies at prices so far below what dealers usually ask, we realize that some doubt may arise in your mind as to the quality. Again we repeat that we positively do not sacrifice quality in making these low prices. To prove it, we always permit you to inspect your purchase in your own home and make any comparisons you like before deciding to keep the merchandise. We expect you to be satisfied with the quality and with the saving you have made; otherwise we will refund every cent you have paid. We carry plumbing and heating supplies at warehouses conveniently located, so as to give you prompt service and lowest transportation charges. We feel certain that the savings we offer you and the unquestioned reliability of Montgomery Ward & Co.'s guarantee will be sufficient to induce you to order all these supplies in the future from us.

Our Easy Payment Plan

How We Make It Easier for You to Enjoy These Conveniences

To make it easier for you to buy a good warm air furnace or a steam or hot water boiler, we offer you an Easy Payment Plan as described on the pages where these are shown. For those who wish to buy a complete installation, either hot water, steam or warm air, our Engineering Department will gladly give you an estimate of the total cost and we will arrange to let you pay for the installation on easy monthly payments over a 12-month period.

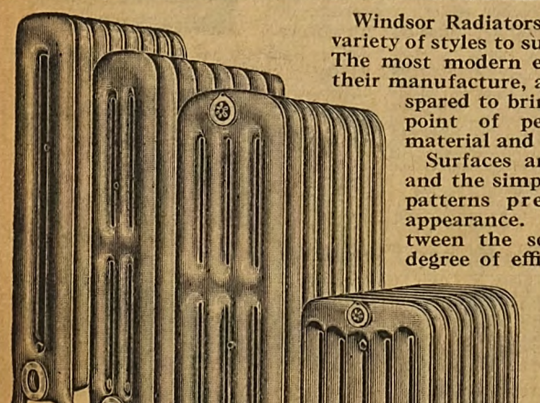
Cast Iron Hot Water and Steam Radiators



All Radiators Shipped in 5 to 10 Days After Order is Received
Shipping weight, per square foot, 7 pounds

Windsor Radiators are made in a wide variety of styles to suit every requirement. The most modern equipment is used in their manufacture, and nothing has been spared to bring them up to a high point of perfection in design, material and workmanship.

Surfaces are perfectly smooth, and the simplicity of the radiator patterns presents a pleasing appearance. Large air spaces between the sections create a high degree of efficiency. All Windsor Radiators are completely assembled before shipment.

How to Order

When ordering specify height, number of columns and the number of sections wanted. Also state whether for steam or hot water, and size of opening for valve and return tappings. Unless otherwise ordered radiator will be furnished for standard size connections as shown below.

Tappings for Steam

All radiators containing 25 square feet or under, tapped for 1-inch pipe; those above 25 square feet, but not exceeding 60 square feet, tapped for 1¼-inch pipe; radiators containing 61 square feet to 100 square feet tapped for 1½-inch pipe; above 100 square feet tapped special for 2-inch pipe.

Tappings for Hot Water

All radiators containing 40 square feet or less are tapped for 1-inch pipe; from 41 to 72 square feet are tapped for 1¼-inch pipe; over 72 square feet are tapped for 1½-inch pipe.

How to Figure Correct Radiation

To figure the heating surface of a radiator, multiply the square feet given for each section by the number of sections. To find price, multiply the price per square foot by the total number of square feet in the radiator. To determine length of radiator, multiply the thickness of each section by the number of sections and add one inch. Allow several inches for radiator valve or elbow.

Two-Column Radiators			
Height, in.	38	26	20
Sq. ft. per section	4	2⅔	2
281 C 7884 Steam Per sq. ft.	36½¢	43½¢	49¢
281 C 7885 Hot Water Per sq. ft.	38¢	45¢	50½¢

Each section is 2½ inches thick and 7⅜ inches wide.

Three-Column Radiators			
Height, in.	38	26	22
Sq. ft. per section	5	3¾	3
281 C 7882 Steam Per sq. ft.	33½¢	40½¢	43½¢

Radiator Valves and Accessories

Quick Opening Radiator Valve For Hot Water

A half turn opens or closes the valve. When valve is closed, just sufficient water is allowed to circulate through the radiator to keep it from freezing. Valve is well made of solid brass, finely nickel plated. Wood wheel handle with nipple and union for connection, as shown in illustration. State size.

Pipe size, inches	¾	1	1¼	1½
Ship. wt., pounds	1½	2½	2¾	3¼
81 C 7900	90¢	$1.10	$1.45	$1.85

Composition Disc Steam Radiator Valve

Made of solid brass, nickel plated. Brass nipple, accurately ground ball joint union for connection to radiator. Will not leak. Special composition disc closes over the valve seat. Sure closing under all conditions. Fitted with wood turning handle. State size.

Pipe size, inches	¾	1	1¼	1½
Ship. weight, lbs.	1¾	2¼	3	4¾
81 C 7901	$1.10	$1.25	$1.60	$2.10

Heat Intensifier

Keeps constant pressure of about 10 pounds on the water in the system so that it may be heated to as high as 235 degrees without boiling. Prevents syphoning. Should be used on all hot water heating systems. Will increase the heating capacity of any system where insufficient radiation has been installed. Solid brass. Threaded side and bottom for ¾-inch pipe connections. Ship. weight, 5 lbs.
81 C 7925 ..... $5.25

Radiator Union Elbow

Solid brass, nickel plated. Accurately ground ball joint union and brass nipple. Used for making return connection from hot water radiators.

Shipping weights: ¾ to 2 pounds. State size.

Pipe size, in.	¾	1	1¼	1½
81 C 7904	48¢	65¢	80¢	95¢

Compression Hot Water or Steam Air Valve

For releasing air from hot water or steam radiators. Brass, nickel plated. Threaded for ⅛-inch iron pipe. Shipping weight, 4 ounces.
81 C 7912—Valve only ..... 9¢
81 C 7915—Key only ..... 4¢

Automatic Steam Air Valve

Permits free escape of air from steam radiators. Adjustable. Brass, nickel plated. Threaded for ⅛-inch iron pipe. Shipping weight, 4 ounces.
81 C 7911 ..... 35¢

Brass Air Cock

Polished brass. Shipping weights: 3 to 6 ounces. State size wanted.

Iron pipe size, in.	⅛	¼	⅜	½
81 C 5428	13¢	16¢	17¢	20¢

Hot Water Thermometer

Indicates temperature of water in hot water heating systems. Usually mounted on boiler. Magnifying spirit filled tube. Scale reans 20 to 260 degrees Fahrenheit. Accurately tested and adjusted. Standard ½-inch pipe thread. Shipping weight, 1¼ pounds.
81 C 7910 ..... 85¢

Windsor Air Moistener

Prevents dry air. Hangs over back of radiator out of sight. Galvanized steel, gold bronzed. Holds four quarts water. Ship. weight, 5 lbs.
81 C 7936 ..... 65¢

Galvanized Expansion Tanks

For hot water heating systems. Controls water capacity and pressure. Easily installed in closet or attic. Strongly made and heavily galvanized. With brass water gauge, glass and guard rods. Pipe connections shown not included. Capacity in gallons listed with size below. Shipping weights: 40 to 88 pounds.
181 C 7905—State size wanted.

Capacity	Size, In.	Radiation	Each

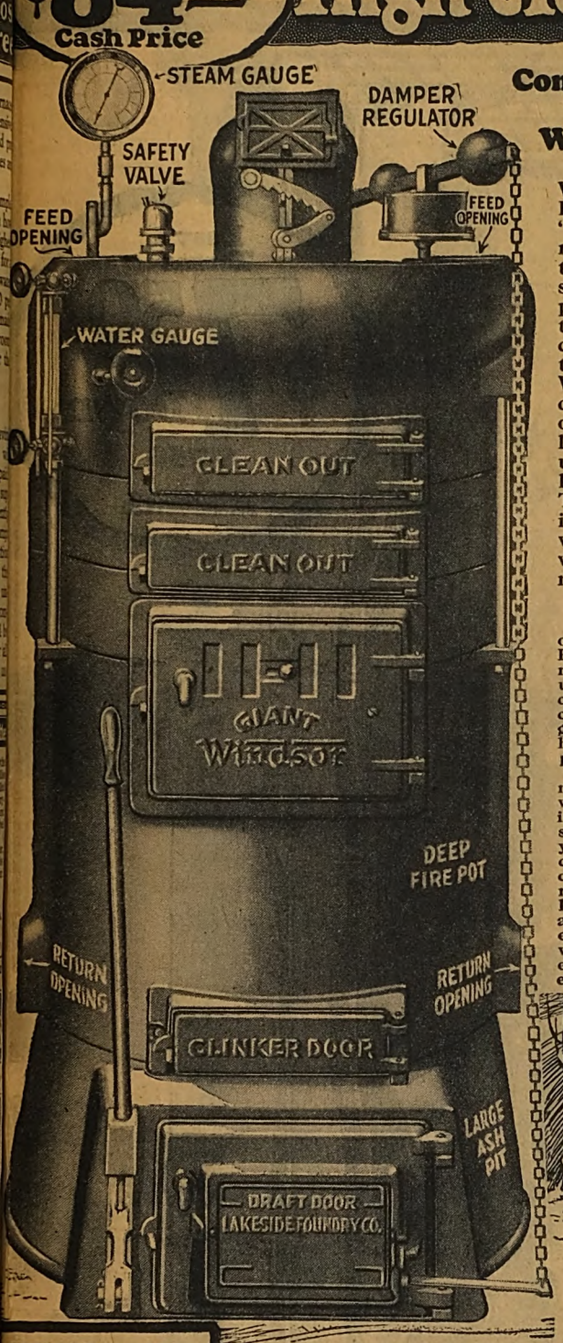
High Grade Boilers

Steam $84.85 Cash Price — **Hot Water or Steam** — **Hot Water $63.85 Cash Price**



Compare with Prices Usually Charged for Such Boilers
We Save You at Least 50 Per Cent

The saving we offer you on these Windsor Steam and Hot Water Boilers is so great that we repeat—"We never sacrifice quality to make a low price." Boilers of this type and high quality, when sold in the usual way with many profits added, are so expensive that many home owners have felt compelled to deny themselves of this ideal method of heating. Ward's buys and sells in enormous quantities, and on a small margin of profit. Ready cash and placing large orders out of season gets us unusual price concessions from large, reputable manufacturers. That is why we can bring, within the reach of all, modern conveniences such as these boilers which many have wanted but few now enjoy.

Easily Installed in Any Home

Steam and Hot Water are ideal methods of heating homes or public buildings. Either can easily be installed in old or new buildings and, with the up-to-date unit type boiler, such as the Windsor, can be added to at any time if greater capacity is needed. Steam or hot water give the most uniform and satisfactory heat; and in the long run, the least expensive heat you can have.

The Windsor Steam or Hot Water plant not only gives you the comfort and convenience of the most modern heating system known, but the day it is installed it increases the selling price of your property by at least double the cost of the plant. It is good for practically the life of your building, for it can not rust out nor burn out. This installation requires the least attention of any heating system known; fired once every eight hours in the coldest weather, will keep your home comfortable. It is easy to install, safe, reliable and very economical of fuel.

See the opposite page for the Easy Payment Plan on our Complete Heating Installations.

Ratings on Ward's Boilers are very conservative. Under ordinary conditions their heating capacity is greater than rating given.

Make Any Comparisons You Like in Judging Windsor Quality

Windsor Giant Steam and Hot Water Boilers are made by one of the largest and most reputable boiler makers in the country. They are constructed exactly like the boilers that dealers will tell you represent the highest perfection in modern steam or hot water equipment. They are built entirely of cast iron in sections in the approved round shape. This unit construction permits you to buy exactly what you need for the smallest cottage or the largest home. You can increase the capacity at any time by adding units. Windsor boilers come to you thoroughly tested and fully guaranteed. They will burn hard or soft coal, wood, gas, oil or any other fuel. Fire pot is deep with no corners to waste fuel or hold ashes. Fire door is of generous size. Cleanout is easily accessible. All joints between sections are of the latest watertight push nipple type, requiring no gaskets. These boilers are sold to you with the understanding that, if you do not find them as good as you can buy; or, if you do not feel you have made a big saving, you can write us and get your money back including transportation charges. We guarantee Windsor Boilers to be equal to the best you can buy.

$10.00 Down — Ten Dollars A Month

Use Easy Payment Order Blank No. 3 on Page 697

Windsor Steam Boilers Equal Any Boilers Made

Windsor Giant Steam Boilers are built exactly like the hot water boilers with the exception of the top section which provides a steam dome. Closely fitted sections are drawn together by four heavy steel tie rods and are guaranteed leakproof. Grates are of the rocker, clinker breaking type—thick, heavy and perfectly balanced. Ash pit is extra large. Fire pot has openings for coil to heat water for domestic use. This boiler comes complete with water gauge, steam gauge, safety valve, automatic damper regulator, shaker handle, steel wire cleanout brush, scraper and poker, also complete instructions for setting up and operating. Prompt shipment from a warehouse near you. Prices and specifications are listed below.

Windsor Hot Water Boilers Are Unequalled Values

The Giant Windsor Hot Water Boiler has the same fire pot and grate construction as the steam boiler and each unit is provided with a handy cleanout door. As in the steam boiler all necessary openings for connections are bored and tapped. The design of the combustion chamber and fire pot and upper sections is such that the fuel and gases are entirely consumed and the hot flames are forced around the cast sections by a baffle plate construction which insures the utmost heating capacity. Each hot water boiler comes complete with shaker handle, steel wire cleanout brush, scraper and poker and complete instructions for installing and using. Large stocks are carried, ready for immediate shipment from the warehouses listed at left.

Leads Them All Regardless of Price

Save $50 to $75 and Get a Better Furnace

When we say our Windsor Pipeless Furnace leads them all, regardless of price, we mean exactly that. We know there is no better pipeless furnace made. Actual comparison proves that most of the pipeless furnaces selling for from $50 or $75 more, weigh no more and are no better than the Windsor in construction or heating capacity. We never have found a pipeless furnace at any price that is better than the Windsor. Buy your Windsor Pipeless Furnace today; set it up and use it. Compare its construction, part by part, with any pipeless furnace made. Compare its heating capacity, fuel economy, appearance and general stability. Then if you do not feel that the Windsor is the greatest value you have ever seen; if you do not find it equal in weight, construction and heating capacity to other furnaces selling for nearly double our price; or if you are not convinced you have saved at least $50, write us for shipping instructions and we will refund every cent you have paid, including all transportation charges. There never was a fairer or a stronger guarantee than we give on the Windsor. Nowhere else can you get so much for your money. And only from Ward's can you buy the genuine Windsor Pipeless Furnace.

Install a Windsor and Give Your Family Real Home Comfort

No one who has never enjoyed the comfort of a Windsor Furnace heated home can fully appreciate what a difference it makes. Think what it means to the women and children, confined in the house all day, to have warmth and comfort in every room and no stoves to tend; no coal, wood nor ashes to be carried through the house; no stoves to set up or take down, just one fire to tend and that in the cellar, out of the way and easily regulated from upstairs.

Uses Less Fuel

The Windsor Furnace uses much less fuel than the stoves it replaces and gives more and better heat. Many users write us that the Windsor has reduced their fuel bill from one-third to one-half. It gives an evenly distributed warmth all over the house and keeps the air circulating, so that it is always fresh and pure. With a Windsor it takes but a few minutes to start a fire with kindlings or scraps on damp days to take off the chill.

It will keep the whole house comfortably warm in the coldest weather. Burns hard or soft coal, lignite, wood or cobs. It heats quickly. There are no radiating pipes to absorb the heat generated. By attaching a water coil, at small expense, you can enjoy the comfort of plenty of hot water at all times. Water pan in the furnace moistens the air as it is heated. This prevents sore throats.

Requires Little Care

Anyone can fire the Windsor Furnace as easily as a stove. You can have a hot fire, a slow fire or a banked fire. In the morning, when the fire has been banked at night, just open the dampers, shake the grates and almost instantly a flood of warm air pours out through the house. The Windsor will heat large and small homes comfortably, can be used for schools, churches, stores and halls.

Improved Features That Make the Windsor the Best Furnace for You

Fine Workmanship There is no pipeless furnace made on which more care is given to getting absolutely gastight joints in the castings. The deep, perfectly fitting cup joints and the heavy castings of the Windsor are fitted tight and cemented for further protection, so there is no odor of gas or smoke in the air you breathe. All doors and drafts have machine ground and fitted joints.

Fire Pot Has its heating surface greatly increased by the deep ribs and corrugations which also add strength and life. Being corrugated inside as well as outside, a constant circulation of air is furnished the burning fuel around the outer edge of the fire pot, preventing a dead space where heat is most needed.

Base Extra heavy cast iron, providing a big, roomy ash pit and firm foundation for the heavy fire pot, fuel section and dome.

Grates Extra heavy and of the triangular type. These last longer than the ordinary flat grates, because two sides of each bar are exposed to the air and only one side to the fire. This prevents warping and burning out.

Fire Dome Made high and dome shaped so most of the gases are consumed before entering the cast iron radiator ring. Deep corrugations inside and outside on the heavy fuel chamber castings provide an extra large radiating surface. All joints positively gas tight.

Radiator Extra heavy cast iron. Is three to five inches larger in diameter than on most furnaces of the same size. It is horse-shoe shape and extends around and over the fire dome. All fuel gases not burned in the fire dome must pass entirely through and are consumed before escaping into the chimney, utilizing every atom of heat.

Outer Casing Made of heavy gauge galvanized sheet steel fitted with our improved draw band that simplifies installation. The inner casings are also made of heavy gauge sheet steel, thoroughly galvanized and spaced one inch apart. This provides insulation between the warm air chamber and the cold air space, as indicated in the picture on the opposite page. This construction is much superior to the tin, asbestos lined casings used in ordinary furnaces.

Water Pan A large, easily accessible water pan made of cast iron is built into the front of the Windsor just under the fuel door. By keeping this filled with water you are sure of fresh, wholesome, moist air in every room in the house, preventing sore throat and nasal troubles.

Furnace Doors The Windsor has an extra large fire door to take large chunks of coal or wood. Ash door is especially large, to permit easy removal of ashes. Water pan and cleanout are at the front and easily accessible.

Here Are Ward's Low Prices for This Big Heavy Furnace

Prices quoted for all Windsor Pipeless Furnaces listed below include the following: Furnace complete with register, adjustable to fit cellars 6 to 8 feet high; cement; and check draft; regulating dial with 25-foot chain and pulleys; one poker; one shaker; complete set of instructions.

*Furnaces, Smoke Pipe, Smoke Pipe Elbows and Dampers shipped from Southern Ohio or Southern Michigan, whichever is nearest you

Be Sure To Order a Size Large Enough For Your Needs

The heating capacities shown above are conservative, being based on a slow burning fire, using hard coal in zero weather. For soft coal, we recommend one size larger, and two sizes larger if you intend to use wood. Make extra allowance if your house is difficult to heat and if temperature falls below zero, as a larger furnace need not be fired so hard and, consequently, will last longer. Write us and our Engineering Department will advise you the size you need.

Freight Charges Are Low

A 1000-Pound Furnace Can Be Carried 300 Miles For Less Than $6.00 Shipped from Warehouse in Southern Michigan or Ohio

Ward's Easy Payment Plan

$7.50 Down and Only $7.50 A Month

Enjoy the Windsor While You Pay for It

Why wait until you have the full purchase price? Take advantage of our low prices and easy terms. The small amount of only $7.50 down brings this furnace to your home. You can pay the balance at the rate of $7.50 a month while you enjoy the comfort of the furnace. This makes the cost only 25¢ per day. We carry large stocks of Windsor Pipeless Furnaces at conveniently located warehouses, and can give you prompt shipment and a good saving in freight charges.

Easy to Install—Do It Yourself

There is nothing difficult or complicated about installing the Windsor Pipeless Furnace. Only one hole to cut in the floor. Any handy man with someone to assist him in lifting the heavy castings can set up this furnace in a few hours.

All Castings Fit Perfectly Easy to Set in Place

Adjustable to Height

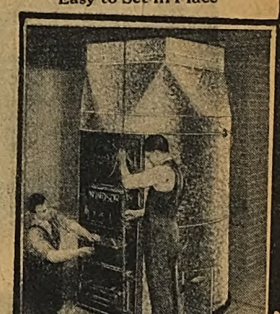
The top part of outer casing of the furnace is adjustable to make the furnace fit in any cellar six to eight feet from floor to ceiling. We include the necessary cement to use in making absolutely gastight joints on all heavy castings. This is very easily applied.

Easy to Assemble

The heavy galvanized inner and outer casings are cut to fit perfectly and equipped with all necessary rings and bolts to draw them into place. Heavy cast iron register is made exceptionally strong to stand the weight of people walking over it.

Operates From Upstairs

It fits down flush with the floor, making a very neat job. A control dial for use in opening and closing the drafts on the Windsor Pipeless is furnished with each furnace. It is easily installed and, by means of the long chain and pulleys included, it is possible to put this where it is most convenient for your use. A complete set of simple instructions, giving every detail in the work of setting up the Windsor, is included with each furnace.



Put on the Casing and Front Connect Smoke Pipe—It's Done

Automatic Heat Regulator

For use with pipe and pipeless furnaces, also steam or hot water heating plants. It is absolutely reliable, easy to install and will keep your home at an even temperature day and night. As the temperature tends to rise or fall, the motor is set in motion and the dampers close or open as needed to maintain an even temperature. Simply set the outfit for any low temperature when retiring, then set clock to throw it over to 70 degrees, an hour or two before you expect to rise. Set of instructions and all materials included.

181 C 7899—With clock attachment. Shipping weight, 30 pounds. $32.95

181 C 7898—Without clock attachment. Shipping weight, 28 pounds. $27.95

Combined Floor and Ceiling Register

Used to permit heat to pass into second floor rooms and located where circulation is not good. Ship. wts.; 7 to 18 pounds. 281 C 8025—State size wanted.

FOR those who prefer a heating system with warm air registers in different parts of the house, no furnace sold excels our WINDSOR PIPE FURNACE. In design and construction it is up to the best engineering standards and we invite the closest comparison of any of its parts with those of any furnace made, regardless of price. If such comparison and actual use does not convince you that the Windsor is as well made and heats as well as any furnace you have seen, write us for shipping instructions. We will refund all you paid. Certainly no furnace of this kind can compare with the Windsor Furnace in value. Our price for the complete installation actually saves you $75 to $150, when compared with the usual prices asked by dealers.

You Will Never Regret Buying the Windsor

In buying the Windsor Furnace you get a long life furnace with large extra heavy castings, improved grates, heavy cast iron front and the most improved fire pot and combustion chamber construction. The fire pot, made in two heavy castings to allow for expansion and contraction, is a great improvement over the old one-piece fire pot which will crack and burn out, no matter how well or how heavy it is made. Every detail of this furnace is designed with this same regard to service and long life. As will be seen from a study of the illustration, the cemented, self-packing cup joints in the heavy casting absolutely prevent smoke or gas leaking into the warm air chamber. This tight construction with our close fitting ground joint doors and perfect damper and draft regulation, corrugated fire pot construction and improved radiator makes for perfect combustion. The Windsor gives you genial warmth in any room in any weather and a constant circulation of moist, pure air. Burns hard or soft coal, wood or lignite.

Superior Features of Windsor Construction

The illustration will give you an excellent idea of the heavy, substantial construction of this furnace. It comes to you in sections, ready to set up. The largest casting will go through a door 2 feet 6 inches wide, so you will have no trouble getting it into your basement. Any handy man can set it up. The double casing is made of heavy galvanized sheet steel with an air space between, which prevents waste heat in the basement. Cold air can be drawn from outside or from one of the first floor rooms, as desired. Big roomy ash pit, easily accessible water pan, large fuel door and convenient cleanout are just a few of the features which recommend the Windsor. With it we furnish dial, chains and pulleys for controlling the damper and draft regulation.

These Specifications Are Proof of Its Quality

Radiator. Extra heavy and 3 to 5 inches larger in diameter than on most furnaces of same size. Made of cast iron—will not warp—and is horseshoe shape so all smoke must make complete circuit before entering smoke pipe.

Fire Dome. Made high and dome shape so most gases will burn before entering radiator. Deep corrugations inside and out provide larger surface to take up heat, also larger surface to radiate the heat.

Fire Pot. Deeply corrugated to increase radiating surface and add strength and life. Corrugations provide free circulation of air to fuel around outer edge of fire pot. All joints are gastight.

Grates. Extra heavy triangular type; last longer than ordinary flat grates because two sides of each bar are exposed to air, one side to fire.

Ash Pit. Extra deep and large—will hold a large amount of ashes without interfering with draft. Full width ash door makes removal of ashes easier.

Draft Door. Extra large to admit plenty of air for heavy firing in extremely cold weather.

Fire Door. These furnaces have large fire doors. Easy to feed—large chunks of coal or wood go in easily.

Water Pan. Insures moist and healthful air. Made large to require the least amount of filling. Easily accessible.

Leakproof. All joints are cup type and therefore gastight. Impossible for gases to reach living quarters. Doors ground smooth and fit closely insuring positive control of draft. The Windsor will hold fire longer and use less fuel because of this better construction and better design.

Casing. Made of heavy galvanized steel with inner casing also of galvanized steel. Between the two casings is an air space. This keeps all the heat in the furnace.

Ward's Easy Payment Plan. If you wish to buy the Furnace only on our Easy Payment Plan, a down payment of $7.50 with your order brings it to your home. The remainder can be paid in monthly installments of $7.50 each. This makes the total cost only 25¢ a day. Use Order Blank No. 3 on Page 697.

Easy Payments on Complete Outfit

If you wish to buy the Furnace and all necessary pipe and fittings on our Easy Payment Plan, write us. Our Engineering and Estimating Department will give you the total cost and quote you our easy payment terms on the entire installation, giving you 12 months in which to pay.

Read this Letter

"I now have two Windsor Furnaces, one in my home and one in a house I rent. I installed both myself, having had no trouble. I believe I saved at least 50 per cent on the cost of them."
B. B. Monroe,
Dubuque, Ia.
Printed with Mr. Monroe's Permission

Install the Windsor Yourself And Add to Your Savings

Instructions for setting it up are included with each furnace. When furnaces are ordered complete with all pipe, registers and fittings our Engineering Department will in addition supply you with simple plans to follow, showing you exactly how to proceed, step by step.

A saw, hammer, screw driver and a pair of tinner's shears are all the tools you need. No experience or mechanical ability is necessary.

The entire system can easily be installed in the evenings or during spare time. You make a big saving by doing the work yourself.

Be Sure to Order a Size Large Enough

We always quote conservative heating capacities based on a slow burning fire using hard coal in zero weather. If you intend to burn soft coal, order a size larger, and two sizes larger for burning wood. Make extra allowance for a house difficult to heat and for climate where temperature frequently goes below zero. It pays to buy a larger furnace than is actually required in any case, as it need not be fired so hard and will last longer. If you have any doubt as to the size to order, write us and our Engineering Department will figure for you the size you should use. This free service places you under no obligation whatever.

Electric Welded Galvanized Range Boilers

$8.25 Without Fittings

Ward's Guaranteed Range Boilers priced lower than the usual wholesale prices.

These Boilers are 60 inches high without stand. A 30-gallon boiler is large enough for an ordinary household. If the pressure is over 85 pounds, we recommend our extra heavy boiler. Prices for boilers complete include stand, cold water tube and 4 union couplings with ¾-inch iron pipe thread. Price for boilers only include nothing but the boilers. The fittings included with our boilers, when ordered complete, have standard iron pipe thread, for which we make no additional charge.

Standard Range Boilers

Regular standard weight Boiler. Tested at 200 pounds pressure. For 85 pounds water pressure. Tappings are government standard.

Capacity	Ship. Weight	181 C 6707 Boiler Only No Fittings	181 C 6719 Boiler with Fittings
30 gals.	75 pounds	$ 8.25	$10.50
40 gals.	100 pounds	10.95	13.25
52 gals.	135 pounds	18.45	21.85

Extra Heavy Range Boilers

Priced lower than usually asked for standard weight boilers. For 85 to 150 pounds water pressure. Tested at 250 pounds.

Capacity	Ship. Weight	181 C 6708 Boiler Only No Fittings	181 C 6728 Boiler with Fittings
30 gals.	85 pounds	$10.25	$12.45
40 gals.	110 pounds	12.95	15.25
52 gals.	145 pounds	22.95	26.50

Combination Tank and Heater Heats Water in Less than 5 Minutes

Uses Natural or Manufactured Gas

A NEW and improved hot water Tank and Heater all in one. Looks well, takes less room, is easy to install, heats quickly and uses little gas. Galvanized steel tank is extra heavy in body, top and bottom. Tested to 150 pounds working pressure. All galvanized fittings. Made to give good service and last long.

Can Also Be Connected to Furnace or Range

Tapped openings are provided for connection to range or furnace, which saves using gas in winter. Small illustration shows how super-heating unit directly over gas burner gets full benefit of flame. Heated water passes upward alongside central flue, which also heats water; no wasted heat. For estimated freight charge, see table below.

181 C 6721—State size wanted.

Size	Diam.	Height	Ship. Wt.	Each
24 gal.	12 in.	4 ft.	125 lbs.	$23.75
30 gal.	12 in.	5 ft.	140 lbs.	26.50
40 gal.	14 in.	5 ft.	160 lbs.	37.50

Riveted and Welded Galvanized Range Boilers

$8.95 Without Fittings

Ward's now offer a substantal saving in a Riveted and Welded Boiler, for those who prefer this type boiler to a plain welded boiler. Made of heavily galvanized steel, electrically welded and reinforced with a continuous row of rivets. Every boiler is tested mechanically under water pressure before and after galvanizing.

These boilers are 60 inches high without stand. A 30-gallon size is large enough for the average household. If the pressure is over 85 pounds, we recommend our extra heavy boiler. Prices for boilers complete, include stand, cold water tube and 4 union couplings with ¾-inch iron pipe thread. Prices for boilers only, include nothing but the boiler. The fittings included with our boilers when ordered complete, have standard iron pipe thread, for which we make no additional charge.

Standard Range Boilers

Regular standard weight. Tested at 200 pounds pressure. For 85 pounds water pressure.

Hot Water Gas Heater

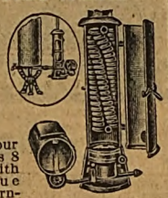
$5.98

For quickly heating water in galvanized boilers. Heats sufficient water for bath in twenty minutes. Burns either natural or manufactured gas. Has double copper coil. Water tappings for connection to ¾-in. pipe. Gas valve tapped for ½-inch iron pipe. Height, 18 inches. Diameter, 7 inches. Cast iron jacket, top and bottom. Shipping weight, 31 pounds.

481 C 7822.....$5.98

Warren Hot Water Heater Burns Kerosene Only

$22.45



Contains four heavy copper coils 8 feet long. Fitted with latest type blue flame kerosene burner. The coils are arranged in a half turn, which interrupts the flame and utilizes the greatest possible amount of heat. Water tappings threaded for ¾-inch pipe. Height, 28¼ inches. Shipping weight, 55 pounds.

181 C 7817.....$22.45

Drain Valves

For Range Boilers. Solid brass rough nickel plated drain valves. Threaded for ½ inch iron pipe.

81 C 5431—Shipping weight, 1 pound.....45¢

Boiler Stands

High grade cast iron range Boiler Stands. Substantially made; should last a lifetime. Ship. wts.: 4 and 15 pounds.

Windsor Special Pipeless Furnace

$7.50 Down $7.50 A Month

$56.95 Cash Price

A good quality Furnace for the home owner who does not care to install a more expensive heating plant. This furnace is similar to our BIG WINDSOR PIPELESS FURNACE, with the exception of having a double galvanized casing, instead of the triple casing. The casings are spaced one inch apart. The air space acts as an insulation and assures your receiving a maximum amount of heat, a type of insulation that is much superior to the old type asbestos lined casings. This furnace draws its cold air from the basement.

Heavy and Sturdy Construction

The **Radiator** is extra heavy. Made of cast iron, will not warp. The **fire dome** is high so all gases will burn before entering radiator. The **fire pot** has heavy deep corrugations, inside and outside. This adds strength and life to the fire pot and also provides circulation of air to the burning fuel around outer edge of fire. The **grates** are of the heavy triangular type. The **ash pit** is extra deep and large. The **fire door** is extremely high and wide. The **water pan** placed in the front where furnace is the hottest, insures moist, healthful air. **Draft door** is extra large.

Prices for the Windsor Special Pipeless Furnace include floor register, regulating dial, chain, pulley, shaker handle, check damper and cement. Easily and quickly installed. No smoke pipe included. Pipe and elbows listed above. For estimated freight charges see Page 625.

Windsor Wood Burning Pipeless Furnace

$7.50 Down $7.50 A Month

$104.85 Cash Price

A New Windsor Pipeless Furnace especially built for burning wood. Will also burn coal.

The need of a furnace for burning wood or coal with equal success, has long been felt in the communities where there is yet a plentiful supply of firewood. In extremely cold weather when the home owner wishes a continuous fire overnight, this furnace will burn coal with equal efficiency, and keep every room in the house warm and comfortable. It is easily and quickly installed.

Heavy and Sturdy Construction

The **Radiator** is extra heavy. Made of cast iron, will not warp. The **fire dome** is high so all gases will burn before entering radiator. The **fire pot** has heavy deep corrugations, inside and outside. This adds strength and life to the fire pot and also provides circulation of air to the burning fuel around outer edge of fire.

The **grates** are of the heavy triangular type which lasts longer than the ordinary flat grate because two sides are exposed to the air and one to the fire, preventing warping. **Ash pit** is extra deep and large. The **fire door** is extremely high and wide to allow burning of good size logs. **Water pan** insures moist healthful air. Placed in the front where furnace is the hottest. **Draft door** is extra large. **Triple casings**: Outer casing is of heavily galvanized steel sheets. Inner casings are made of the same material with an air space between. The air space is a perfect insulator and prevents wasting heat. Compare this furnace and you will be convinced it is the finest wood burning furnace offered at such a moderate price.

Sizes and Specifications. See Page 625 for estimated total freight charges.

Standard Wrought Steel Pipe Black and Galvanized

Pipe and Fittings

The figures on the handy scale below are the actual outside sizes of standard pipe. These same figures are the inside sizes of standard fittings. For example, if the threaded end of a pipe measures ¾ on the outside, using this scale, it is what is known as standard ¾-inch pipe.

If the thing measures ¾ where the pipe screws in, it is a ¾-inch fitting. Fittings are always given the same trade size as pipe they fit. For example, a ½-inch pipe takes ½-inch fittings. Therefore, always order fittings of the same size as the pipe used.

An ordinary foot rule should not be used. Use the scale below which gives sizes corresponding to the standard sizes under which all pipe is sold.

This pipe is all standard weight first quality wrought steel. Unless otherwise ordered, pipe is shipped in random lengths of 16 to 21 feet, each length threaded at both ends and with one coupling. However, should you specify the length of pipe wanted we will cut it accordingly, but will have to make a small additional charge for cutting and threading as shown in the table below, and also for couplings if desired. Pipe over 6½ feet long can be shipped by freight or express only. Prices are subject to market changes.

Ward's Pumps-Built for Service

We Have Made It Easy to Order

You will find it very easy to select here the Pump best suited to your needs and in the exact length wanted. No figuring required. These pumps are correctly designed as to pipe and cylinder size for the work they are to do. Complete lift or force pumps shipped all ready to assemble, with printed instructions. All extra high quality pumps. Castings are extra heavy, smooth and well painted. Cylinders accurately and smoothly finished. Every pump guaranteed.

Will give years of satisfactory service.

Set Length Force Pumps

$8.25 For 4 Ft. Set Length

This Pump has an extra heavy cast iron standard. Has an air chamber in the top of stock, brass stuffing box, polished iron piston, iron cylinder, and ¾-inch hose connection on plain spout. Back of spout is tapped for 1¼-inch iron pipe. Has 6-inch stroke.

This type of pump is extensively used for filling water troughs, tanks, sprinkling and for washing automobiles and wagons.

Prices are for pumps complete with iron cylinder, black pipe and pump rod for depths of wells as specified. For ship. wts. on outfits allow 90 lbs. for pump and add 3 pounds per foot for extension. For estimated total freight charges, see table below.

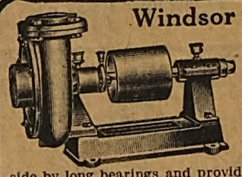
Windsor Centrifugal Pump

$12.75



A Pump for drainage and irrigation service, or other work where a moderate lift of a large volume of water is desired. For use where the pump can be placed not more than 20 feet from the surface of the water and where the total head does not exceed 65 feet. Large pulley, supported on each side by long bearings and provided with grease cups. Extra long packing gland with grease cup reduces friction in the stuffing box to a minimum. **Instruction book with each pump.** For estimated total freight charges, see information below

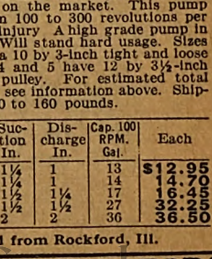
Windsor Rotary Pump

$12.95



An excellent Pump for raising large amounts of water where the lift is not over 15 feet and elevated tank into which water is forced not over 50 feet above pump. Will force water a horizontal distance of 200 feet and throw a solid stream 20 feet. One of the simplest and most reliable pumps on the market. This pump can be run from 100 to 300 revolutions per minute without injury. A high grade pump in every respect. Will stand hard usage. Sizes 1, 2 and 3 have a 10 by 3-inch tight and loose pulley. Sizes 4 and 5 have 12 by 3½-inch tight and loose pulley. For estimated total freight charges, see information above. Shipping weights: 80 to 160 pounds.

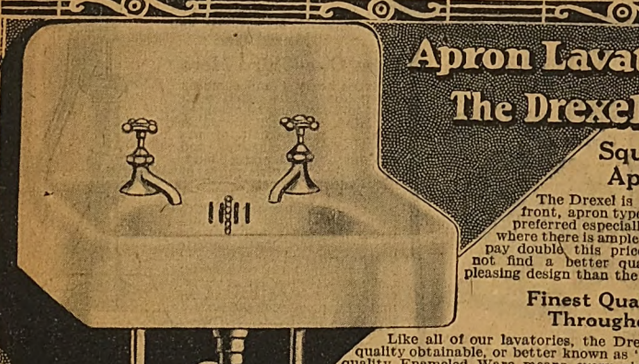
Apron Lavatory

The Drexel



$9.65 Without Fittings

Square Front Apron Style

The Drexel is a popular square front, apron type Lavatory. It is preferred especially for bath rooms where there is ample room. You could pay double this price, but you could not find a better quality, or a more pleasing design than the Drexel.

Finest Quality Throughout

Like all of our lavatories, the Drexel is the finest quality obtainable, or better known as "A" Grade. "A" quality Enameled Ware means every piece is as perfect as it is possible to manufacture. We do not handle "seconds" or inferior grades.

The Drexel lavatory is heavy cast iron, all white enameled. Size, 17 inches by 21 inches, with back 8 inches high. Bowl, 11 by 15 inches.

Lavatory Only, without Fittings
Has chain stay, faucet holders and cast iron concealed wall hangers. Shipping weight, 90 pounds.

Windsor Chemical Closets For Health and Comfort

$5.65 Complete with Chemical

No Running Water or Sewer Needed

Fine for summer cottages, farm houses, resorts, camps or wherever running water and sewer are not available. Sanitary and odorless. Can be used in any home. Easy to install. Its convenience and comfort make it worth double Ward's low price.

One gallon of chemical usually lasts from four to six months

Sanitary, Odorless—Can Be Used Anywhere

Why endure longer the inconvenience and the discomfort of an unsanitary outdoor closet. The Windsor Chemical Indoor Closet brings to your home one of the most necessary modern conveniences. It is easily installed, requires neither plumbing nor running water. Every member of the household will appreciate it, especially the children and those of family who, because of ill health or advancing years, should be spared unnecessary exposure. In time of sickness, in winter months or on cold rainy nights you will appreciate the great advantage of the Indoor Chemical Closet.

It is sanitary and a health protector, the Windsor is endorsed by Health Authorities everywhere. It is just the thing for schools, churches and other such buildings not located near a sewage system. For those who rent homes it is a splendid arrangement since it can be moved readily without harming either the closet or the building.

Installed easily and quickly in curtained corner of bedroom, clothes closet or any convenient place where ventilator pipe can be connected. Floor need not be cut. Chemical quick in action; one gallon, enough for four to six months, included. Container need be emptied only once in ten days or two weeks for a family of five.

Well Made—Will Last for Years

Heavy steel outer case, beautifully gray enameled. Height, 18 inches; diameter, 16 inches. Container is heavy gauge galvanized steel. Polished mahogany finished seat with hinged lid. Seven 12-inch lengths of 3-inch vent pipe; two 3-inch vent elbows; wall collar and chimney reducer for vent pipe, all enameled to match case. Also toilet paper holder, one roll of paper, one gallon of chemical. Shipping weight, 35 pounds.

Highest Quality Plumbing At a Tremendous Saving

$31.00 Without Fittings

Finest quality porcelain enameled cast iron base Bath Tub. Strictly "A" Grade, the finest possible to manufacture. This style is preferred by many because the base prevents dust from collecting under tub. Tub is 30 inches wide and is sold at lower prices than usually asked for leg tubs.

The Bradford Base Tub

We do not handle "seconds" or inferior goods. Height to top of rim, 23 inches; depth, 17½ inches. Heavy 3-inch roll rim. This tub can be furnished with either Ideal or Regular fittings; the outside is painted white or finished ivory white. Read below what Ideal and Regular fittings are, also about our ivory white finish. The base tub illustrated above has Ideal fittings.

All supply connections are threaded for ½-inch iron pipe. Waste connections are for lead pipe. (For iron pipe waste connection, order **81 C 6614—50¢ extra.**)

Read Before Ordering

Ivory white finish tubs go through a special process. The outside of tub is first ground smooth, after which a special filler is applied, and then tub is given six coats of snow white enamel. After each coat dries it is rubbed with pumice to insure a smooth and lasting surface. Will add to the appearance of your bath room.

Regular Fittings. All Brass, Nickel Plated

Consists of one 81 C 6520 connected waste and overflow with chain and stopper, one pair 81 C 6521 supply pipes, and one 81 C 5471 fuller bath faucet.

Ideal Fittings. All Brass, Nickel Plated

Consists of one 81 C 6522 Ideal waste, one pair 81 C 6521 supply pipes, and one 81 C 5471 fuller bath faucet. All these fittings are heavy, solid brass, nickel plated, and are shown below.

Spotless Bath Tubs

$22.95 Without Fittings

The Walton

Sanitary And Easy to Keep Clean

Compare our price for the "A" Grade Walton Bath Tub with those quoted by others. **We are selling an "A" quality porcelain enameled cast iron bath tub 5-feet long and 30 inches wide with legs, for less than is usually asked for a tub 26 inches wide.** Suitable for the finest home. Sanitary and easy to keep clean. The beautiful, glistening white appearance will win the admiration of anyone.

This tub is standard in every way—23 inches high to the top of rim, 17½ inches deep inside and 30 inches wide over the rim. Rim is porcelain enameled 3 inches wide. Furnished with Regular or Ideal fittings and the outside finished with one coat of white paint or ivory white. To the left we state what Regular and Ideal fittings are; and also describe our ivory white finish. All supply connections are for ½-inch iron pipe, waste connections are for lead pipe. (For iron pipe waste connection, order **81 C 6614—50¢ extra.**)

The Windsor Recess Tub

$55.50 Without Fittings

Fits in Recess of Wall

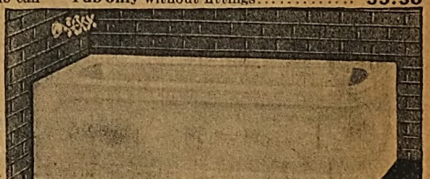
First quality one-piece built in Bath Tub made of cast iron white porcelain enameled. This tub is heavily enameled inside, also the front apron that extends down to the floor is enameled. All fittings are concealed except the solid china water supply and waste handles.

Fittings include 1½-inch brass waste pipe; ½-inch supply pipes; ¾-inch discharge spout; brass overflow tube; and strainer. All exposed brass fittings are heavily nickel plated. Handles are marked "Hot," "Cold" and "Waste." This tub can be furnished only in the 5-foot length. It is 30 inches wide, 17 inches deep, 18 inches high from the floor and has 3½-inch rim. A recess bath tub requires little floor space. **State whether fittings are to be at left or right hand end of tub.** Illustration shows fittings on left side. Shipping weights: Complete, 550 pounds; tub only, 500 pounds.

181 C 6423—Complete with fittings described above. **$73.45**

181 C 6431—Tub only without fittings..... **55.50**

The Windsor Corner Tub



Made of heavy cast iron in one piece, and entirely coated both inside and outside with the finest quality genuine white porcelain enamel. Will not chip or crack.

All fittings are concealed except the solid china water supply and waste handles. Fittings include 1½-inch brass waste and overflow; ½-inch supply pipe; ¾-inch discharge spout; exposed brass fittings are heavily nickel plated. Handles are marked "Hot," "Cold" and "Waste." Size: 5 feet long, 30 inches wide, 17 inches deep, 18 inches high from the floor and has a 3¾-inch rim. **State whether tub is for left or right hand corner.** Large illustration shows tub for left hand corner. Shipping weights: Complete, 550 pounds; tub only, 500 pounds.

Prompt Shipment Highest Quality Fencing Low Prices

Genuine Ajax Ring Knot Fencing

Direct from Our Factories Saves You One-Third

Good Fences Make Good Farms—Good Farms Make Money

Successful and prosperous farmers increase their profits by putting up good fences. Ward's low prices for high grade Ajax Fencing are far below the prices usually charged by dealers. Choose Ajax and get greater protection for less money. Ajax fences break breachy stock, avoid costly law suits and save many dollars in poultry losses. Every field should be well fenced. There is an Ajax fencing for every use.

In selecting the sizes and weights of wire used in Ajax Fencing we have been guided by the experiences of thousands of farmers and stockmen everywhere over a period of many years. We absolutely guarantee Ajax Fencing to have the strength and rust-resisting qualities necessary to give many years of satisfactory service.

Although we sell stock fencing in many gauges, from 9½ to 14 inclusive, we particularly recommend Ajax Fencing made from 10-13 and 11-14 gauges as the most satisfactory for the purpose, service and economy considered; they will give satisfactory service for many years and cost only about one-half as much as fencing made from wire heavier than you need.

The life and strength of a fence depend in a large measure upon the posts. We recommend Ward's quality Steel Fence Posts placed one rod apart.

Jobbers' and dealers' profits and expenses are not included in these new low prices. Ajax Fencing is manufactured in our own factories from raw materials, purchased when prices were far below the present market. We have added only one small profit to our actual manufacturing costs—that is why you make such a large saving. Only the very best galvanized wire is used to manufacture Ajax Fencing and every rod is guaranteed to give complete satisfaction or your money will be refunded plus all the transportation charges you have paid.

We want you to compare these prices on fencing. Then order Ajax and test the quality. You, too, will say that Ajax represents the biggest fencing value on the market today.

Convenient Shipping Points And Our Big Stocks Mean Quick Service

Every order for Fencing is shipped from our Factory or Warehouse nearest you the same day the order is received. At all of our shipping points we carry large stocks of all styles of fencing. Warehouses and factories have been purposely located near important freight centers, so quick delivery to all of our customers is assured. Buy your Fencing from Ward's—get the best in service, quality and price.

Estimated Total Freight Charges Per 100 Pounds on Fencing

Rates from Factory to	Factory Located In: Adrian, Michigan	Libertyville, Illinois	Fort Madison, Iowa
Lima, Ohio	28¢	$ .44	$ .49
Des Moines, Ia.	.....	.55	.26

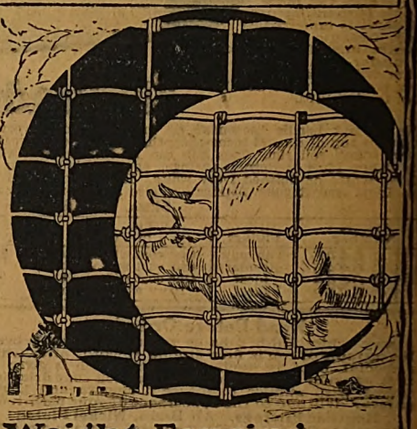
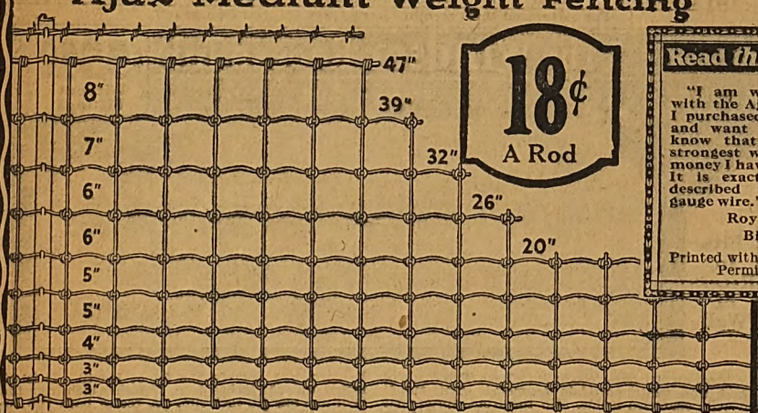
Traverse City, Mich.	47¢	.57	.....
Knoxville, Tenn.	97¢	1.05	1.01

Pay the Freight Bill Yourself and Save Money

When a dealer "prepays the freight charges," he means this: First; to the actual cost of the fencing, he has added enough extra cost to cover freight charges to all points in his territory and second; to this entire amount he has added his profit. No matter where you live or with whom you trade, freight charges must be added to the final price of all goods you buy. Your freight agent will gladly tell you the exact amount of freight you must pay for a shipment from our nearest factory. Add this amount to our price for fencing and see how much you still save. We unreservedly guarantee to save you money after all the shipping charges are paid.



Ajax Medium Weight Fencing



18¢ A Rod

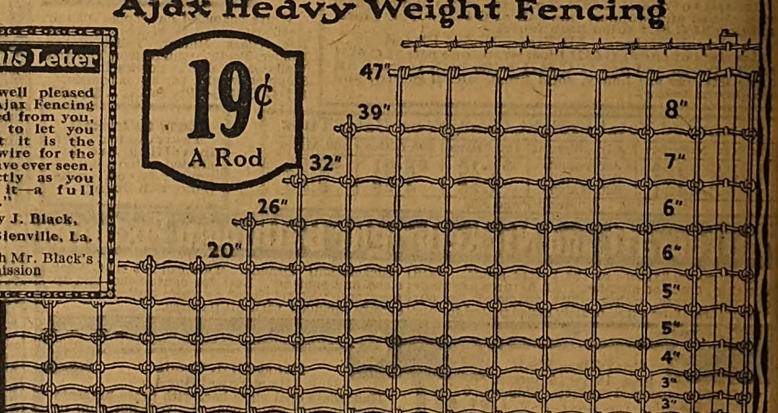
Read this Letter

"I am well pleased with the Ajax Fencing I purchased from you, and want to let you know that it is the strongest wire for the money I have ever seen. It is exactly as you described it—a full gauge wire."

Roy J. Black,
Bienville, La.

Printed with Mr. Black's Permission

Ajax Heavy Weight Fencing



19¢ A Rod

NO. 11 GAUGE — Actual Size Wire — NO. 14 GAUGE

An ideal medium weight sheep, hog and stock Fence. Made of heavily galvanized wire. This fence is strong and rigid, yet it stretches readily, and makes a perfect fence over rough and uneven ground. Top and bottom wires, No. 11 gauge; all intermediate wires, No. 14 gauge. Stay wires spaced 6 inches apart. Line wires spaced 3 inches apart at bottom, widening to 8 inches apart at top. Sold only in full bales of 20, 30 and 40 rods. For freight charges, see information above.

NO. 10 GAUGE
NO. 13 GAUGE

Line wires are spaced 3 inches apart at bottom and widening to 8 inches at top. Upright stay wires are spaced either 6 or 12 inches apart. Stretches evenly and readily over rough and uneven ground. This fencing will not sag or buckle. For further saving, see our complete line of steel angle and tee Fence and Corner Posts on Page 635.

The upright stay wires are spaced 6 inches apart. Line wires are spaced 1 inch apart at bottom and gradually widen to 4 inches apart at the top. The mesh at bottom is close enough to turn small chicks. Top and bottom boards are not necessary for this fencing, as it stretches easily and stands firm and erect with fence posts for occasional supports. Sold only in full bales of 10 and 20 rods. We do not break bales.

Sold only in full bales of 10, 20 and 30 rods. All above fencing shipped from Adrian, Mich., Libertyville (near Chicago), Ill., or Fort Madison, Ia., whichever is nearest you

Ajax Ring Knot / Ajax Twist Joint

All wires are drawn from basic openhearth steel and heavily galvanized. Will not rust for years. Top and bottom wires are No. 14 gauge. All intermediate wires are No. 18 gauge. Machine woven, all wires uniformly interlocked.

Constructed of heavier gauge wires than used in the best grade poultry netting, but sold for less. No top and bottom boards are needed to support Perfect Poultry Fencing. The light weight permits it to stretch evenly. The stiff construction causes it to stand erect, without sagging. The heavy top and bottom wires carry the strain. Stay wires are spaced 4½ inches apart. Bottom mesh is 1¼ inches apart, widening to 5 inches at the top. Attach to regular fence posts. We recommend our steel fence post listed below. Long and satisfactory service, high quality, and low price are three reasons why you should buy **Ajax Perfect Poultry Fencing.**

Article Number	Height	Stays Spaced	Line Wires	Ship. Wt., 10 Rods	Per Rod
280 C 5307	48 inches	4½ inches	20	37 pounds	30¢

60 inches	32 pounds	3.50
72 inches	38 pounds	4.10

Standard Mesh Poultry Netting

We carry two grades of Poultry Netting—galvanized before and galvanized after weaving. Netting galvanized after weaving is superior to netting galvanized before weaving because the twists are firmly soldered together insuring greater strength and durability. Because of its durability, netting galvanized after weaving is well worth the slight additional cost.

Fernwood Lawn Fencing

Save One-Third by Buying from Ward's

Adds beauty to any home, and at the same time protects the lawn, shrubbery and flowers. Buy your supply from Ward's and **save one-third.** Made of heavy No. 9 gauge galvanized wire pickets, spaced 3 inches apart and evenly corrugated. The cable line wires are twisted tightly around each picket and are spaced about 6 inches apart, except at top, where strength is most needed, they are only 2½ inches apart.

Ornamental Lawn Gates

Furnished in either the Fernwood or Ridgewood fabric. Frame is made of 1½-inch tubular steel. Will not sag. Ornamental scroll top. Width quoted below is the distance that posts should be set apart as allowance is made for hinges and latch. Double acting hinges for wood posts and latch are included at this low price. The mesh on these gates is close enough to turn small chickens.

State height and style wanted.

Ridgewood Lawn Fencing

Ridgewood is the most popular design and the equal in quality of any lawn fencing sold. Ward's has priced this high quality fencing to save you one-third of the usual retail selling price. Made of heavy No. 9 gauge galvanized wire pickets, spaced 2⅜ inches at top. Close spacing of 1⅜ inches at the bottom keeps out small chickens. The cable line wires twisted around each picket are six inches apart except the two cables at top which are spaced 2½ inches apart. Stands firm and erect. Will not sag or bulge. A durable fence that will give years of satisfactory service.

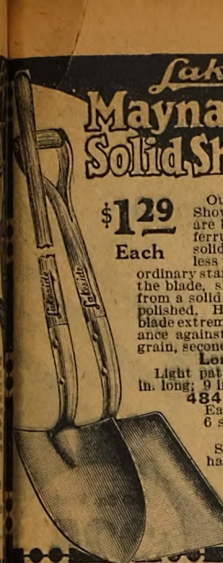
Lakeside Maynard Pattern Solid Shank Shovels



$1.29 Each

Our Lakeside Maynard Pattern Shovels have no superior. They are better than the regular strap ferrule shovel because of their solid shank. Our prices are even less than most dealers ask for an ordinary standard shovel. In the Lakeside the blade, shank and socket are forged from a solid bar of steel. No welds. Full polished. Heat treated which gives the blade extreme toughness with great resistance against bending. Handles straight grain, second growth, northern ash.

$1.85

Lakeside Finest Quality Full Polished Shovels

These fine Shovels are sold to you at prices actually less than wholesale prices to dealers.

The blades and straps are made of forged high carbon steel. Built to meet the enormous strain of prying and lifting. The tempered blade resists gravel or rock. Handles are made of select straight grain ash carefully shaped, polished and waxed.

Every shovel is well proportioned with the correct "lift" or tilt to the blade, and the handle is shaved to the shape and size to give it the correct balance. Blades and straps are ground and full polished.

Examine one of these shovels in your own home. Inspect it carefully, and you will be convinced that you have made a big saving and that it is even better than represented.

Lakeside D Handle Drain Spade

Metal Roofing
Protection Against Weather, Lightning and Fire

1¼ Inch Corrugated

2½ Inch Corrugated

2-V Crimped

3-V Crimped

Ward's Metal Roofing and Siding gives you protection from weather and fires caused by flying sparks. You save money because our prices are low and you can do the work yourself. All you need to lay it is a ladder, hammer and a pair of snips. Nail it right over old sheathing, shingles or on the studding itself. If properly grounded, it protects from lightning.

Only the best openhearth sheet steel is used for our Roofing and Siding. Every sheet is full width from end to end. The corrugations and crimps are full depth. There is no skimping in the gauges, weights, galvanizing or painting of our roofing or siding. We recommend the extra heavy 26-gauge, as it costs no more to put on than a lighter weight and our prices are low.

Ward's saves you money by shipping from Factory nearest you.

Painted Roofing

We use only the best quality of red minera paint. Each sheet is painted on both sides.

Galvanized Roofing

The heavy coating of zinc applied by an electrolytic process to both sides of each sheet makes it rust and weather resisting.

Shipped from Canton, O., Davenport, Ia., or Southern Wisconsin, whichever is nearest you.

100 Sq. Feet **$3.20**

100 Sq. Feet **$3.25**

How to Order

Metal Roofing and Siding

Sheets are 26 inches wide, but should be lapped one corrugation, so one sheet will cover a space 24 inches wide. Be sure to allow for end lap also.

Order by sheets and state length and number of sheets wanted. Use the table below.

Length, feet	5	6	7	8	9	10	12
Square feet Per sheet	10⅚	13	15⅙	17⅓	19½	21⅔	26
One sheet will cover, with no end lap, square feet	10	12	14	16	18	20	24

Remember to Allow for End Lap

A "square" is 100 square feet of roofing. Without end laps it requires 108 square feet to cover 100 square feet of surface. A square will cover, on the average, 90 square feet of surface.

General Ordering Instructions on Page 329

It Is Easy to Order from Ward's

Corrugated Roofing

Each sheet of this Roofing is actually 26 inches wide, but covers only 24 inches because of the side lap. A square will cover on the average 90 square feet of surface (without allowing for end laps). Every sheet is full length and full width with full depth corrugations.

We recommend the 1¼-inch for roofing and the 2½-inch for siding. The 26-gauge galvanized is heaviest and least expensive in the long run. Order 1 pound of 1¾-inch roofing nails for each 100 square feet of roofing and include ridge roll and lead washers in your order. Read **"How to Order Metal Roofing and Siding" above, and be sure to allow for end lap and side lap.**

Read Page 328

V-Crimped Roofing

Each sheet of this Roofing measures 24 inches from center to center of outside crimps so no allowance need be made for sidelaps. A square actually covers a square (100 square feet) of surface (without allowing for end laps). Every sheet is full length and width with full depth crimps. We always recommend the galvanized. Order 1½ pounds of 1¾-inch roofing nails for each 100 square feet of 2-V, and 3 pounds for 3-V. Also include ridge roll, lead washers and wood V strip. **Read "How to Order Metal Roofing and Siding" above, and be sure to allow for end lap only; no allowance need be made for side lap. Ward's saves you money by shipping from factory nearest you.**

Corrugated. Sheets 26 inches wide, but cover only 24 inches. **Allow 2 inches for side lap.**

Lightning Rods

9¢ A Foot
½-In. 32 Wires

Sure Protection To Life and Property

The National Board of Fire Underwriters says that 99 per cent of fires caused by lightning can be prevented by the use of properly installed lightning rods. Records show an immense lightning damage; practically all of it being on buildings without lightning rods. On farms alone, more destruction results from lightning than any other hazard. Put up lightning rods before the lightning strikes.

Install Rods Now

Let yourself and your family have the satisfaction of knowing beyond doubt that your home and your buildings are safe from the danger of lightning. An outfit costs very little compared to the protection it gives. The plain directions we send tell you exactly what to do and how to do it.

How to Measure and Order

Run a stout cord up one corner of the building and along the ridges to all points where uprights are to be placed—and down on the opposite corner of the building. Allow enough to connect to everything of metal, such as gutters and cornices. Allow 10 feet extra at each end for grounding. Uprights must be placed not more than 20 feet apart and on all high points such as chimneys, cupolas and gables. Order cable, uprights, chimney tops, and (if needed) cable connectors. We include **solid copper clips and copper nails free.**

Shipping weight, of complete Lightning Outfit, including cable, uprights, connectors, clips and copper nails about 1 to 1½ pounds per foot of cable.

484 C 4950—Full size, ½ inch, 32 wires, 17-gauge. Per foot..... **9¢**

484 C 4951—For large buildings; ⅝-inch copper cable, 44 wires, 17-gauge. Per foot..... **11¢**

Uprights

Each upright, except chimney top, has three extra long galvanized braces. Five-foot all copper rod and silver tip. We include T-clamp for attaching to cable and screws for fastening braces to roof.

COLORS: Opal; blue; ruby; silver, or gold. **State color of ball wanted.**

584 C 4958—Plain upright (with ball as illustrated)..... **$1.50**
584 C 4960—Arrow Vane upright; arrow in gilt, vane to match ball..... **$2.15**
584 C 4859—Plain upright (same as illustrated, but without ornamental glass ball)..... **$1.15**

Hog, Poultry or Barn Cupolas or Ventilators

$8.85

Heavy galvanized sheet steel construction. Holes on four sides for connecting lightning rod to standard ⅝-inch galvanized rod in the center. Rod extends through the top with an acorn top piece, animal or rooster vane. Shipped taken down and nested. Shipping weights: 35, 50 and 55 pounds.

284 C 5095—State size.

Eaves Trough, Down Spouts and Supplies

A slip joint makes it easy for anyone to put up this Eaves Trough. Simply push sections together. Makes a neat, tight job and requires no soldering at the joint. Always state whether right or left hand trough is wanted, or send sketch of outlets. Right hand means that, as you face the building, the water in the trough will flow to the right.

All our Eaves Trough and fittings are made of new sheets; absolutely no "seconds" are used. All pipe and trough in full 10-foot lengths. All fittings are standard. We highly recommend our extra heavy 26-gauge, because it costs no more to put up and will last twice as long as standard gauge. Our prices on this trough means economy in the long run.

Charcoal Rainwater Filter

$6.98

Keeps your cistern clean. Removable top strainer. Lower compartment to be filled with charcoal. An excellent purifier. **Can be shipped by freight or express only.**

Lakeside Saws
Have Proved Their Quality for Many Years

Finest Quality Saws at a Big Saving

Lakeside Saws are made of the finest quality crucible spring steel; hand hammered, carefully ground to a perfect taper to assure clearance; highly polished and fancy etched. Every Lakeside Saw has that necessary feature of a good saw—the right "hang" which experts demand. It is the perfect balance which makes a saw feel right in your hand. Bend a Lakeside Saw double, and when released it springs back into perfect shape. Every Lakeside Saw is carefully filed and set. Handles made of seasoned, select hardwood and fastened with four, and on some models five, brass screws. Thousands of these saws are in daily use by good carpenters who take pride in their tools and the work they do.

Lakeside High Speed Circular Saws

TRADE MARK

If You Want the Highest Quality Saws at the Lowest Prices, Buy from Ward's

Best grade crucible saw steel, correctly tempered, smithed, blocked, set and hammered. These Saws are the product of expert sawyers of many years experience, who make saws that give you the service to which you are entitled. Always run the saw at proper speed; too fast or too slow is equally bad. See table below. We have in stock for immediate shipment saws with standard size holes as listed, but will supply saws with special size hole at no extra charge. Prices are for saws, set and sharpened, ready for use.

State size of hole and style of saw wanted.

Lakeside Extra Quality Hammers and Hatchets

Buy Lakeside for Quality

No Hammers or Hatchets that we have ever seen have higher quality steel, better handles or more careful finish or workmanship than our Lakeside brand. To be compared only with the very highest priced hammers and hatchets of other makes. They are finely tempered, tested, and correctly shaped. Every hatchet is sharpened, ready for use. The claws on all Lakeside Hammers are designed especially to grip firmly any size nail or brad. Handles on both hatchets and hammers are clear white second growth hickory, designed to give right balance. Wedged to prevent loosening. Lakeside Tools are fully guaranteed.

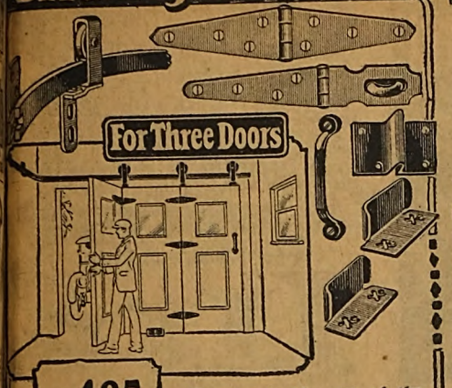
Around the Corner Sliding Door Set



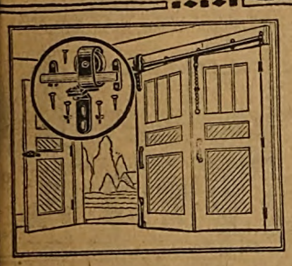
$4.85

Operates inside, out of the weather. Doors slide around the corner against side wall. This permits opening full width of garage. Doors clear an automobile standing within a few inches of wall. Permits use of a passage door without opening other doors. Safety guide prevents derailment. Rolls easily, without noise or friction.

Everything for Complete Installation

For three doors covering an opening 9 feet wide. Consists of 3 roller bearing hangers; 3 pairs heavy strap hinges; heavy door pull; hinge; hasp; stop; guide and all necessary track, brackets, screws and bolts; complete with instructions for installing. All black japanned. Shipping weight, 39 pounds. **Can be shipped by parcel post.**

484 C 3915—Complete outfit.....$4.85



Folding Sliding Door Set

$3.85

Prevents sagging and slamming of doors. Weather tight, occupies little space and is easily installed. Safety gauge prevents derailment. For doors not over 2 in. thick, 3 ft. wide.

Outfit consists of roller bearing hanger; 4½ pairs butts; 2 door pulls; thumb latch; cane bolt; chain bolt; 7-foot carbon steel rail; 4 brackets and all necessary screws and bolts with instructions for installing. Shipping weight, 30 pounds. **Can be shipped by parcel post.**

484 C 3916—Complete outfit.....$3.85

Tempered Steel Jaws

Lakeside Stillson

You don't have to be a plumber to find almost daily use for a Stillson Wrench. It comes in handy for fixing faucets, opening clogged sink traps, turning stubborn, worn off nuts and in hundreds of other ways. It holds with a bulldog grip where ordinary wrenches slip.

Every Lakeside Stillson is forged from fine tool steel with hardened steel jaws. Will not chip or crack—tested and guaranteed.

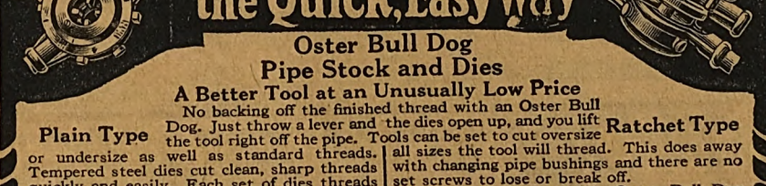
Thread Your Pipe the Quick, Easy Way



Oster Bull Dog Pipe Stock and Dies

A Better Tool at an Unusually Low Price

No backing off the finished thread with an Oster Bull Dog. Just throw a lever and the dies open up, and you lift the tool right off the pipe.

Plain Type or undersize as well as standard threads. Tempered steel dies cut clean, sharp threads quickly and easily. Each set of dies threads two sizes of pipe. Bull Dog Die Stocks are made with a self-centering guide suitable for

Ratchet Type Tools can be set to cut oversize all sizes the tool will thread. This does away with changing pipe bushings and there are no set screws to lose or break off.

Thread your pipe with Oster Bull Dog Stock and Dies, the quick and easy way.

Ratchet Type

Nos. 102R and 104R are the same as 102 and 104 Die stocks but have ratchet. For rapid or close work.

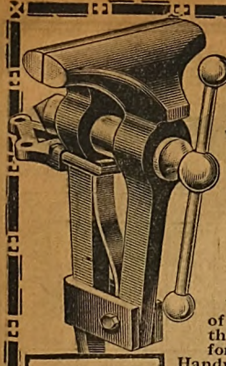
Heavy Pattern Solid Box Vise



Without Pipe Jaws

$3.90 4-Inch Jaw

You will find hundreds of uses in the garage, on the farm, or in the shop for a vise of this kind. Handy for holding materials to be sharpened, cut, filed, drilled or reamed.

Heavy Construction

Similar in design to the vise listed at right, except it does not have pipe jaws. Jaws of tempered steel, will not chip or crack. Has solid thread box with deeply threaded steel screw. Provided with loose collars that prevent binding. With lag screws for fastening to bench. No. 484 C 6870 and 484 C 6872 can be shipped by parcel post.

Leg Reaches to Floor

Hand and Power Post Drills

Easy to Operate with Crank

Genuine Champion Self Feed Ball Bearing Post Drill

Ward's Price to You Less Than Carload Price to Jobbers

$5.95

On account of the back gearing on this Drill each turn of the crank produces two revolutions of the fly wheel which develops greater momentum. Drills holes as easily as much larger drills.

Easy to Operate

Chuck holds ½ inch round shank drills. Will bore up to ¾ inch hole in center of 12 inch circle. Greatest distance between table and spindle, 33¾ inches. Spindle, ⅞ inches diameter; up and down run, 3 inches.

Adjustable Table

Table is lathe turned, slotted and will move up and down or to either side. Crank handle is adjustable. Height over all, 34 inches. Mounted on hardwood plank. Lag screws included. Shipping weights, 65 and 72 pounds.

184 C 6628—For Hand Use $5.95
184 C 6629—For Power Use. Tight and loose Pulleys. Speed, 250 r. p. m. $7.95

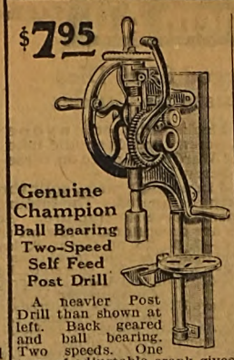
$7.95



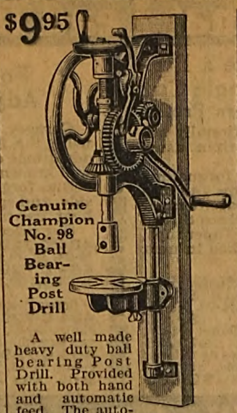
Genuine Champion Ball Bearing Two-Speed Self Feed Post Drill

A heavier Post Drill than shown at left. Back geared and ball bearing. Two speeds. One turn of adjustable crank gives two revolutions of spindle, or high speed. One turn of handle on fly wheel gives one revolution of spindle, or low speed. Never-slip chuck holds ½ inch round shank drills. Will drill up to ¾ inch hole to center of 12 inch circle.

Lathe turned slotted table can be raised, lowered or swung to one side. Also can be removed from table arm to permit drilling tires on wheels and other work that can not be held on table. Extreme distance between spindle and table, 9 inches. Four speeds on feed to cut light, medium or heavy chips. Height, 35 inches. A strong well made post drill that will give you years of service. Shipping weight, 75 pounds.

184 C 6627—$7.95

$9.95



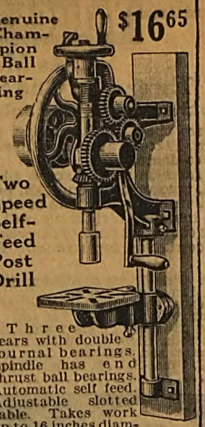
Genuine Champion No. 98 Ball Bearing Post Drill

A well made heavy duty ball bearing Post Drill. Provided with both hand and automatic feed. The automatic feed is adjustable to three speeds. Takes work up to 14 inches in diameter. Extreme distance from table to chuck, 11 inches. Drills holes up to 1¼ inches. Neverslip chuck holds ½ inch pound shank drills. Diameter of spindle, 1 inch.

Adjustable crank. Table adjustable up or down and can be swung to either side to allow for larger work. Easy running ball bearing spindle makes heavy drilling possible. Bearings are accurately ground and made of high grade, lathe turned, tool steel. Mounted on heavy hardwood plank. Height, 41 inches. Lag screws included for fastening to wall. Shipping weight, 96 pounds.

184 C 6626 ..... $9.95

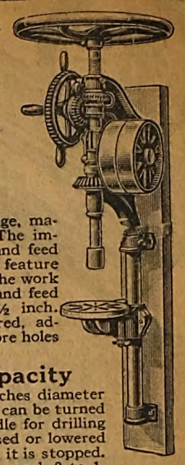
$16.65



Genuine Champion Ball Bearing Two Speed Self-Feed Post Drill

Three gears with double journal bearings. Spindle has end thrust ball bearings. Automatic self feed. Adjustable slotted table. Takes work up to 16 inches diameter and 10 inches high. Drills holes up to 1¼ inch. Neverslip chuck takes ½ inch round shank drills. Spindle diameter 1⅛ inches, up and down run, 3 inches. Mounted on heavy hardwood plank with lag screws for fastening to wall. Shipping weight, 110 pounds.

184 C 6619—For power. With tight and loose pulleys, 2 by 6 inches. Speed, 250 revolutions per minute. Ship. weight, 117 pounds. $16.65
184 C 6620—For hand use only. Without pulleys. Shipping weight, 110 pounds. $13.45



Genuine Champion Black Diamond Lever and Automatic Feed Post Drill

$33.85

Hand or Power

For heavy work in garage, machine shop or on farm. The improved quick return or hand feed lever is a most important feature for getting the bit out of the work quickly and to use as a hand feed for drilling holes up to ½ inch. Used with power or geared, adjustable hand crank will bore holes up to 1½ inches.

Has Large Capacity

Takes work up to 21 inches diameter and 19 inches high. Table can be turned from under the drill spindle for drilling large work. It can be raised or lowered and always remains where it is stopped. Two speed ratios, 4 to 1, and 8 to 1. Has neverslip chuck for holding ½ inch round shank drills. Diameter of spindle, 1½ inches. Up and down run, 5½ inches. Lag screws included. Shipping weights: 442 and 430 pounds.

184 C 6643—For Power Use. Tight and loose pulleys. Size, 11 by 2½ inches; speed, 80 r.p.m. $33.85
184 C 6642—For Hand Use. No pulleys. $29.85

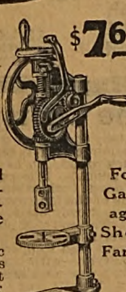
$19.95

Power Bench Drill

Accurate Drill for light and rapid drilling. Belt driven. Cone pulleys for two speeds. Has belt shifter. Adjustable spindle stop. End thrust ball bearing. Three jaw chuck holds straight shank drills up to ½ inch (84 C 1060, Page 643). Tight and loose pulley, 4 by 1½ inches. Table, 8 inches in diameter. Speed of drive pulley, 550 revolutions per minute. Height, 27½ inches. Lag screws included for fastening to bench. For fast and accurate drilling in machine shops and garages. Priced very low. Shipping weight, 75 pounds.

184 C 6675 ..... $19.95

$7.65



Genuine Champion Bench Drill

For Garage Shop Farm

A large, substantial Bench Drill at an unusually low price. Practical for shop, garage or home.

Made with automatic feed, feeding four speeds for work from smallest up to ⅜ inch iron or steel. The fly wheel makes two revolutions to each turn of the crank, boring holes easier and quicker than any other bench drill on the market. Handle is adjustable for length. Spindle end thrust is ball bearing, eliminating friction. Table is lathe turned and slotted. Maximum distance from spindle to base, 11¼ inches. Height over all, 32 inches. Swings to center of 12 inch circle. Diameter of back column, 1⅝ inch. Diameter of spindle, ⅞ inch. Neverslip chuck, taking ½ inch shank drill bits (see 84 C 1055 on Page 643). Shipping weight, 75 pounds.

184 C 6666 ..... $7.65

$9.35

Bench Drill

Priced Low

Strong, cast iron frame. Two speeds, ratios: 1½ to 1, and 4 to 1, instantly changed by turning knurled sleeve. Adjustable crank. Three jawed chuck, holds straight shank drills from 0 to ½ inch. Circular slotted table, 6 inches in diameter. Adjustable vertically and horizontally. Height, 24 inches. Ship. wt., 28 pounds.

Ward's Popular Priced Forge

$7.25

With Shield

With Steel Hood

We buy and sell more Forges every year than any wholesale house in the United States. For that reason we are able to sell you this forge for less than jobbers pay in carload lots. It is designed for ordinary repair work in shops and garages, or on farms, ranches and plantations. High grade in every particular and much superior to the light agricultural forges of the lever or cog wheel type.

Round heavy steel hearth is 18 inches in diameter and 30 inches above the floor. Large, easily cleaned tuyere. Steady, powerful blast. Steel fan is driven by quiet, easy running, machine cut gears. End thrust ball bearing. Gear case is oil-proof and dustproof. Blower handle is just the right height and sweep—no stooping. Burns blacksmiths' coal, coke or charcoal. Well painted. For estimated total freight charges see information below at left.

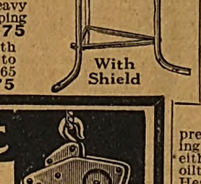
184 C 6517—Same as 184 C 6518. Height to top of hearth, 30 inches. Diameter of hearth, 18 inches. Shipping weight, 50 pounds.....**$6.65**

Genuine Champion Eureka Forge No. 148

$10.75

With Hood

Many shops have work which requires a larger, heavier Forge. This Champion Forge with its big 24-inch hearth and blower with 8-inch fan case will heat 3-inch round iron to a white heat in less than ten minutes, or a plowshare in two minutes. It is smooth running and practically noiseless, due to the helical cut gears, enclosed in a dust and oilproof case. The gear ratio gives 48 revolutions of the fan to one turn of the crank, making a strong steady blast. Burns soft coal, coke or charcoal. Three strong pipe legs hold the forge rigid. The blower is placed at just the right height for the average man to operate it comfortably. Made in two styles—with hood and with shield. You can make a worth while saving by ordering your forges from Ward's. For estimated total freight charges see information below at left.



$9.75

With Shield

184 C 6507—Champion No. 148 Forge with heavy sheet steel hood. Entire height, 54 inches. Shipping weight, 70 pounds.....**$10.75**

Lakeside General Purpose Grinding Wheels

Our Grinding Wheels are made of a combination of hard, fast cutting abrasives.

Many customers tell us that Lakeside General Purpose Grinding Wheels are the best they have ever seen for all general purposes, such as grinding castings and farm implements. Wheels are fast cutting, wear down slowly, and will give excellent service. Made in two different styles—square face and round face. Prices are the same for both styles. The holes may be made any size to fit the shaft. Shipping weights: ¼ inch by 2 inches, 4 ounces; 2 inches by 12 inches, 15 pounds; weights of other sizes vary according to size.

State article number; also diameter and thickness of wheel, and size of hole wanted.

84 C 8510—Square Face. Shipped from Stock.
284 C 8512—Round Face. Shipped from Factory in Chicago in 5 to 10 days after order is received.

Standard Grade Rubber Belting

4¢ A Ft.

Ward's Standard Grade Friction Surface Rubber Belting will give satisfactory service on all light work such as washing machines, cream separators and light farm machinery. The layers of duck are heavier than used on the ordinary standard rubber belting. Rubber used on cover and between layers is of the finest quality. Thoroughly vulcanized.

84 C 7680—2-Ply. State width wanted.

Extra Standard Grade

Made of long fiber 28-ounce cotton duck with layers vulcanized together, preventing internal wear. Highest quality rubber is used both on outside and between layers. The cover is made by a new process giving it a friction surface which prevents slipping and also adds to the life of the belt. This belting will give years of satisfactory service. Suitable for any kind of hard service on power transmission. State width wanted.

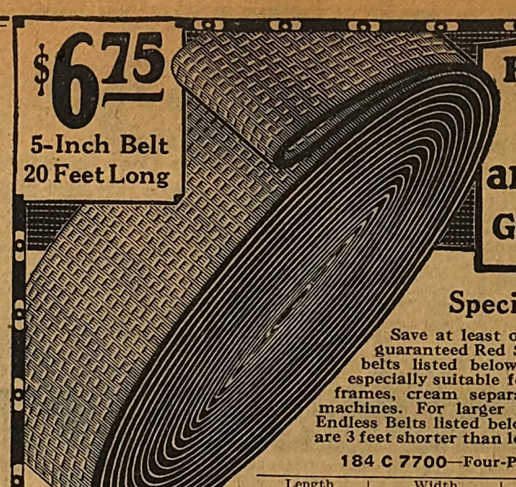
$6.75 5-Inch Belt 20 Feet Long



Red Stitched Belts and Belting for all General Utility Work

Special Endless Belts

Save at least one-third on highest quality, guaranteed Red Stitched Endless Belts. The belts listed below are Special Short Belts, especially suitable for use on feed grinders, saw frames, cream separators, churns and washing machines. For larger belts, see our Heavy Duty Endless Belts listed below. On account of lap, belts are 3 feet shorter than length stated.

184 C 7700—Four-Ply. State size wanted.

Length	Width	Ship. Weight	Each
20 feet	5 inches	11 pounds	$6.75
30 feet	4 inches	14 pounds	6.95
30 feet	6 inches	21 pounds	9.95

Heavy Duty Endless Belts

You can make a big saving by ordering your next Belt from Ward's. Our belting is of the highest quality obtainable. We do not carry two grades, but offer only the finest grade guaranteed belting at lower prices than usually asked for second grade belting.

Ward's Red Stitched Canvas Belts and Belting is made of U. S. Standard long fiber select cotton duck, carefully and closely stitched, stretched and inspected. Thoroughly saturated in oil, which makes it permanently waterproof and flexible. Covered with a special waterproofing compound, giving the belt an excellent non-slipping surface. Always flexible in hot or cold places. Especially suitable for threshers and saw mills. It requires 3 feet to make lap, therefore belts when finished will be 3 feet shorter than sizes stated in the table below.

Endless Belt Lacing Service

If requested on your order we will lace, without charge, any belts—rubber, leather or canvas, with Clipper Belt Lacing. Simply state on your order that you want your belt laced and give the exact length without allowing for splice. We will see that the joint is finished smooth and strong.

Special Endless Belts

If you are in need of a special size or kind of endless belt that we do not list—in canvas, rubber, solid woven or leather, simply write giving us your requirements. We will gladly quote prices on any size or kind of belt that you may need. Allow 10 to 15 days for making special size belts. Belts made special are not returnable.

Red Rubber Endless Friction Surface Belts

$19.95 50-Feet 4-Ply

Finest Belt obtainable for general farm use. Made of the best quality red rubber, and guaranteed to give satisfactory service under the most severe usage. Constructed of tough, closely woven 32-ounce cotton duck with special high grade rubber between plies and on cover. A friction compound is forced into the fabric under great pressure making a friction surface which takes hold of the pulleys with a firm contact from edge to edge. Plies will not separate and belt will not stretch.

84 C 7697—Four-Ply. State size wanted.

Red Rubber Friction Surface Heavy Duty Belting

18¢ A Foot

The very finest quality of rubber belting. Suitable for any purpose. It will give longer, better and more economical service than any other kind of belting. This belting is red in color to distinguish it from ordinary rubber belting, and guaranteed to give years of continuous service. Constructed of tough, closely woven 32-ounce cotton duck with a high grade of rubber between plies and on cover. Special friction surface, will not slip. This belting will not stretch nor will plies come apart. Read below about Ward's Free Service on Endless Belts.

Buy Your Home Direct from the Mill

Lowest Prices—Guaranteed Highest Grade Materials

MONTGOMERY WARD & CO.'S quantity production, and shipping direct from our factories to every part of the United States, has lowered building costs. Thousands of our customers write us, telling of their savings. Mr. Kavanaugh of Vinton, Kan., says: "There was not one bad piece of material. I figured I saved at least $500."

We specialize on ready cut homes of from five to nine rooms, for both town and farm. Our plans are the work of expert architects, tested and proved by actual building. Materials are cut, manufactured and assembled in our four big mills. Every piece of material going into your home is of excellent grade, and is covered by our guarantee of Satisfaction or Your Money Back.

The Reasons Why We Can Save You Money

We eliminate all the middlemen's profits—there are no in between costs. Our prices are based on production costs plus one small profit. Materials are shipped direct from the mill to you.

All Wardway buildings are sold only for cash. There are no expensive long time credit systems to add to the costs.

You receive the full benefit of Ward's large quantity purchases. Our large volume of business enables us to obtain rock bottom costs, and you share in these savings. Our Wardway ready cut buildings reduce labor costs to a minimum. They enable you to build more quickly, and save you the 18 per cent of lumber usually wasted when building by old methods.

Send for This

What We Furnish

The finest quality materials are furnished in quantities sufficient to complete the home in accordance with plans and specifications as given in our Catalogue. For one price we ship all lumber, lath, shingles, doors, windows, frames, trim, stairwork, flooring, inside and outside finish, hardware, paint, tinwork, varnish, and many built in conveniences. Complete plans and specifications furnished FREE with each home sold.

Not Portable

Wardway Homes are not portable, not knocked down. They are solid, substantial buildings, unusually well built and permanent—just like the best homes in your neighborhood.

Ready Cut Advantages

All framing lumber is accurately cut to fit, and every piece is marked to conform with similar markings on the plans which show where every piece goes. Our system of construction is strong, simple, very accurate. And you will find with ready cut materials your home can be completed in one-third less time.

Free Building Service

Write us about any of our homes in which you may be interested. We have a special Service Department which will answer, without obligation, any questions you may care to ask. Our experts will be glad to advise you on matters pertaining to the construction of any of our homes, giving you the benefit of their knowledge gained through many years experience in this line. We invite you to consult them.

If You Are Going to Build-We Can Save You Money

White Pine Front Doors

In the Whittier and Edwards Front Doors we have combined quality materials, high grade workmanship and good appearance. They are made of the finest White Pine lumber and are guaranteed against defects of any kind. White Pine is a wood which will not warp, check or crack and when hung these doors will always remain tight and true. This is very important, especially for an outside door. These doors can be stained or varnished and also will take a paint or enamel finish. Shipped carefully sanded and smoothed but unpainted and unvarnished. The Whittier door is 1¾ inches thick; the Edwards, 1⅜ inches thick. Both are glazed with double strength or finest beveled plate glass.

You will find that these doors are priced especially low considering the exceptional quality and workmanship.

Everything Listed That the Builder Requires

If you are planning on building a new home or making some changes and repairs on your present one, you should send today for a copy of our Building Material Catalogue. In it is shown our complete line of millwork, including many designs of doors, windows, frames, mouldings, and built in conveniences. We also list and describe our high grade wall boards, hardwood floorings, fireplace fixtures, bath room tile, and many other materials that the builder requires.

Our low prices mean big savings for you. And the large stocks of materials which we carry at our factory enable us to fill your orders promptly.

Many contractors order their entire building requirements direct from this catalogue. Each year thousands of our customers build for less by using this book. Send for your copy today.

Fir Interior Doors

These Doors are especially well made of finest old growth Douglas Fir. This wood is the most beautiful of our semi-hardwoods and will take an attractive stain, varnish or enamel finish. The panels are made of three pieces glued together with the grain running in different directions which absolutely prevents warping. No matter which design you choose, we guarantee absolute satisfaction in the quality and workmanship. The five panel door is furnished in both "A" and "B" grade; the two panel door "A" grade only. All doors are 1⅜ inches thick, with edge grain stiles, rails and slash grain panels.

Makes Roofs Leakproof and Lasting

Ward's Special Asphalt Paint

55¢ A Gallon In 50-Gallon Barrels

Prevent rust and save expensive repair bills by protecting all metal surfaces with Ward's Special Asphalt Paint. It comes ready mixed, all ready to use. Applied as easily as ordinary paint. Used also over wood surfaces.

You can add years to the life of roofs and sidings by coating them with this special paint. Use it on tanks, wind mills, bridges, in fact on any surface exposed to the weather. It can be used on wood, metal, felt or composition roofing.

One gallon covers about 200 to 250 square feet of surface, one coat. Shipping weights: 500, 250, 40 and 11 pounds.

3-Knot

For applying Ward's Liquid Roof Cement and other heavy roof coatings. Made of heavy mixed stock, 3 inches long. Each knot is tightly bound with heavy wire to keep bristles from loosening and falling out. Mounted on a heavy block that withstands rough use. Handle not included. Shipping weights: 8, 12, 16 and 20 ounces.

75 C 721	1-knot	$.40
75 C 722	2-knot	.65
75 C 723	3-knot	.90
75 C 724	4-knot	1.15

35¢ A Gallon In 50-Gallon Barrels

A Thick Liquid Applied Like Paint

Asphaltum and Asbestos—No Coal Tar

Spreads easily and evenly, yet has body enough to hold on smooth slanting roofs. Contains no coal tar to sag or run under hot sun rays. One gallon covers 100 square feet. Wears well, looks good, and is inexpensive. For new or old roofs, damp proofing walls, or for tanks or silos.

You Can Easily Apply It Yourself

For Metal, Slate, Paper, Felt or Composition Roofs

Ward's Liquid Roof Cement is a thick black liquid which is applied like paint; and being composed largely of asphaltum and long fiber asbestos, has unusual weather resisting qualities. The asbestos gives it the necessary body to prevent running, bulging or cracking. **Use It on Any Roof.** The base of Liquid Roof Cement is pure asphaltum, blended with oils. It can be used on flat or slanting roofs, and also for damp proofing walls and waterproofing the inside of tanks and silos. It is non-poisonous, and will not taint or discolor rainwater. With it old metal, slate, tile, felt, paper or composition roofs can be made watertight. It prolongs the life of the roof at a fraction of the cost of a new roof. **Spreads Evenly.** Liquid Roof Cement can be put on with an ordinary paint brush or a wide roofing brush like those shown below. One coating about a thirty-second of an inch in thickness usually is sufficient. If kept covered, Liquid Roof Cement will not harden in the container, and a supply can be kept on hand at all times for repair work. For old shingle roofs we recommend Ward's Heavy Roof and Fence Paint.

Make That Old Roof Last Longer—Save Money

At Ward's low price, the cost of a coat of Liquid Cement for the roofs of all your buildings is a very small investment considering the protection it gives and the long life it adds.

Allow one gallon of Liquid Roof Cement for each 100 square feet of surface to be covered. If surface is rough, more will be required. If the roof is in bad condition, first fill all holes and low places with Trowel Roof Cement (shown at the right.)

Ward's Heavy Roof and Fence Paint

76¢ A Gallon In 50-Gallon Barrels

This is a heavy Oil Paint which contains enough asphaltum to insure its sticking to iron, tin or other metal as well as it does to wood. Forms a tough, thick, durable film over the surface which resists all kinds of weather.

Adds years of service to old roofs. By using this heavy paint on your roofs now, you can save the cost of reroofing for many years. Will prolong the life of a new roof enough to make its use a good investment. Recommended also for use on iron fences tanks, wind mills, etc. One gallon covers 200 to 300 square feet, one coat. Shipping weights: 650, 325, 45 and 12 pounds.

275 C 7752	25-gallon barrel.	Per gallon	35¢
475 C 7751	5-gallon can.	Per gallon	52¢
575 C 7750	1-gallon can.		60¢

Shipped from Factory in Chicago

Trowel Roof Cement

Similar to our Liquid Roof Cement listed at the left, except thick of putty consistency. Sticks to any surface; will not get hard or brittle in winter or soft in summer, jet black in color, non-poisonous, will not taint or discolor rainwater, unless the roof is in bad condition. Trowel Roof Cement should be applied from 1/16 to 1/8 of an inch thick. When so spread, 40 pounds covers about 100 square feet of roof surface.

175 C 7783	550-lb. bbl.	Ship. wt., 620 lbs.	Per pound	4¢
175 C 7788	300-lb. bbl.	Ship. wt., 335 lbs.	Per pound	5¢
175 C 7786	50-lb. pail.	Ship. wt., 60 lbs.	Per pound	6¢
475 C 7785	25-lb. pail.	Ship. wt., 30 lbs.	Per pound	7¢
575 C 7784	5-lb. can.	Ship. wt., 6 lbs.	Per pound	9¢

The 25-pound pails and larger sizes shipped from Stock in Chicago or from Factories at York, Pa. or near St. Louis, Mo., whichever is nearest you; 5-pound cans only from Chicago

Special Roofing Brush $1.10

Ward's RADIO Roofing

85 Pounds Per Roll
Standard Weight
Guaranteed 17 Years

$1.95 A Roll
Choice of Red or Green Colors

APPROVED By FIRE UNDERWRITERS

To Save You Freight
We Ship RADIO Roofing from Conveniently Located Warehouses and Factories

Our Roofing Guarantee

We guarantee Ward's Roofing to be the equal in quality and construction of any similar roofing you can buy, regardless of price. We guarantee it to last at least as long as specified in the catalogue. Under ordinary conditions it will easily outlast this period. We guarantee that every roll of Radio and Atlas Roofing carries the Insurance Underwriters' label, which is your assurance that it has the approval of the National Board of Fire Underwriters, and is a positive protection from fires caused by falling sparks. Ward's Roofing is guaranteed not to discolor or taint rainwater.

Satisfaction Guaranteed or Your Money Back

Re-roof It NOW Guaranteed 17 Years

LAP-KAPS make it easier!

While suitable nails for fastening are included, we recommend these heavily galvanized Lap-Kap strips. With Lap-Kaps, which are furnished with our RADIO and ATLAS roofing, at a small additional cost, you can do a perfect roofing job with no buckling or warping of laps. They bind each seam with even pressure and fasten roofing to sheathing boards with a vise like grip. Lap-Kaps make seams and laps watertight without the use of liquid cement.

Where roofing is to be laid over old shingle roofs, we recommend long nails and cemented laps. See prices at right.

The superior qualities of our RADIO Slate Surfaced Roofing are known to thousands of Ward's customers. Year after year RADIO Roofing has been giving efficient and satisfactory roof protection on their homes, barns and other buildings. Convince yourself **now** that the **best** roofing is the **most economical** in the long run by ordering RADIO Roofing for your new roof.

Made of Lasting Materials

Ward's RADIO Roofing is made up of heavy roofing felt, thoroughly saturated in hot asphalt—nature's water and weather resistant. The saturated sheet is then heavily coated on both sides with a thick layer of asphalt; and on the top side, fire resisting crushed slate is forced into the fabric under pressure. The result is a tough, pliable, long wearing roofing that is waterproof, sparkproof, attractive in appearance, and unaffected by climatic changes. RADIO Roofing is our highest quality roofing; and if you were to pay twice as much, you could not buy a better roof covering.

The Roofing With the 2-Inch Watertight Lap

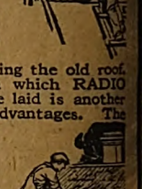
RADIO Slate Surfaced Roofing is full standard weight—85 pounds to a roll—full thickness and with the proper amount of felt, asphalt and slate to make it last according to our 17-year guarantee. In considering the weights of roofing, remember that we quote 85 pounds as our standard average weight—not the weight of the heaviest rolls. RADIO Roofing is exactly the same weight as is sometimes offered as 88 or 90-pound roofing.

RADIO Roofing is approved by the Underwriters' Laboratories, Inc., under direction of the National Board of Fire Underwriters. RADIO Roofing combines weather and fire protection and adds a real touch of beauty to house or barn. It never taints or discolors rainwater.

Full Standard Size Rolls

Full size rolls contain 108 square feet, enough to cover 100 square feet with laps allowed for. Each roll contains sufficient large head galvanized roofing nails and liquid cement—or Lap-Kaps and nails—to properly lay it. For new work, order the rolls packed with the regular nails and cement or Lap-Kaps. Complete directions in each roll. Actual and shipping weight, per roll, 85 pounds.

Use RADIO on New or Old Buildings



RADIO Roofing can be laid right over an old, worn-out wood shingle or composition roof. No need of going to the bother and expense of removing the old roof. The ease with which RADIO Roofing may be laid is another of its many advantages. The only tools required are a hammer and jack knife. Once properly laid, RADIO Roofing needs no further attention. Its first cost is the only cost.

Ward's Prepared Roofings

FIRST find the total number of square feet of roof surface to be covered. On a plain gable roof this can be obtained by multiplying the length in feet of the roof by the length in feet of the rafter, which gives the square feet of surface in one side of the roof. Multiply by two to find total number of square feet in roof. Allow additional for any small gables and porches. To find the number of rolls required, simply divide the total number of square feet by 100, as each roll of our prepared roofing contains enough material to cover 100 square feet of roof with 2-inch laps allowed for.

Where roofing is to be applied over an old roof or over old wood shingles, order the rolls packed with long nails and asphalt cement. We will be glad to estimate amount of roofing needed if dimensions are sent.

General Ordering Instructions on Page 329

It Is Easy to Order from Ward's

RADIO Shingle Roll Roofing

$3.15 A Roll

Made of exactly the same materials and construction as RADIO Slate Surfaced Roofing listed above, but with shingle design shown in clean black lines. Looks like stained red or green wood shingles, but wears practically twice as long and costs less than half as much. Provides an attractive, shadowlike contrast suited to the finest homes.

Possesses the same superior wearing qualities as the Plain RADIO Roofing. **Guaranteed for 17 years.** In two colors—red or green. Nonfading and will not taint rainwater.

RADIO Shingle Roll Roofing requires no painting. Durable and fire resisting, it is **approved by the Underwriters' Laboratories, Inc., under direction of the National Board of Fire Underwriters.**

Rolls are 32 inches wide and 40½ feet long, containing 108 square feet—enough to cover 100 square feet of roof surface, allowing for 2-inch laps. Large head galvanized roofing nails and liquid asphalt cement included free inside of each roll. Directions for applying also included. Actual and shipping weight, per roll, 85 pounds.

Packed with Regular 7/8-Inch Nails

174 C 40—Red, with cement and regular 7/8-inch nails. Per roll $3.15
174 C 42—Green, with cement and regular 7/8-inch nails. Per roll 3.15

The Most Modern Roofing At Unusually Low Prices

Few things add more to the value and beauty of a home than a RADIO Asphalt Shingle roof. The soft colorings of sea green or tile red blend harmoniously with the surroundings and give your home a pleasing, attractive setting.

A RADIO Asphalt Shingle roof is not only artistic and beautiful, but it is a positive protection against the weather and fire. The hottest summer sun, the coldest blasts of winter or sparks from the chimney or a burning flue have no effect upon RADIO Asphalt Shingles, assuring you year round protection and comfort.

On this page we illustrate and describe three popular types of asphalt shingles. They follow strictly Ward's policy of selecting only quality merchandise and offering it to our customers at prices that are honest and fair.

APPROVED By FIRE UNDERWRITERS

A Square of Asphalt Shingles Means Enough Shingles to Cover 100 Square Feet of Roof Surface When Laid 4 Inches to the Weather

Read *this* Letter

"I like your Asphalt Shingles. I did not have enough to finish the job, so I had to buy the remainder locally. I paid $1.75 a square more for them, and they were not as good as yours. Next time I will order enough to finish the work."

H. Ragland,
Spa ta, Ill.

Ward's RADIO Asphalt Shingles

TRADE MARK

$5.45 A Square

APPROVED By FIRE UNDERWRITERS

Individual Type Asphalt Shingles

$5.65 A Square

Exactly the same as the best standard Shingles you see in your local lumber yards and on good homes everywhere. The only difference is in the price—Ward's saves you money. Constructed of extra heavy roofing felt, saturated and coated with asphalt. Surfaced with natural fire resisting crushed slate, firmly imbedded into the asphalt while hot, so it never washes or blows off.

Approved by the Fire Underwriters' Laboratories, Inc., RADIO Asphalt Shingles are guaranteed by us for 17 years; but under ordinary conditions they actually last much longer.

Each shingle is 8 inches by 12¾ inches and uniform in size, therefore easy to lay. Each square contains 424 shingles—enough to cover 100 square feet of roof surface when laid 4 inches to the weather. Shipped in crates containing 106 shingles each, 4 crates per square. Nails not included—order them separately (see Page 660.) Use 4 pounds of ⅞-inch nails per square when laying on sheathing boards. Use 6½ pounds of 1¾-inch nails per square if laid over old shingles.

Actual and shipping weight, per square, 240 pounds.

174 C 122—Red. Per square.....$5.65
174 C 123—Green. Per square..... 5.65

Shipped from Chicago or Baltimore Store, or from Factories in York, Pa., Atlanta, Ga., Cincinnati, O., New Orleans, La., or near St. Louis, Mo., whichever is nearest you

Four-In-One Type Asphalt Shingles

One of the most popular types of asphalt shingles. Each strip or slab contains four shingles, enabling you to lay four shingles in the time it takes to lay one. The finished roof looks exactly like a roof of individual shingles. Especially recommended for the owner who intends laying the shingles himself.

Constructed of Heavy Roofing Felt

RADIO Asphalt Shingles are made of heavy roofing felt, prepared especially for this purpose. The felt is first saturated with hot asphalt to make it waterproof. A heavy coating of weather resisting asphalt is next applied to both sides of the saturated felt. The protecting mineral surface of natural colored red or green slate is then applied to the top sheet, the slate being embedded into the asphalt while hot, so that it never washes or blow off. Will not curl or warp and requires no painting or staining.

Approved by the Fire Underwriters Guaranteed by Us for 17 Years

Each strip is 3½ inches by 10 inches, containing four complete shingles. Each square contains 112 strips—enough to cover 100 square feet of roof laid 4 inches to the weather. Shipped in crates containing 56 strips each, 2 crates per square. Nails are not included—order them separately (see Page 660). Use 2¾ pounds of ⅞-inch nails per square if laying on sheathing boards. Use 5 pounds of 1¾-inch nails per square if over wood shingles. Actual and shipping weight, per square, 200 pounds.

174 C 117—Red. Per square.....$5.45
174 C 118—Green. Per square..... 5.45

Shipped from Chicago or Baltimore Store, or from Factories in York, Pa., or near St. Louis, Mo., whichever is nearest you

It Is Cheaper to Build A Warm House Than to Heat A Cold One

Red Rosin Sized Sheathing

For use under siding and between floors. Made of best pulp paper stock with a hard smooth surface, thoroughly rosin sized, which helps to exclude wind, moisture and vermin. Tough, clean and durable.

Rolls contain 500 square feet and are 36 inches wide.

Actual weight same as shipping weight.

474 C 218—Light. Shipping weight, per roll, 20 pounds. Per roll.....65¢
474 C 220—Medium. Shipping weight, per roll, 30 pounds. Per roll.....95¢
474 C 223—Heavy. Shipping weight, per roll, 60 pounds. Per roll.....$1.30

Blue Plaster Cardboard

A strong, durable Cardboard of very tough texture, used for sheathing and under clapboards, and especially for sheathing walls and ceilings of temporary buildings, attics and cellars. Applied over boards or direct on studding with large head tacks and covered with wood panel strips at the seams. Width of roll, 36 inches. Actual weight same as shipping weight.

174 C 234—Rolls of 250 square feet. Shipping weight, 30 pounds. Per roll.....$1.00
174 C 235—Rolls of 500 square feet. Shipping weight, 60 pounds. Per roll.....$1.95

Asbestos Building Felt

This standard Asbestos Sheathing is an excellent insulator for heat and cold. For lining buildings, refrigerator cars and ice houses. Deadens sounds when used between floors and for general building purposes.

Extensively used for covering warm air pipes for furances. Will not burn even if brought into direct contact with flames. An excellent fire resistant. Rolls contain 450 square feet. Width, 36 inches. Actual and shipping weight, per roll, 50 pounds.

474 C 244—Per roll.....$3.25

Herald Tarred Felt Sheathing

Made from tough felt, thoroughly waterproofed with distilled tar. For use between sheathing and siding, also in lining floors. Resists wind and moisture. Strong and durable. Clean to handle. The faint tar odor keeps away rats, mice and insects. Rolls contain 500 square feet. Width, 36 inches. Actual and shipping weight, per roll, 42 pounds.

474 C 226—Per roll.....$1.85

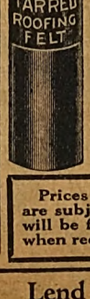
Standard Deadening Felt

Nothing is more annoying than to hear every footstep and sound from the floor above. This Felt will help to overcome this trouble. It deadens the sounds through floors and walls. Makes an excellent protection against frost and also insulates against heat.

Adds greatly to the comfort and warmth of the home when used between floors. Each roll contains about 450 square feet. Width, 36 inches. Actual and shipping weight, per roll, 50 pounds.

474 C 237—Per roll.....$2.65

Tarred Roofing Felt



A good grade of tough Felt, saturated with distilled tar. Used for roofing sheds and temporary structures. Suitable for use under stucco and brick veneers.

Order tin caps and nails separately. Use 1½ pounds tin caps and 1 pound nails to each roll. Rolls contain 432 square feet and are 32 inches wide. Actual and shipping weight, per roll, 64 pounds.

174 C 249—Per roll.....$1.95

Prices on Building Papers and Felts are subject to market changes. Orders will be filled at lowest prices prevailing when received.

Ward's STA-TITE Asphalt Shingles

Latest Improved Asphalt Shingles

Introduced by Montgomery Ward & Co., STA-TITE Asphalt Shingles have met with the enthusiastic approval of thousands of home owners and contractors who have used them. They are equal in weight and thickness to other standard types, and in addition have a weather tight locking device which means double protection and longer life. Offered to our customers at an unusually low price.

APPROVED By FIRE UNDERWRITERS

$5.25 A Square

Hexagonal Shape

STA-TITE Asphalt Shingles have a hexagonal shape, which makes them distinctive and unusually neat appearing. The pleasing red or green color adds to the beauty of the design. You will be more than proud of a STA-TITE roof.

Guaranteed for 17 Years

STA-TITE Asphalt Shingles are made of the same high grade materials as our other types of Radio Asphalt Shingles, assuring superior wear and weather resisting qualities. The roof of your building is protected completely from storm, rain, snow and wind with STA-TITE Shingles. We guarantee STA-TITE Shingles for 17 years but in most cases they should last much longer. Will not taint or discolor rain water.

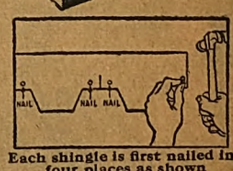
STA-TITE Asphalt Shingles will give satisfactory service on any roof having enough slope to allow the shingles to drain well. Can be satisfactorily laid over old wood shingles. A hammer and jack knife are the only tools required. We furnish complete printed chart and instructions with each order.

Packed 70 shingles to a bundle, two bundles per square. One square will cover 100 square feet of roof surface. Nails not included—order them separately (see Page 660). Use 2¾ pounds of ⅞-inch nails per square if laid directly on the roof boards. Use 5 pounds of 1¾-inch nails per square if laid over old wood shingles. Actual and shipping weight, per square, 200 pounds.

A square is enough to cover 100 square feet.

174 C 126—Red. Per square.....$5.25
174 C 127—Green. Per square..... 5.25

Shipped from Chicago or Baltimore Store, or from Factory near St. Louis, Mo., whichever is nearest you



Each shingle is first nailed in four places as shown

Then tab of upper shingle is slipped in lower, making a lock

Ward's ATLAS Asphalt Roofing

ATLAS Roofing Insures Watertight and Weatherproof Roofs at Low Cost

When you realize the many years of service that a new ATLAS roof gives your building, compared with the initial cost, the saving is quite evident. Remember, too, that you can lay the roofing yourself; do it without experience, quickly and in your spare time. You save on both purchase and installation. ATLAS Asphalt Roofing is our best smooth surfaced roofing, and will prove a sound investment for you.

Made of roofing felt, heavily saturated and coated with specially selected asphalt. ATLAS Roofing is heavily surfaced on both sides with flaked mica. This protects the under layers of asphalt and increases its resistance to sun, wind, rain and snow. ATLAS Roofing has all the fire, acid, water, wear and weather resisting qualities that a high grade roofing must have; but its greatest advantage is in the smooth, pliable coating which gives it a durable uniform wearing surface. Sparkproof, weatherproof, climate proof, long lived—ATLAS is the best investment that we have ever seen in a smooth surfaced roofing.

Applied with a hammer and jack knife only. No other tools needed. You can put it on any time; and you can, if you desire, lay it right over an old wornout shingle roof. ATLAS Asphalt Roofing is suitable for all kinds of buildings where a high grade long lasting roof is desired.

Heavy and Extra Heavy Approved by Fire Underwriters. Extra Heavy is guaranteed 16 years; the Heavy 12 years. Use the weight that best suits your needs. If you intend laying ATLAS over old roofing, be sure to order rolls with the extra long nails and cement.

$2.25 A Roll

How to Order ATLAS Roofing

Each roll of ATLAS Asphalt Roofing contains 108 square feet, enough to cover 100 square feet of roof surface with 2-inch laps allowed for. To find the number of rolls required to reroof your home, divide the total number of square feet in the roof by 100. Shipping weight same as actual weight.

Read "How to Order" Instructions on Page 658.

Heavy—Guaranteed for 12 Years
Actual and shipping weight per roll, 55 pounds.

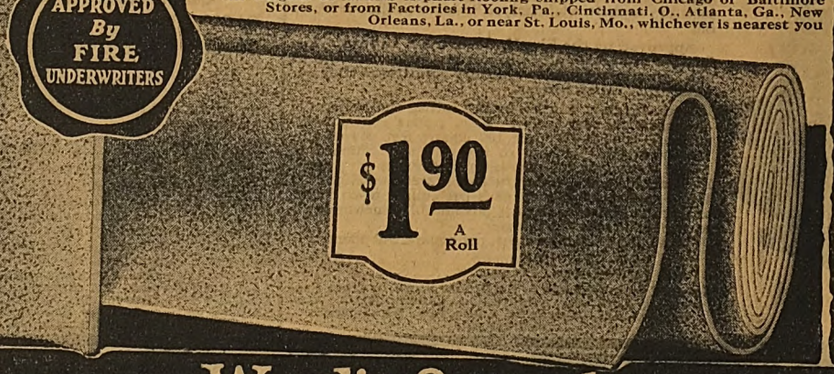
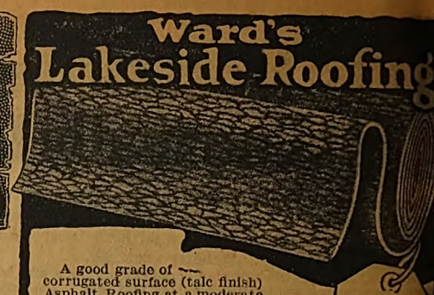
APPROVED By FIRE UNDERWRITERS



$1.90 A Roll

Ward's Lakeside Roofing



A good grade of corrugated surface (talc finish) Asphalt Roofing at a moderate price. Suitable for all types of buildings. Weatherproof, waterproof and fire resisting. Is not affected by extremes of temperature or by frost rain, sleet or snow.

Lakeside Asphalt Roofing is made of a sheet of roofing felt, thoroughly saturated with genuine asphalt and coated on both sides with a heavy layer of specially selected asphalt which effectively protects the saturation from the elements. The surface is then given a light dusting of powdered talc to prevent sticking in rolls.

Lakeside Asphalt Roofing is guaranteed for 7 years, but usually outlasts this period.

Rolls are packed complete with large head roofing nails and liquid asphalt cement for the laps.

Rolls contain 108 square feet, enough to cover 100 square feet of roof surface with 2-inch laps allowed for. Actual and shipping weight, per roll, 45 pounds.

174 C 32—Per roll **$1.60**

Shipped from Chicago or Baltimore Store, or from Factories in York, Pa., Cincinnati, O., Atlanta, Ga., New Orleans, La., or near St. Louis, Mo., whichever is nearest you

$1.60 A Roll

Ward's Combination Roofing

We offer Ward's Combination Roofing to meet the demand for a good, serviceable roofing at a low price—for covering inexpensive structures or for temporary work.

Made of roofing felt, saturated and coated on both sides with asphalt. It is then given a light dusting of powdered talc to prevent sticking in rolls. Rolls contain 108 square feet, enough to cover 100 square feet of roof with 2-inch laps allowed for. Rolls are packed complete with large head nails and liquid asphalt cement for laps. Actual and shipping weight, 35 pounds.

474 C 87—Per roll **$1.05**

Shipped from Chicago or Baltimore Store, or from Factories in York, Pa., Cincinnati, O., Atlanta, Ga., New Orleans, La., or near St. Louis, Mo., whichever is nearest you

$1.05 A Roll

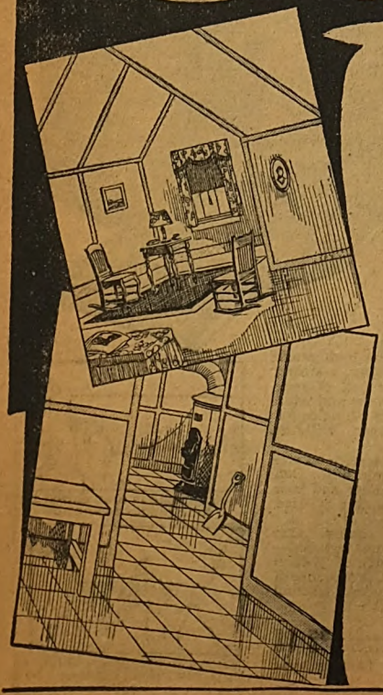
High Quality Ward's Superb Wall Board Takes the Place of Lath and Plaster Low Prices



Save Time and Money

Buy Ward's Painted Superb Wall Board for either new work or repair work in the home, office or factory. It can be used for the entire walls and ceilings, to finish off the attic or basement, to make two rooms out of one, to place over cracked plastered walls, for office partitions and many other purposes. And remember, Superb Wall Board is a finished wall board. It is painted on both sides with a special oil paint at our factory. A cream color is applied on one side and a salmon shade on the other. Either side may be exposed to view.

You save the cost of paint and labor for finishing your walls. The painted surface also keeps out moisture and gives the board practically a waterproof surface that can be washed with soap and water.

Superb Wall Board is easy to put on. Anyone who can handle a hammer and saw can apply it. Wide sheets reach a distance of two or three studding, which means fewer joints; and long lengths reach from floor to ceiling. It is so clean—not like lath and plaster, which is so messy and costly as well.

Order your wall board today in the sizes suitable for your rooms. You can do the work yourself and obtain a better and quicker job at half the cost of lath and plastered walls.

52¢ A Sheet 16 Square Feet

Prices of Superb Wall Board

Due to danger of damage in shipping, we can not accept orders for Wall Board of less than three sheets.

Construction

Superb Wall Board is a knotless and crackless manufactured lumber, which can be sawed and nailed the same as any other lumber. The logs from which this board is made are first ground into pulp which is thoroughly beaten up and then rolled into long sheets of tough, heavy fiber board. Four layers of this board are then securely cemented together and cut into large, flawless sheets.

They are then painted with a special oil paint, and are ready for use.

Panel Strips

Panel Strips are used for making wall panels or for covering joints where joint tape is not used. They are narrow wood strips, 1⅜ inches wide and 5/16 inch thick, made of clear fir. Beautiful effects may be obtained with these panel strips. Shipping weight, 100 feet, 15 pounds.

174 C 308—100 feet **$1.50**

Superb Joint Tape

If you do not care to use panel strips on your walls, this Superb Tape may be used to cover the joints. Made of tough brown craft paper, 1½ inches wide, heavily gummed on one side. In rolls of 250 feet. Shipping weight, per roll, 1 pound.

74 C 307—Per roll ..... 25¢

Ward's Coverall House Paint

A Well Painted House Looks Better—Lasts Longer

$1.98
A Gallon
In 50-Gallon Barrels

Ward's Coverall House Paint is made in our own factory from high grade, thoroughly reliable paint materials. The proper proportions of white lead, zinc, linseed oil and the other necessary ingredients are weighed accurately according to a reliable, time tested formula. The result is a protective, beautiful finish that covers more surface per gallon and lasts much longer than might be expected of paints selling at higher prices. That is why we guarantee COVERALL House Paint to give entire satisfaction. It does everything we claim for it.

Our Paint Guarantee

We guarantee the quality of COVERALL Paint to be exactly as represented; as finely ground, as carefully mixed as any paint; and that it will not scale, peel, or blister. We guarantee it will spread as well, look as well, and wear as satisfactorily as any ready mixed paint you can buy.

If you are not satisfied with the saving you have made, or for any other reason, you may return the unused portion, and we will refund your money, including transportation charges both ways.

Satisfaction Guaranteed Or Your Money Back

Paint protects, beautifies and preserves the surface to which it is applied. Not only is it necessary to paint regularly, but also to use a paint of thoroughly reliable and dependable quality. Good paint is a sound investment and the money spent for a protective, long wearing paint is money used to prolong the life of your buildings. Paint is insurance, and good paint is the least expensive insurance you can buy. Repainting with COVERALL does more than any other one thing to increase the value of a building. It lowers the rate of depreciation and beautifies any property.

Made of Quality Materials

COVERALL truly preserves, beautifies and protects; gives a maximum covering capacity per gallon; enables every man to be his own painter—and all at a price within the reach of every home owner. We know COVERALL is good because we make it ourselves in our own paint factory. That is why we can give you such a strong guarantee.

COVERALL House Paint is of a superior lasting quality; truly uniform in color and composition; finely ground insuring greatest covering capacity. We use **no fish oil, no water.** Only such materials as are necessary to make a good paint are used in COVERALL. Paint your buildings now—and use COVERALL House Paint.

COVERALL White Stays White

We make COVERALL House Paint in a big, modern paint factory, owned and operated exclusively by Montgomery Ward & Co. It is equipped with special paint making machinery and is in charge of expert workmen whose business it is to produce quality paint to satisfy you. When you buy COVERALL you get paint that you can be sure is good because we make it good. Experts tint the colors, assuring uniform and consistent shades in every can.

Every gallon of COVERALL House Paint covers 250 to 300 square feet of surface with two coats of paint. For new work, or buildings that need painting badly, a little more paint will be required. For such surfaces put on a priming coat with paint to which you have added one pint of turpentine and one to two quarts of raw linseed oil. Then put on two coats of Coverall without thinning and you will have a beautiful, satisfactory job at an economical cost.

Ready Mixed by our machine methods, superior to hand mixing, COVERALL House Paint comes to you all ready for use. Just stir as directed and with any good paint brush, you can apply the paint yourself. You can have a beautiful job because the combinations are almost unlimited. You can obtain the color effects that will please you. It is easy to know how much to order by following our "How to Order" instructions at bottom of this page.

Choice of 30 colors; also Black and White. Make your selection from the list below, or refer to our catalogue No. 102 where colors are shown; or write for free color cards.

Barrels shipped from Chicago Paint Factory, all other sizes from Chicago Store

Saved 40% by Using Coverall

"Your Coverall Paint is all that you claim for it. It works well under the brush and covers the surface better than any paint I have used in thirty years. I save about 40 per cent by using Coverall.

"My future orders for paint will be from Montgomery Ward & Co."

J. H. Steffel,
Salem, O.

Printed by Permission

"The Paint I received from you was the best I ever used. I painted two houses, each three coats. They had not been painted for about ten years, and looked so bad before I painted them that I thought it was useless to spend money on them. Now they look great and the property value has doubled, besides saving 20¢ a gallon on the paint."

C. Vaessen,
Sublette, Ill.

Printed by Permission

Saved 20¢ a Gallon

How to Order

Coverall House and Barn Paint

It is easy to estimate how much paint to order. Suppose your building is 30 by 40 feet and 20 feet high. First add together the length in feet of the four sides—making 140 feet, the distance around the building. Then multiply by the height—20x140=2800 which is the surface to be covered in square feet. Divide this amount by 300, the number of square feet one gallon of Coverall will cover with 2 coats, and you have 9⅓ gallons. Allow about ¼ extra, or 2½ gallons, for trimming and total amount required for 2 coats is 12 gallons.

The above estimate is for buildings in fair condition for repainting. If old paint is weatherbeaten badly or if building is new it should be gone over first with a priming coat of Coverall to which has been added about ½ its volume of raw linseed oil, before applying the usual two coats. This would require 50 per cent more paint than estimated for above house, or 6 gallons, making a total of 18 gallons of Coverall and 3 gallons of linseed oil.

General Ordering Instructions, Page 329

It Is Easy to Order from Ward's

Satisfied With Results

"This is the third time I have painted my buildings and it is the best job I have ever had. Everyone remarks how nicely their new paint. The last time I painted my house, I used white lead and oil, but I did not get as nice a job as from Coverall, and your paint saved me money.

"You need not be surprised to get more orders from me. I will be surprised if you do not."

C. J. McKittrick,
Indianola, Ind.
Printed by Permission

Will Use no Other

"The Paint I bought from you last fall was used to paint a seven-room house. We have one-third of a drum left and are going to use it on the farm buildings. I wouldn't have any other paint because it spreads well, looks well, wears well and never gets hard and lumpy in the can like some store paints; and it is always ready for use, no matter how long you keep it."

Howard S. Reber,
Benton Harbor, Mich.
Printed by Permission

Coverall Barn Paint

$1.28 A Gallon
In 50-Gallon Barrels

Made in Our Own Paint Factory and Recommended by Our Customers

REAL economy in barn painting is buying a good paint at a reasonable price. That is what you get when you use COVERALL on your barns and outbuildings. COVERALL represents years of scientific research, hundreds of laboratory and practical tests. It contains ingredients properly proportioned and ground in pure linseed oil. It possesses great spreading capacity and wearing qualities. Every gallon is thoroughly dependable. It has proved its merit as a good, honest value.

That is why we receive hundreds of letters from our customers who have used COVERALL Barn Paint. They are really glad to let us know how well the job looks, how far the paint spreads, and how much money they actually saved by using COVERALL.

COVERALL Barn Paint is made in our own paint factory from the best mineral pigments, oxides, linseed oil, driers and other ingredients, perfectly ground and mixed together by heavy machinery. The average covering capacity of COVERALL Barn Paint is 250 square feet, two coats to the gallon. This unusually large covering capacity means fewer gallons required for the job and money saved in proportion. Our COVERALL flows evenly, smoothly and freely.

A Great Saving

"In the painting of our barn we saved the painter's salary, as we did the painting ourselves; and we saved on the cost of paint, as we purchased it from Ward's at a lower figure than it could be bought elsewhere.

"We expect to paint again soon, and you may rest assured Montgomery Ward & Co. will receive the order"

Herman Benike,
West Bend, Wis.
Printed by Permission

Never Used a Better Paint

"I wish to state that I and my sons have painted all of my buildings with your famous Coverall Barn Paint, and after six months it still remains nice and glossy and won't rub off like some paint does. For the saving, will say I saved over $2.25 per gallon."

Fred Lanoue,
Ashkum, Ill.
Printed by Permission

It Is Less Expensive to Paint Than to Repair

Don't wait until paint can no longer restore your buildings. It is better, wiser and less costly to repaint your barns and outbuildings with COVERALL Barn Paint when they first need it. The remarkably low prices remove all excuse for delay, and make it possible for you, today, to take care of your buildings properly; to protect, preserve and beautify them without nearly the expense that neglect will eventually cost you. Go over your buildings now, while the subject is fresh in your mind, and order enough to give each surface two coats of COVERALL Barn Paint. You can do the work yourself, in spare time, and be assured of satisfaction.

A Quality Paint At a Quantity Price

COVERALL Barn Paint has been made especially for hard service and will stand constant exposure to the weather. Every ingredient entering into its manufacture is selected for its quality and the low price is simply the result of Ward's large purchases of materials and direct to user selling methods.

Red, Yellow, Gray and Maroon are the standard colors in which COVERALL Barn Paint is furnished. You may choose any of these colors which will harmonize with your house or outbuildings. For directions on How to Order barn paint, see Page 661.

Make your selection of colors from the list below, or refer to our Catalogue No. 102 where colors are shown; or write for free color cards.

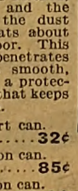
Ward's Stainless Floor Oil

85¢ A Gallon



Apply this special Stainless Floor Oil with a cloth or mop. For use over floors of kitchen, pantry, public halls, and the school room. Keeps the dust down. One gallon treats about 600 square feet of floor. This preparation readily penetrates into the wood giving a smooth, glossy finish. It forms a protective coat on your floors that keeps them in good condition.

575 C 8230—1-quart can. Ship. weight, 3 pounds..... 32¢
575 C 8232—1-gallon can. Ship. weight, 9 pounds..... 85¢
475 C 8233—5-gallon can. Ship. weight, 40 lbs.... $4.00

Wardway Waterproof Stucco Paint

With this high grade, durable Paint you can make an old weather stained stucco, stone, brick or cement building look like new. It is a high grade weather resisting paint for lasting and durable wear. Protects against dampness, seepage and disintegration when used on cement silos, concrete fence posts and coating basement walls inside and outside. Surfaces not previously painted should first be given one coat of Seal-Tite.

In addition to the beautiful color it gives the house, it also retards decay by protecting the stucco from weather wear. It seals the surface, preventing rain from soiling the walls.

It is easily applied and retains its original color. One gallon covers about 200 square feet, two coats. Read "How to Order" on Page 661. Shipping weights: 18 and 77 pounds.

Choice of 4 popular colors, also White. Make your selection from the list below, or refer to our Catalogue No. 102 where colors are shown; or write for free color cards.

Makes Roofs Last Longer and Look Better

For Old or New Shingle Roofs

Do the Work Yourself—Shingles Can Be Dipped or Brushed

Rich in Creosote Oil—One of the Best Wood Preservatives Known

ONE application of Wardway Creosote Shingle Stain will add years to the life of your shingles, whether old or new. It increases resistance against weather wear, and at the same time makes your roof more attractive in appearance. The deep penetration of the creosote oil contained in this stain produces that mottled effect so much desired, and preserves the wood.

Because of its creosote oil body, Wardway Shingle Stain is effective in preventing rot, decay and damage caused by boring insects. It will resist the action of moisture for years.

Shingled side walls may also be painted with Wardway Shingle Stain. Brushed on, one gallon covers 100 square feet, two coats; 2½ gallons will treat 1000 shingles dipped two-thirds their length.

Choice of 4 popular colors. Make your selection from the list below, or refer to our General Catalogue No. 102 where colors are shown.

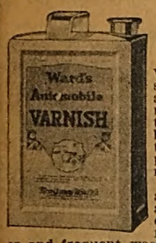
Ward's Automobile Varnish



Apply a coat of Ward's Automobile Varnish to that dull faded car, and see the difference you make in its appearance. Your car will look like new, because this varnish brings out the original color and adds a high lasting luster. It actually increases the life of the finish because of its protective qualities. Rain, snow or mud will not harm it.

We also recommend that you add a coat of Ward's Automobile Varnish after painting your car. This not only adds to the brilliance of the finish but protects against the weather and frequent washings as well. Spreads easily, lasts long and dries free from dust in about six hours. Hardens so the car may be used in two or three days.

Wardway Automobile Enamel

74¢ A Quart

One Coat Is All It Takes

With Wardway Automobile and Carriage Enamel you can do a fine paint job at only a small part of what it would cost to have a painter do it. A quart of enamel is all you need for most open cars, and a little more for closed cars. You don't even have to remove the old enamel; just see that it is dry, clean and smooth. You'll be surprised at the good job you can do and how simple it is to paint your car. Directions on the can. A faded looking car can quickly be changed into a bright, shiny, new looking auto, one that you and your family will be proud to ride in. The high gloss finish of Wardway Carriage and Automobile Enamel is lasting and will stand heat, cold, rain and mud.

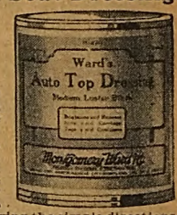
Ward's Auto Top and Seat Dressing

For Renewing Auto and Carriage Tops

44¢ A Pint



The appearance of your entire car depends very much on the condition of the top. If the top is faded, the entire car looks dingy. On the other hand, if the top is bright and clean, the entire car seems to be dressed up.

Ward's Auto Top Dressing enables you to renew your old top for little money and a few minutes of your spare time. There is no trick to applying it—anyone can do it by following the simple directions on each can. Why not send your order now and renew your old top as soon as possible, when the cost is so small and the appearance of your entire car depends upon it so greatly?

Ward's Auto Top Dressing is also good for anything made of mohair, leather or imitation leather such as auto cushions, carriage tops, traveling bags, etc. It waterproofs and preserves, but will not harden the above mentioned materials.

Wardway Wagon and Implement Paint

$2.50 A Gallon

Your farm implements and wagons deserve a good paint, one that will stand the severe wear which all such implements receive. Wardway Wagon and Implement Paint is especially made to meet such requirements.

In a few hours, you can make an old wagon look like new and protect implements against weather wear for many months. You can easily do this yourself with Wardway Wagon and Implement Paint. You do not even have to remove the old paint. Just see that the surface is dry, clean and smooth. It will make them look better, prevent the wood from checking and warping and the metal parts from rusting. Shipping weights: 3, 4 and 11 pounds.

Ward's Cold Water Paint

5¢ A Pound

For Painting Interiors of Garages, Workshops and Poultry Houses

An Interior Paint, in powder form, which when mixed with cold water makes a finish suitable for pantries, basements, factories, offices, garages, barns, chicken houses and many other places where an inexpensive interior paint is desired. Dries hard and firm—will not chalk, peel or rub off. Can be applied either with a regular paint brush or by spraying. Pure white. Forms a sanitary durable coating that helps prevent fire. Approved by the Fire Underwriters Laboratories. Use 1 gallon of water to every 5 pounds of paint. Five pounds will cover about 400 square feet.

A few dollars spent now will save you many hours of fence repairing in the future

Ward's Creosote Wood Preservative

44¢ A Gallon In 50-Gallon Barrels

Creosote Oil is one of the best wood preservatives known. State experiment stations recommend it for preserving fence posts and other wood. Railroads use it for preserving ties, telegraph poles and bridge supports. Highly recommended because it is a refined Creosote oil product, especially prepared for the preserving of the wood. It penetrates the surface and seals the pores, protecting the wood from ground moisture and resisting insects and fungi. Applied inside of hog or hen houses, lice will leave. Makes the wood last longer, preventing rot and decay and saving many dollars in repairs and replacements.

Apply with a brush or by dipping. No other preparations are necessary. Five gallons enough to treat 100 fence posts or 100 feet of surface. Shipping weights: 500, 250, 50 and 10 pounds.

For Inside Walls, Woodwork and Furniture
Semi-Gloss Finish—Easily Cleaned

$2.68 A Gallon

Walls, woodwork and furniture look fresh and like new after a coat of Wardway Household Paint. Made from a special formula to meet the requirements of an all purpose household paint of excellent wearing qualities at a low price. Wardway Household Paint is easy to apply—you can do the work yourself in a few hours. You will be surprised at the low cost, and how attractive the job will look.

Wardway Household Paint dries hard and smooth with a semi-gloss finish that you may wash with soap and water without injury to the surface. For this reason it is practical for bath room and kitchen walls which need constant washings. Does work which formerly required several different kinds of paint so you save both time and money using Wardway Household Paint. You need not be an expert painter to use it—anyone can easily apply it with good results.

Flows evenly and smoothly and when dry, will not show brush marks or laps. Exceedingly durable and lasts an unusually long time.

For painting your furniture, Wardway Household Paint is also highly satisfactory. It does not soften in warm weather and will give long service on chairs and furniture that receive unusually hard usage. You will be pleased with the appearance of furniture on which you have used this all purpose paint, and it may be washed easily and quickly.

We make Wardway Household Paint in our own factory from a carefully worked out formula, and we know that it is everything we claim for it.

One gallon covers about 250 square feet, two coats.

Choice of White and 12 popular colors. Make your selection from the list below, or refer to our Catalogue No. 102 where colors are shown; or write for free color cards.

Wardway Liquid Enamel

$2.48 A Gallon

Ten Popular Colors

Walls finished with colored enamels are very attractive. They not only beautify your rooms, but they cost much less than you would suppose—especially when they are painted with Wardway Liquid Enamel. We know this enamel is good because we make it in our own factory.

Wardway Liquid Enamel has a great many uses in every home, not only for walls, but for woodwork, furniture, metal ceilings, bedsteads or wicker furniture. Applied quickly and smoothly with an ordinary paint brush, it gives an attractive durable finish which you may wash easily with soap and water. You can secure beautiful color effects by painting your walls, furniture and woodwork in harmonizing shades.

Choice of White, Black and 8 popular colors. Make your selection from the list below, or refer to our Catalogue No. 102 where colors are shown; or write for free color cards.

Beautiful—Sanitary and Durable

WITH Towerlite White Enamel anyone can get results to compare favorably with the work of a professional painter. Bedrooms, refrigerators (inside as well as outside), furniture, flower stands, or almost any household furniture or woodwork can be made strikingly beautiful when painted with Towerlite. You will appreciate the easy flowing qualities and the beautiful finish of this high grade enamel. It is especially good for use in bath rooms and kitchens. One or more coats of Towerlite Undercoat (listed below) make a perfect foundation for Towerlite Enamel.

Towerlite Enamel dries overnight with a hard, smooth finish. Will not crack, peel or chip if the surface covered is smooth, dry and clean.

Wardway Towerlite Enamel is unusually practical for inside woodwork because it is easily cleaned.

The price of Towerlite is very reasonable. You usually pay much more for other enamels of the same high quality.

Glossy or Eggshell Finish

White Gloss Finish

Article Number	Size Can	Ship. Weight	Each
75 C 8432	½ pint	2 pounds	$ .38
75 C 8433	1 pint	3 pounds	.62
575 C 8434	1 quart	4 pounds	1.14
575 C 8436	1 gallon	15 pounds	4.30

Article Number	Size Can	Ship. Weight	Each
75 C 8390	1 pint	3 pounds	$ .62
575 C 8391	1 quart	4 pounds	1.14
575 C 8393	1 gallon	15 pounds	4.30

Flows Evenly—Dries Hard Easily Cleaned

One gallon will cover 200 to 250 square feet, two coats. Best results are obtained when Towerlite is applied over one or two coats of Towerlite White Undercoat listed below.

TOWERLITE STAYS WHITE

Towerlite White Undercoat

Unless the surface to be repainted is in proper condition to receive the new coat, the best results may not be obtained. Use as a first coat under any white or colored enamel, particularly our Towerlite Enamel. This undercoat makes a fine flat surface just right for the finishing coat of enamel. Helps cover up the old surface and improves the appearance of the finishing coat.

Towerlite White Undercoat is primarily a first coat, preparatory to enameling but it may also be used to give a flat white finish.

COLORS: Light oak; dark oak, or golden oak. State color wanted.

75 C 8030—1 pint	$	.33
575 C 8031—1 quart		.58
575 C 8032—1 gallon		2.15

How to Do Your Own Graining

First stop all holes and imperfections with putty. Fix-It water putty or crack filler. (see Page 666); then smooth off the entire surface with fine sand paper or steel wool.

Apply a coat of Co-Var Finish Ground Color see Page 666, which will give a flat color upon which to apply the graining compound. Apply graining compound to small part of the surface at one time, as it dries quickly. Draw graining roller over the coated surface varying the motion slightly each time to get different grains.

When dry apply our Co-Var Finish of the desired shade.

You will be surprised at the attractive results you can obtain with our graining tools, graining compound and Co-Var finish.

Home Grainer

For imitation of any wood. Set consists of two rollers and one comb. Length of rollers, 5 inches. Comb, 3 by 3½ inches. One roller produces heart shape wood grain, the other is a blender and a steel comb for fine grain effect. Shipping weight, per set, 8 ounces.

75 C 750—Per set...85¢

Graining Colors in Oil

In paste form. Shipping weight, per can, 1½ pounds.

COLORS: Mahogany; walnut; light or dark oak. State color wanted.

Carpenters' Ribbon Glue. A bone and hide glue, amber color, exceptionally strong. Recommended for the finest furniture work.
75 C 8576—Per pound ..... 38¢

Wardway Kalsomine Is Easy to Apply

ONLY the addition of water, either cold or hot, to Wardway Kalsomine makes a wall finish which covers well in one coat and can be used on almost any surface. It dries quickly, is nonpoisonous, will not rub off, crack or peel, and works well in any climate.

Can be applied over painted, enameled, varnished or shellacked surfaces if clean and dry. Can be applied over paper, wall board, wood, stone, brick or plaster. Keeps in good working condition for several days after mixing.

One 4-pound package, properly mixed, will cover about 400 square feet of smooth plastered walls, about 300 square feet of smooth boards, or about 150 square feet of rough surface.

Comes in White and 12 Beautiful Colors

Make your selections from the list below, or refer to our Catalogue No. 102 where colors are shown; or write us for free color cards. It is best to apply Kalsomine with a regular Kalsomine Brush like those shown on Page 667.

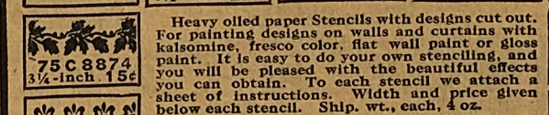
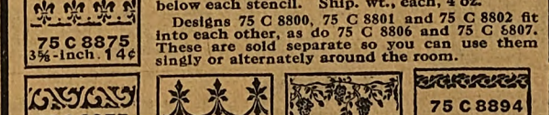
Stencils for Borders and Panels





Heavy oiled paper Stencils with designs cut out. For painting designs on walls and curtains with kalsomine, fresco color, flat wall paint or gloss paint. It is easy to do your own stenciling, and you will be pleased with the beautiful effects you can obtain. To each stencil we attach a sheet of instructions. Width and price given below each stencil. Ship. wt., each, 4 oz.

Designs 75 C 8800, 75 C 8801 and 75 C 8802 fit into each other, as do 75 C 8806 and 75 C 8807. These are sold separate so you can use them singly or alternately around the room.

Ready Mixed Aluminum Paint

Ward's Ready Mixed Aluminum Paint is a heat resisting and rust preventing finish for metal surfaces, radiators and pipes. It is recommended for inside or outside work and can be used with good results on porch rails, tanks, and other similar exposed surfaces. It protects for an unusually long period. Shipping weights: 1, 2, 3, 4 and 12 pounds.

Dry Bronze Powder

Finely ground Bronzes of high quality for gilding or decorating radiators and picture frames. The brilliant colors are also used for effective polychrome work on lamps, candlesticks and mirrors, and for bronzing statuary.

To prepare, simply mix a small quantity at a time to a fairly heavy consistency; this will require about a pint of Banana or Bronzing Liquid to 6 ounces of bronze—except Aluminum, which takes four ounces. In some forms of decoration the dry bronze is sifted over freshly painted or varnished surfaces. Ship. weights: 2 ounces, 1 and 2 pounds.

Wardway Patching Plaster

Anyone can use Wardway Patching Plaster. It is put up in dry form and only the addition of water is necessary to make it into plaster for patching purposes. Use it for repairing holes in plaster, brick or stucco. It does not shrink as plaster of Paris will. The patch will stay—it will not crumble, crack or fall out. It is not necessary to shellac over it because it does not show through when you paint, kalsomine or paper. It hardens slowly, so you do not have to hurry to complete the job. Have a package on hand for emergency use. Shipping weights: 3 and 6 pounds.

75 C 7935—2½-pound package ..... 20¢
75 C 7936—5-pound package ..... 35¢

Brighten Up Your Floors

Make Your Old Furniture and Woodwork Look Like New

Refinish the floors, woodwork and furniture in your home with Co-Var Finish. It is a hard drying, fine quality color varnish which not only renews the original luster, but colors the wood to resemble the finish you like best.

You can apply Co-Var right over the old finish whether it is paint, stain, enamel or varnish. Odd pieces of furniture can be made to match those you like best. The woodwork and floors can be given a brilliant luster in a color to harmonize with your furniture. One coat is usually sufficient. If a darker shade of coloring is desired, apply another coat of Co-Var. When putting a lighter color over a darker surface, it is first necessary to appy a coat of Ground Color, No. 192.

Choice of 7 popular colors; also Natural and Ground Color. Make your selection from the list below, or refer to our Catalogue No. 102; or write for free color cards.

183—Cherry 185—Light Oak 191—Bog Oak

Dealers Ask Much More for the Same Quality

Economical and Durable Dries Overnight

Brighten up your floors with Marproof Floor Varnish and you will see why thousands of our customers will use nothing else. You will see how easily it is applied; what a hard, smooth surface it forms. You will find too, that you can save money not only because our Marproof costs less, but because with it you can do the job yourself and do it well. Simply follow the directions on the can. It's easy to do

Water, either hot or cold, makes no impression on Marproof. It protects the floor from heel marks, scratches and scars. On new floors or old it gives the same bright, attractive finish. While low in price, it will outlast many higher priced varnishes. It protects your floor from wear. Marproof dries overnight, so you can walk on it the next day.

Wardspar Durable Spar Varnish

Wardspar Varnish is widely used for fine interior finish; for floors, table tops, boat decks, airplanes or any surface which gets unusually hard wear.

Tough and weather resisting, Wardspar Varnish is also an excellent varnish for outside jobs, such as porch ceilings, vestibules or doors. It dries in six to eight hours, giving a bright, hard finish which will stand rain, sleet, snow and hot summer sun.

Wardspar Is Easily Worth Double the Price You Pay

Kitchen, bath room and other woodwork that requires frequent cleaning should be finished with Wardspar. It is not affected by water and constant washing will not turn it white. Lasts an unusually long time. Wherever it is necessary to use a tough, durable, wear and weather resisting varnish, choose our Wardspar. Shipping weights are given in center of page.

75 C 8600—1-pint can $ .43
575 C 8601—1-quart can. .80

You Can Do Better Work with Ward's Brushes Listed on Opposite Page

$1.80 A Gallon

Diamond "W" Floor Varnish

Our Diamond "W" Floor Varnish has earned a reputation for excellent, long wear. Wherever it has been used, it has made friends, first, because it is low in price, and second, because it stands the test of hard wear so well. Our customers tell us that it is the best varnish made for the money. Diamond "W" is easy to apply. It dries overnight and gives a smooth glossy finish which is not injured by water.

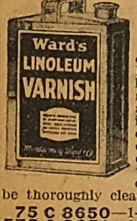
75 C 8645—1-pint can. $ .30
575 C 8646—1-quart can. .55
575 C 8648—1-gallon can. 1.80
475 C 8649—5-gallon can. 8.25

How to Refinish Your Floors

Where floors are smooth but dull, just clean the surface and apply our Marproof Varnish. If the varnish is scratched, in bad condition and worn through, remove the old varnish entirely with our Paint and Varnish Remover listed below.

If there are any dark spots worn through the varnish, bleach with our Wood Bleacher listed on Page 665.

Fill all cracks with Crack and Crevice Filler. If the floor is too badly worn and discolored, restain the whole surface with Penetrating Wood Stain to make it uniform; then apply Marproof Floor Varnish.



Special Linoleum Varnish

Varnish your linoleum or oilcloth occasionally with this specially prepared Linoleum Varnish, and it will last much longer. On new linoleum or oilcloth this special varnish will retain brightness and preserve the pattern with a protecting film, which will delay the appearance of the first wear spots. On old linoleum or oilcloth covering, a coat revives faded color and provides a luster that makes them look almost new. Inlaid linoleum or linoleum that has been waxed, should be thoroughly cleaned with turpentine before varnishing.

75 C 8650—1-pint can $ .32
575 C 8651—1-quart can .58
575 C 8653—1-gallon can 1.95

Special Paint and Varnish Remover

Very often you will find the finish on furniture or woodwork so badly marred or checked that no amount of painting or varnishing over it will improve its appearance. In such cases it is best to remove the old finish before applying the new one.

Special Paint and Varnish Remover is a very effective and easy way of doing this. You simply apply it with a brush and in a few minutes it has cut in and softened the old finish so it can be easily removed with a scraper or steel wool. It does not in any way discolor the wood or injure the hands. Will not raise the grain of the wood or affect in any way, the new finish to be applied.

75 C 7796—1-pint can. Shipping weight, 1¼ pounds. $ .32

Ward's Penetrating Wood Stain

A single coat gives new wood a soft stained finish on which you may use either wax or varnish, depending on whether you want a dull or glossy finish. This stain is for new work only. It does not raise the grain but merely penetrates the wood and brings out the beautiful natural colors.

No experience is needed to apply Ward's Penetrating Stain. Merely follow the directions printed on the can. Various effects can be obtained according to the amount of stain applied and the time allowed for penetrating. To get a light effect, wipe the stain off quickly after applying. If a darker shade is desired, permit the stain to remain a few minutes before removing. Only materials you need are a soft brush and a piece of cheesecloth. **Choice of 8 popular colors.**

Ward's Mirolite Interior Varnish

$2.85 A Gallon

Dries with a Brilliant Finish

Mirolite Interior Varnish gives woodwork, doors, wood paneling and furniture a brilliant finish that is not always obtainable with varnishes priced so low. Mirolite brings out the beauty of the wood and at the same time preserves the surface and makes it last longer. A pale, easy flowing varnish of superior quality which can be applied to all kinds of woodwork. Mirolite may be washed with hot or cold water and will not crack, turn white or blister.

Anyone Can Apply It

Mirolite Interior Varnish is exceedingly easy to use. All you need is a varnish brush, such as we list on the opposite page. It flows out evenly and dries without showing laps or brush marks.

Mirolite is really a durable varnish and will last for years. Dries hard in six to eight hours. May be rubbed and polished after forty-eight hours. Surfaces varnished with Mirolite Interior Varnish are sure to be pleasing and attractive for an unusually long time.

75 C 8610—1-pint can $ .42
575 C 8611—1-quart can .78
575 C 8613—1-gallon can 2.85
475 C 8614—5-gallon can 13.50

Cabinet Finish Varnish

This hard drying Varnish is excellent for indoor work demanding more than ordinary endurance. We recommend it especially for school seats or church pews or for woodwork where a cabinet finish is desired. It is easy to apply and will dry dustproof in 6 to 8 hours. After 24 hours it may be rubbed to a high polish, giving an attractive serviceable finish. Bad surfaces should be treated with our Paint and Varnish Remover.

75 C 8665—1-pint can $ .35
575 C 8666—1-quart can .65
575 C 8668—1-gallon can 2.20
475 C 8669—5-gallon can 10.25

Rubbed Finish Varnish

Produces the soft, glossy effect of a rubbed finish without the necessity of rubbing it down. You get this desirable lustrous effect with almost no work and no more time than you would spend in putting on an ordinary coat of varnish. Full directions for applying on each can. This varnish is free from wax, yet you get all the features of a waxed finish combined with the wearing qualities of varnish. Dries perfectly in twenty-four hours.

75 C 8655—1-pint can $ .41
575 C 8656—1-quart can .76
575 C 8658—1-gallon can 2.60

Ward's Mission Art Liquid Wax

A beautiful lasting wax finish can be obtained by using our Mission Art Liquid Wax over our Penetrating Wood Stain (shown below). Also used for waxing furniture, woodwork and floors, and polishing any varnished surface. Dries with a gloss. If you want to change a varnish finish to a wax finish, simply remove the varnish with our Paint and Varnish Remover, apply Penetrating Wood Stain of the color desired, and then add Mission Art Liquid Wax.

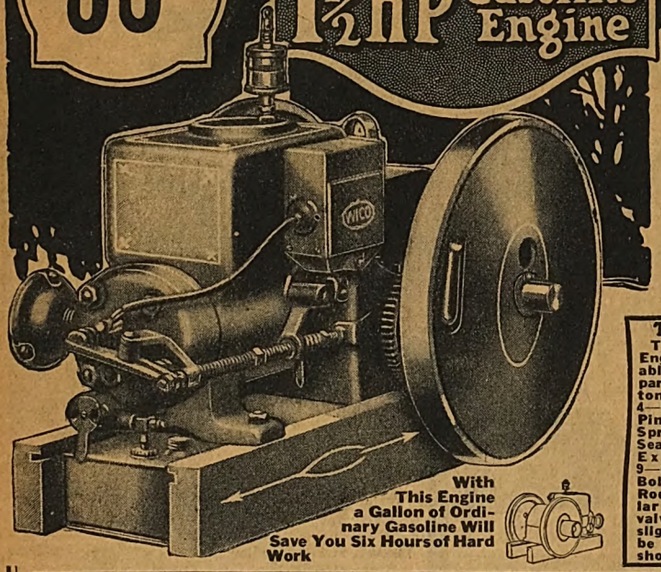
A Sensational Value

$39.95

The New SATTLEY 1½ HP Gasoline Engine



There is no 1½ horse power Gasoline Engine made that will give more consistent good service. We guarantee this engine to be equal to any engine made selling for $15 to $20 more.

Thousands of Ward's SATTLEY Engines are in actual use—pumping water, running grinders, separators, concrete mixers, washing machines, lathes, saws, milking machines, etc. The reports of users and our own tests prove that there is no engine made that will better meet the needs of the average user. It is as nearly trouble proof as an engine can be, and is so well and sturdily built that it will work under almost any conditions. Many engines fail to develop their rated horse power under test. The SATTLEY will develop up to two horse power, if needed. It is not wasteful of fuel or oil, will not overheat, and has less parts than the average gasoline engine.

Specifications Which Prove the Quality of This Fine Engine

Every part used in the SATTLEY is made with the finest degree of accuracy. **Flywheels**—15¾ inches diameter, turned true and carefully balanced; weight, 30 pounds each. **Crankshaft**—heat treated steel, 1¼ inches diameter, carefully turned and ground true. **Bearings**—long main bearings; babbitted. **Connecting Rod**—superior grade malleable iron. **Cylinder**—close grained gray iron, bored and ground to 3¾-inch bore. **Pistons**—standard Ford pistons and rings. **Ignition**—Wico high tension magneto proved by long and severe tests to be one of the best magnetos made for use on gasoline engines which must be used in all kinds of weather, indoors and outdoors. **Carburetor**—no complicated adjustments; gives proper mixture for greatest power at all speeds. **Fuel Tank**—Protected in base; holds one gallon. **Skids**—hardwood, take space 30 by 10 inches. **Pulley**—4-inch diam., 4-inch face. **Water Hopper**—Splashproof type, cast with cylinder and base in one piece. **Governor**—New type; positive, simple control. **Lubrication**—Sight feed cylinder oiler and grease cup. **Power**—1½ horse power at 550 revolutions per minute. Bore, 3¾ inches; stroke, 4½ inches. **Water Cooled**—Water circulates around the cylinder and valves. This largely prevents the valves from sticking, and assures smooth operation of the piston. Shipping weight, 220 pounds.

289 C 5044 ..... **$39.95**

Shipped from Factory near Jackson, Mich.

Ten Ford Parts

These ten parts of this Engine are interchangeable with standard Ford parts: 1—Piston. 2—Piston Rings. 3—Piston Pin. 4—Spark Plug. 5—Piston Pin Bushings. 6—Valve Spring Seats. 7—Spring Seat Plug Pin. 8—Valves, Exhaust and Intake. 9—Connecting Rod Cap Bolts. 10—Connecting Rod Clamp Screw. Regular Ford pistons and valves may be used with slight alterations. Can be made in any machine shop or service station.

Sold Under Guarantee to Satisfy You

Our confidence in this engine is so great that we sell it to you with the distinct understanding that if it is not perfectly satisfactory in every way, we will take it back and you won't be out a penny. You only have to write us for return shipping instructions.

Read *this* Letter

"The SATTLEY Engine fully meets my requirements in pumping water, running the washer, etc. Your price, including truck, is about $10 less than a similar engine without the truck at the local store."
Albert Harvey,
Archbold, O.
Printed by Permission

With This Engine a Gallon of Ordinary Gasoline Will Save You Six Hours of Hard Work

SATTLEY 3, 5 and 7 H.P. Engines Sold on 30 Days Trial

With 3 Speeds Hit and Miss Governor

$75.00 3 Horse Power

Easy to start—even in cold weather. Delivers smooth, even power. Attach it to your sheller, husker, grinder, saw outfit, ensilage cutter or other equipment. It does the odd jobs while you do the more important money producing tasks.

Made in Our Own Factory to Save You Money

Is an Engine always better because it costs more? Is there any reason why the best should be the highest priced engine on the market? Does the extra money you pay **for a high priced engine** actually and always go into the quality of the engine? How much of your money goes to pay extra profits and other unnecessary sales expenses? Remember, we have our own special engine manufacturing equipment and share with you the savings of manufacture, plus the savings of **selling direct.**

Built with the fewest possible moving parts, and the parts subject to wear are made oversize. No complicated mechanism. **The patented three-speed regulator is the simplest and most perfect speed changing device to regulate the speed to the job**—no extra pulleys, no gears or extra equipment. You can adjust the speed to almost any machine. Besides making the engine easy to handle this feature saves fuel on the slow running jobs. SATTLEY Engines have a large bore, a long stroke, and are designed for moderate speeds. They are dependable heavy duty engines that deliver full rated horse power.

Ample cooling capacity prevents overheating. Automatic sight feed lubricator supplies oil to piston, cylinder and wrist pin bearings. Webster oscillator magneto provides reliable ignition—no batteries, wiring or short circuits. Extra heavy crankshaft of high carbon steel; ground and polished. Wide main bearings; adjustable, wick oiled. Malleable iron connecting rod, I-beam construction. Semi-steel pistons; extra long, ground to the exact fit. Large heavy fly wheels insure smooth, steady, running without vibration. Fuel tank completely protected in engine base.

Heavy cast base; 3 and 5 horse power bases, one piece; 7 horse power uses a double base. Cylinder and base are made separate—you can replace cylinder at any time without changing base casting. The crankshaft bearings are of babbitt metal.

Complete instructions with each engine.

$6.45 All Purpose Pump Jack

May be fitted to any pump with wind mill top. Clutch arrangement makes belt shifting unnecessary. Large diameter pulley and 5 to 1 gear reduction permits use of a small engine. Hard oil cups. Shaft key seated at both ends and set screwed. Cross head connects to pump rod with one bolt. Pitmans are seasoned hardwood. Whole jack neatly painted. Gears protected at point of mesh. Lifting capacity, 200 to 250 feet. Strokes: 5, 7½ and 10 in. Pulley, 13 in. diam. 2-inch face. May be used with horizontal force pump. May be mounted on wall, floor or ceiling. Clutch has two levers and can be controlled with ropes. Pump not included in price (see Page 629 for prices on pumps). Shipping weight, 80 pounds. Estimated total freight charges for 150 miles, 55¢; 300 miles, 68¢; 500 miles, $1.

187 C 5266.....**$6.45**

$10.85 Double Back Geared Pump Jack

An excellent all around Jack to use with gas or oil engines of all sizes. Pulleys make 341 revolutions per minute while pump is making thirty-five strokes. Engine need not be slowed down to put on belt. Double back geared. Furnished with tight and loose pulleys; back geared, 9¾ to 1. Three different stroke lengths—4½, 7 and 10 inches. Pulleys, 12 inches diameter for 2-inch belt.

This heavy duty pump jack will operate almost any pump with upright standard and wind mill top. The gears, castings and upright standards are made unusually heavy throughout, insuring a dependable jack that will give excellent service for many years. Pump not included. See Page 629 for Pumps. Ship. wt., 100 lbs. **Estimated total freight charges for 150 miles, 55¢; 300 miles, 68¢; 500 miles, $1.**

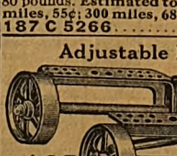
Adjustable Engine Truck



For engines weighing up to 500 pounds. Steel bolsters 16 inches wide. Bolsters are not connected; engine base serves for side beams. Wheels, 9-inch with 1¾-inch tires. Tubular axle, 1 by 26 in. Ship. wt., 50 lbs. **Shipped from Chicago Store.**

$4.25

189 C 5326.....**$4.25**

289 C 5328—Heavier Truck for engines up to 1000 pounds. Wood crossbeams, 22 inches wide; 9-inch front wheels, 14-inch rear wheels. Tires, 3 inches. Shipping weight, 100 pounds. **Shipped from Springfield, Illinois**.....**$8.25**

$4.45 Pump Spring

Your wind mill will pump in a light wind with this Pump Spring attachment. The spring acts as a cushion, making the pull equal on both up and down strokes. Your pump will work smoothly and quietly. Reduces wear on both wind mill and pump. Also desirable where a pump jack is used. May be used with nearly every style wind mill pump. Consists of two perfectly tempered steel coil springs and heavy steel frame or yoke which fastens around and to head of pump. Spring settings are adjustable to stroke of pump and wind mill leverage. Tension on springs adjustable. Shipping weight, 30 pounds.

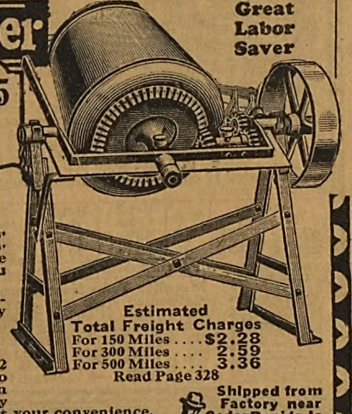
Handy Concrete Mixer

Great Labor Saver



$26.85

Will pay for itself in a short time on building jobs about the farm or home. Capacity, 2 cubic feet per minute. Runs by hand or power.

Ward's Price Saves You About $15

With this Mixer you can easily build sidewalks, driveways, stable floors, cisterns, feed troughs, foundations, silos or fence posts. You gain the permanence of concrete, and the saving you make will soon pay for the mixer.

Can be used for mixing feed and mashes, mortar, plaster, and washing root crops. Pulley is 16 inches in diameter with a 3-inch face. Should be run 150 to 200 revolutions per minute with a 1½ horse power engine.

Will thoroughly mix one wheelbarrow load (2 cubic feet) per minute, which is sufficient to keep three men busy. If you choose, you can work alone with the machine, turning it by hand, and mix small quantities of concrete at your convenience. This mixer is large enough to start contracting in a small way.

Portable Platform Scales Double Beam Weightless

$21.75

All Scales Shown on This Page Are Built to Meet the Requirements of All State Laws

Every farm needs a good Scale for general weighing. This scale is of the best material and workmanship. Frame and platform are extra heavy. Pillar and platform floor are hardwood, nicely painted and varnished.

No weights to lose. Upper bar with small sliding poise is notched and graduated by ½ pounds to 100 pounds. Lower bar with large poise is notched and graduated by 100 pounds. Beam is convenient height. Reads from either side. In setting up scale on arrival no adjustments are necessary. Shipping weights: 157, 165 and 170 pounds.

Beam Graduated in Half Pounds

Article Number	Platform	Capacity	Each
287 C 6346	16 by 22½ in.	600 pounds	$21.75
287 C 6347	17 by 23 in.	800 pounds	23.55
287 C 6348	18 by 25 in.	1000 pounds	26.35

Shipped from Factory near Madison, Wis.

Standard Beam

$17.45

Same as portable platform Scale except beam consists of one brass beam with poise and hanging weight. Particularly useful to the farmer for weighing feed, grain, etc., and checking up on his purchases of seeds and supplies. Bearings are self aligning, hard chilled and made of best grade tool steel. Tool steel pivots. Ship. weights: 150, 155 and 160 pounds.

Special Scale Drawings

We shall be glad to furnish special drawings of wagon or motor scales plans for any particular purpose. Tell us what you want. We will submit our ideas and sketches.

Heavy Duty Motor Truck Scales

$199.85

Pitless Type

Our Heavy Duty Motor Truck Scales are the same high grade construction and have the same general features as our regular wagon scales. They are particularly useful for elevators, sugar mills, coal dealers, quarries and for public weighing or wherever unusually heavy loads of materials are to be weighed. These scales will withstand practically twice their rated capacity or full rated capacity at each end of the scale.

Made with semi-cast steel levers which will not bend or spring; best tool steel bearings, finely tempered and with knife edge. All exposed parts painted. Standard compound beam.

The scale is furnished complete with all working parts including beam, beam box, joists. Plank flooring is not furnished. Simple instructions for setting up are sent with each scale.

Pitless Scales

The Pitless scale is preferred wherever you can use a 12 inch raised platform. It sets above the surface and the installation cost is very small because there is no expense for building a pit wall frame. The scale is very sensitive and will weigh small loads as accurately as will a smaller scale. It is entirely of steel and iron from foundation to floor. Built to carry nearly full capacity on either end of the platform, giving the scales an actual capacity of nearly twice their rating. Plank flooring not included.

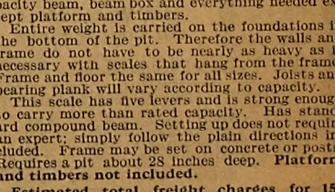
Article Number	Platform	Capacity	Ship. Wt.	Each
287 C 6373	8x16	10 tons	2500	$199.85
287 C 6375	9x18	15 tons	4300	356.00

Pit Scales

The Pit style is used when the installation is to be permanent. It is necessary to construct a pit from 28 to 49 inches in depth, this depth depending upon the size of the timbers used. The scale sets on heavy iron stands which rest on the foundation. Size of platform 8 by 16 feet. Capacity, 10 ton. Shipping weight, 1200 pounds.

287 C 6385.....**$135.85**
Shipped from Kansas City, Mo.

Ball Bearing Pit Scales



$59.85

The Pit Scale is preferable where it is necessary to have your platform level with the surrounding ground, or if it is impossible to build approaches. We furnish all working parts, standard full capacity beam, beam box and everything needed except platform and timbers.

Entire weight is carried on the foundations in the bottom of the pit. Therefore the walls and frame do not have to be nearly as heavy as is necessary with scales that hang from the frame. Frame and floor the same for all sizes. Joists and bearing plank will vary according to capacity.

This scale has five levers and is strong enough to carry more than rated capacity. Has standard compound beam. Setting up does not require an expert; simply follow the plain directions included. Frame may be set on concrete or posts. Requires a pit about 28 inches deep. **Platform and timbers not included.**

Estimated total freight charges for 150 miles, $3.31; 300 miles, $4.99; 500 miles, $8.14.

Article Number	Platform	Capacity	Ship. Weight	Each
287 C 6381	14 by 8 ft.	5 tons	525 lbs.	$59.85
287 C 6382	14 by 8 ft.	6 tons	725 lbs.	83.50
287 C 6383	14 by 8 ft.	8 tons	800 lbs.	97.00
287 C 6384	22 by 8 ft.	10 tons	835 lbs.	117.75

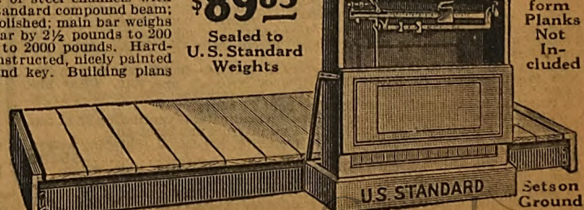
Shipped from Factory near Kansas City

Ball Bearing Pitless Wagon and Truck Scales

The Pitless Scale is preferred wherever it is possible to use it. It sets above the surface and is the most economical type of scale. Built on the five-lever principle—two pipe levers, one at each end of the scale; and two arm levers connecting the pipe levers. Arm levers carry weight to cross lever which transfers it to beam. All these levers are stationary so that jarring of loads does not affect them. Hardened steel ball bearings take the hard wear off the knife edges. Frame is made of steel channels with heavy I-beam joists. Standard compound beam; iron and brass highly polished; main bar weighs by 200 pounds; lower bar by 2½ pounds to 200 pounds, and 5 pounds to 2000 pounds. Hardwood beam box well constructed, nicely painted and fitted with lock and key. Building plans and directions with each scale.

$89.85

Sealed to U. S. Standard Weights



Platform Planks Not Included

Shipped from Factory near Quincy, Ill.

Double Walls. Outer wall is of 1-inch well seasoned redwood. Inner wall of ½-inch redwood. Heat retaining insulation between. **Water Circulation.** 2-inch pipes of heavy gauge copper extend round the upper edge and center of the egg chamber, insuring even heat distribution. **Heat Regulation.** Damper, controlled by very sensitive double wafer thermostat. **Heats Quickly. A feature of the Dependable Heating system** is the heavy copper tube which extends from the lamp chamber directly through the center of the middle hot water pipe and projects through the opposite side of the incubator. When the thermostat closes the damper, a portion of the heat instead of circulating in the drum which heats the main boiler, passes the full length of this tube, thus heating the water in the radiating system very quickly and bringing the temperature back to the proper degree. **Proper Ventilation. Airtight, Lightproof Doors.** The large machines have four doors; the smaller machines one. All doors are made of 1-inch redwood hung on heavy hinges with compression fasteners, insuring tight joints. Each door contains a small glass window, 3 by 15 inches to see the thermometer without exposing the eggs to cold air.
Finish. The Dependable is finished in rich mahogany, giving it a handsome appearance. **Egg Trays.** The 150-egg size has one tray; 250-egg size, 2 trays; 400 and 600-egg size, 2-egg chambers with 2 trays each. Trays are well constructed. Will not sag. Slot at front of each egg tray provides outlet for chicks to drop into nursery.
Lamp. Large capacity kerosene lamp with filler cap and movable lamp fits in fireproof shielded bracket.

Little Setting Hen

Hot Air Incubator

60-Egg Size **$4.98**

Entirely metal with double walled dead air space and asbestos insulation in top. Inside wall rust-proof galvanized steel. Bottom well insulated. Perfect bottom draft ventilation. No dead air pockets. Fumes can not reach egg chamber. Heat comes from above, air and moisture from below. Uniform, steady heat for every egg. Comes complete with egg tester, lamp, and high grade thermometer.
The Little Setting Hen is heated by hot air from a Safety Kerosene Lamp with sensitive thermostat damper control.
A new exclusive feature is the easy reading Thermometer projecting through top. Enameled gray. Size, 18½ inches wide, 16 inches high. Shipping weight, 14 pounds
Can be shipped by parcel post

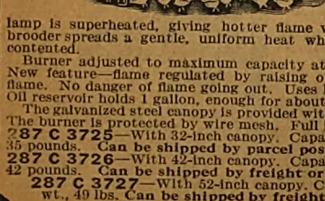
Happy Home Blue Flame Colony Brooder

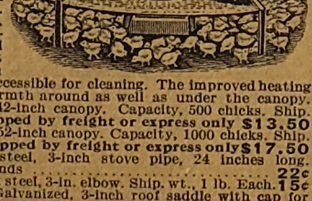
$9.85 300-Chick Size

Burns Oil



Happy Home Colony Brooders are self regulating and automatic in operation. The heater can be fastened to the floor if desired.
With this brooder you need no chimney. The canopy throws the heat down on the chicks as a mother hen would. They get plenty of fresh air. Kerosene (coal oil) the fuel used is inexpensive. Air consumed by the lamp is superheated, giving hotter flame with less oil consumption. This brooder spreads a gentle, uniform heat which keeps the chicks active and contented.
Burner adjusted to maximum capacity at factory—impossible to overflow. New feature—flame regulated by raising or lowering reservoir. Clear blue flame. No danger of flame going out. Uses less fuel than wick or valve types. Oil reservoir holds 1 gallon, enough for about 24 hours.
The galvanized steel canopy is provided with adjustable ventilating lid at top. The burner is protected by wire mesh. Full instructions furnished.
287 C 3725—With 32-inch canopy. Capacity, 300 chicks. Shipping weight, 35 pounds. Can be shipped by parcel post.....**$9.85**
287 C 3726—With 42-inch canopy. Capacity, 500 chicks. Ship. weight, 42 pounds. Can be shipped by freight or express only.....**$11.50**
287 C 3727—With 52-inch canopy. Capacity, 1000 chicks. Ship. wt., 49 lbs. Can be shipped by freight or express only**$13.75**
Shipped from Factory near Quincy, Ill.

New Colony Stove Brooder



$13.50 500-Chick Size

Burns Coal

Impossible for coal gas to reach chicks **Hover.** Galvanized steel with ring casting to fit on stove. Throws heat evenly from above. Provided with cord and pulleys for raising or lowering. **Heat Control.** Sensitive thermostat damper regulation. **Grates.** Rocker type, solid castings. Free burning. **Stove.** All gray cast iron, well made.
Uses very little fuel. Requires little attention. **Self feeding.** Coal is poured into hopper at top—3-inch flue. **Ash Pit.** Large and easily accessible for cleaning. The improved heating system used provides warmth around as well as under the canopy.
287 C 3894—With 42-inch canopy. Capacity, 500 chicks. Ship. wt., 102 lbs. Can be shipped by freight or express only **$13.50**
287 C 3895—With 52-inch canopy. Capacity, 1000 chicks. Ship. wt., 128 lbs. Can be shipped by freight or express only**$17.50**

Eight Gallon Combination Fountain and Heater

Warm Water for Your Poultry in the Coldest Winter Weather

$3.65

Helps egg production when eggs bring the best prices. Drinking trough runs entirely around the tank, and is high enough from the floor so hens can not scratch litter into it. Specially constructed burner. Has flue running through center of fountain and out of top. Airtight filler plug. Helps keep frosty dampness from the poultry house. Constructed of heavy galvanized steel with double handles. The 8-gallon tank can be removed and used for an additional fountain in summer. Fireproof galvanized bottom. Kerosene lamp has chimneyless brass burner and 3-pint fount. Small mica window in base so flame can be seen without removing the fountain tank. Entire height, 24½ inches; heater diameter, 15 inches; fountain diameter, 12¼ inches. Ship. wt., 17 lbs. Can be shipped by parcel post.

487 C 3750.....$3.65

$7.75 Base and 1 Section — Lamp Heated Oat Sprouter

Sprouts oats in rooms with low temperatures. Made of galvanized sheet steel with cypress framework; can not burn, warp, rust or rot. Heated by kerosene lamp (or gas). Ventilation keeps down mold. Made in sectional form—two trays in each section. Trays are 10½ inches wide by 13 inches long.

Illustration shows base and three sections.

187 C 3828—Base with heater and one section. Capacity, ¼ bushel. Ship. weight, 30 pounds. Can be shipped by freight or express only.....$7.75

487 C 3829—Extra Sections, two trays each. Capacity, ¼ bushel. Shipping weight, 18 pounds. Can be shipped by parcel post.....$2.85

Portable Giant Dry Mash Feeder

A large capacity Dry Mash Feeder at a low price. May be closed up at night. Sets up high from floor away from litter. Slanting roof prevents fowls from roosting on top. Extra heavy galvanized steel legs with flat wood runboard on each side for fowls to stand on while eating. Made of heavy galvanized sheet steel. Entire height, 35 inches. Height of hopper, 23 inches; width, 19 inches; length, 28 inches. Easily set up. Shipping weight, 26 pounds. Can be shipped by parcel post.

487 C 3875.....$4.95

Four-in-One Cafeteria

Fill compartments once a month or once a week for a large flock. No sacks for rats and mice to gnaw; no spoiled feed. Made of heavy galvanized steel, complete with wood platform, hangers and hinged cover. Shipping weights: 65 and 100 pounds.

287 C 3810—Small size, 45 in. long; 16 in. wide; 30 in. high. Holds 100 lbs. dry mash, 60 lbs. pearl grit, 60 lbs. oyster shells, 30 lbs. charcoal.....$9.80

287 C 3811—Large size, 95 in. long; 16 in. wide; 30 in. high. Holds 300 lbs. dry mash, 60 lbs. grit, 60 lbs. oyster shells, 30 lbs. charcoal.....$16.35

Shipped from Factory near Hannibal, Mo.

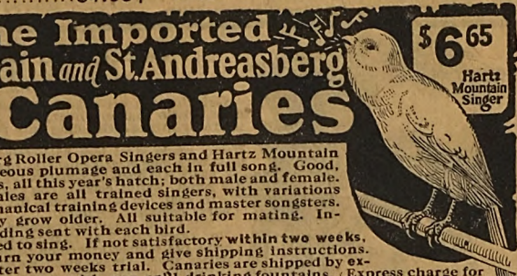
Genuine Imported Hartz Mountain and St. Andreasberg Live Canaries



$6.65

GENUINE St. Andreasberg Roller Opera Singers and Hartz Mountain Warblers. All in gorgeous plumage and each in full song. Good, healthy, active young birds, all this year's hatch; both male and female. Females do not sing. Males are all trained singers, with variations developed by hearing mechanical training devices and master songsters. They will improve as they grow older. All suitable for mating. Instructions for care and feeding sent with each bird.

Male birds are guaranteed to sing. If not satisfactory within two weeks, notify us and we will return your money and give shipping instructions. No adjustments made after two weeks trial. Canaries are shipped by express only, in specially built cages with non-spill drinking fountains. Express charge for 300 miles is about 50c. We guarantee Safe Delivery to any part of the United States. No birds ready for shipment before September 15. Shipping weight, about 3 pounds.

Brighten Your Home with a Cheery Songster

The Hartz Mountain Male Canaries are famed the world over for their sweet, melodious warble. They are very active and hardy.

287 C 4000—Hartz Mountain Male Canary $6.65

St. Andreasberg Canary Males are widely known for soft, rolling, restful bell and flutelike tones. We recommend them highly.

287 C 4001—St. Andreasberg Male Canary....$7.35

The female birds are not songsters. They make wonderful pets, however, and we recommend them highly for breeding.

287 C 4003—Imported Female Canary....$1.95

Shipped promptly from Chicago or Philadelphia, whichever is nearest you. Shipped by express only.

For Bird Cages, See Page 468

Nursery Stock

Guarantee

We take every precaution to protect all Nursery Stock in transit. If any is damaged we will replace it or refund your money. Shipment is made when the weather in your vicinity is favorable and when similar good conditions exist where nurseries are located.

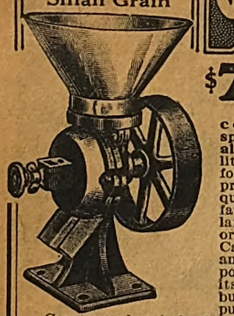
Guaranteed Mills and Grinders at Money Saving Prices

Mill For Grinding Small Grain



$7.95

Will grind shelled corn, wheat, oats, speltz, barley, rye and all small grains. This little Mill will soon pay for itself in the increased profits you get from quicker marketing and fatter stock. Particularly good for the poultry or small stock raiser. Capacity, 5 to 20 bushels an hour, depending on power, kind of grain and its condition. Crowfoot burrs, 5½-inch; 12-inch pulley, 3-inch face.

Constructed entirely of iron and steel—every part strong enough to resist many times the actual working strain. Should be run 200 to 600 revolutions per minute with 1½ horse power or larger engine. Two pairs of burrs, one coarse and one fine. Lag screws included. **Always give numbers on old burrs.** Shipping weights: Mill, 62 pounds; burrs, per pair, 4 pounds.

287 C 3000—Mill complete..... **$7.95**
287 C 3001—Extra Burrs, Fine. Per pair .**95**
287 C 3002—Extra Burrs, Coarse. Per pair .**95**
Shipped from Factory near Cedar Rapids, Ia.

Big Four Sweep Mill

Grinds ear corn (without husks) rapidly, either coarse or fine. Burrs make three revolutions to each round of the horses. Diameter of burrs, 16 inches; height, 3½ inches; will grind from 6,000 to 8,000 bushels of grain. Will grind 12 to 20 bushels an hour. A hand lever at top allows tightening and loosening of burrs. Coarse burrs for shelled corn and cob corn and fine burrs for shelled corn and small grains. Coarse burrs furnished unless otherwise ordered. Height, 43 inches. Complete mill with sweep, wood platform and one pair burrs. Shipping weight, 600 pounds.

Triple Geared **$38.35**

287 C 3050.....**$38.35**

Plain Mill on Box

Not geared. Burrs, 16½ inches diameter. Mounted on box. Capacity, 5 to 8 bushels dry corn an hour. Fine or coarse burrs. Coarse burrs shipped unless otherwise ordered. **When ordering burrs for old mills, give number or marks on your old burrs.** Shipping weights: Mill, 270 pounds; burrs, per pair, 40 pounds.

287 C 3055—Sweep Mill on box.....**$24.50**
287 C 3068—Fine Burrs for either mill. Per pair **4.50**
287 C 3069—Coarse for either mill. Per pair **4.50**
Shipped from Factory near Cedar Rapids, Ia.

Wilson Hand Grist Mill

Especially suited for grinding flour and corn meal for table use; wheat, rice and cracking corn and other grains for poultry feed. Will grind about 30 pounds of corn an hour.

Grinding burrs are made of extra hard metal ground true on emery wheels. Adjustable for either fine or coarse grinding. Steel shaft. Heavy balance wheel of cast iron. Diameter, 20 inches. No screws or bolts included. Ship. wts.: Mill, 29 pounds; burrs, per pair, 2 pounds.

487 C 2936—Mill complete.....**$4.95**
487 C 2938—Extra Burrs. Per pair.... **.95**

Hand Grist Mill

Grinds coarse, medium or fine. Heavy flywheel makes turning easy. Will grind grain, dry bone and shells. Also roots, bark, rock salt or coffee. Screws for fastening included. Can be shipped by parcel post.

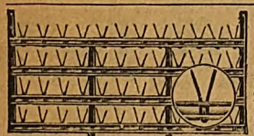
487 C 2950—**No. 1.** Small size; 13½ inches high. Capacity about 25 pounds corn per hour. Shipping weight, 19 pounds..... **2.65**

487 C 2951—**No. 2.** Large size; 16 inches high. Capacity 54 pounds corn per hour. Shipping weight, 35 pounds. **$4.55**

87 C 2953—Burrs for No. 1. Shipping weight, 2 pounds. Per pair..... **60¢**

87 C 2954—Extra Burrs for No. 2. Shipping weight, per pair, about 3 pounds. Per pair....**80¢**

Seed Corn Hanger



Protect your seed corn with this Rack. Made of U-shaped steel bars notched to receive hooks. Unit holds 96 ears. Ship. wt., 6 pounds.

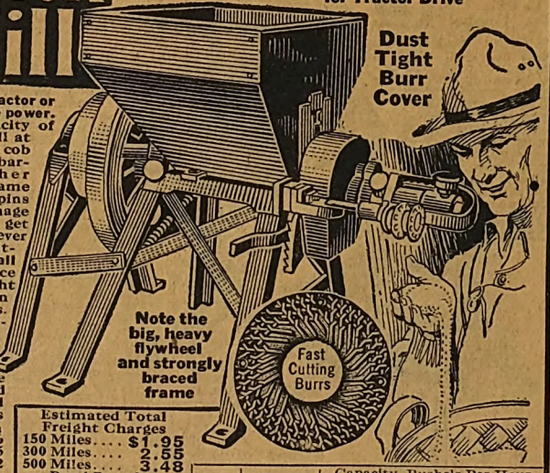
Mammoth Feed Mill

$32.85 **You Save About $15**
Complete with Extra Bearing for Tractor Drive



Can be run by engine, tractor or electric motor over 3 horse power. Table below shows capacity of Mill. Grinds equally well at any speed. Grinds corn on cob (not husks), wheat, oats, barley, rye, kaffir and other grains. Solid casting frame bed is fitted with break pins to protect Mill from damage when bolts and stones get into the grain. Safety lever throws burrs apart instantly. **Heavy flywheel and ball bearing end thrust** reduce vibration. Sturdy, light running shaft operates on extra long babbitt bearings. Big, deep steel hopper prevents cobs from jumping out.

Strong Construction Entire machine is made of metal with strong, rigid angle steel frame. Chilled cast iron burrs are 8 inches diameter; drive shaft 1⅞ inches; flywheel, 16 inches diameter; weighs 65 pounds. Entire height, 42 inches; length, 52 inches. Shipping weight, 300 pounds.

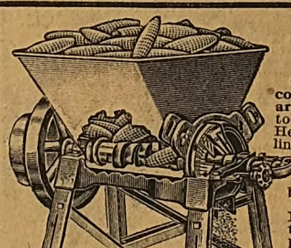
Corn and Cob Crusher and Feed Grinder



$23.85

Extra Burrs

Article Number	Size In.	Ship. Wt. Per Pair	Per Pair
287 C 3028	8	9 lbs.	**$1.40**
287 C 3030	10	15 lbs.	**1.70**

Grinds corn on cob (without husks), shelled corn, kaffir corn, millo maize, wheat, oats, barley, and other grains separate or mixed. Grinding puts your grain in the right condition to get the most nutriment out of it. Frame, extra heavy casting. Heavy angle steel legs with cross braces. Extra long bearings lined with long wearing babbitt. Large oil wells. Heavy steel main shaft, 1¼-inch on 8-inch No. 1 mill and 1½-inch on 10-inch No. 2 mill. Spiral, concave cob breakers of hard chilled iron secured to shaft by safety break pin. Work is started by breakers; burrs complete grinding.

No. 1 mill should be operated with from 4 to 7 horse power; No. 2 mill with 7 to 12 horse power. Speed, 400 to 700 revolutions per minute according to power. Capacity depends on the power, speed, kind of grain, its condition and fineness of grinding.

Prices quoted below include balance wheel, two sets of burrs and lag screws for fastening. If so ordered we will fit the 8-inch mill with 8 by 6-inch, or 12 by 6-inch pulley, and the 10-inch mill with 10 by 6-inch pulley for use with Fordson or other tractors. Grain and measure not included. **State numbers on old burrs.**

Cider Mills and Fruit Presses

Two-Tub Cider Mill

Make your cider with one of these big capacity easy running Mills. A toothed grinding disc serves as a flywheel which turned at a high rate of speed makes it easy to operate and actually grates and reduces the fruit to a pulp consistency, extracting every drop of juice. Grating adjustable to coarse or fine as desired.

287 C 6323—Cider Mill. Capac. 90 to 150 gals. per day. Height of frame, 32½ in. Diam. of tubs, outside 11½ inches, height 11 in. Weight, 140 pounds..... **$19.95**

287 C 6324—Large Hand Cider Mill. Capac. 120 to 210 gals. Height of frame, 36½ in. Diam. of tubs, outside 14½ in.; height, 12 in. Weight, 170 lbs.. **$23.85**

287 C 6325—Extra Pulley for either above mills. Shipping weight, 10 pounds..... **$1.25**

287 C 6325—Big Power Cider Mill. Capacity, 200 to 360 gallons per day. Height of frame, 44½ inches. Diameter of tubs, outside 17¾ inches; height, 15½ inches. With both crank and pulley. Shipping weight, 375 pounds..... **$34.85**
Shipped from Warehouse near Cleveland, O.

Single Tub Cider Mill

$14.95

Has the same general features as two-tub, except is smaller capacity and has one tub. Crushes apples, berries, grapes and all other kinds of fruit. Teeth on heavy geared flywheel disc quickly reduce fruit to pulp with easy turning. Simple long wearing parts instantly removed for cleaning. Grinding disc shown under mill. Large self-feed, non-clogging hopper. Hardwood frame, 37in. high. Diameter of tub outside, 14½ in.; height, 12 in. Capacity, 50 to 90 gallons a day. Ship. wt., 130 lbs.

287 C 6322.....**$14.95**
Shipped from Factory near Cleveland, O.

Fruit Press

$5.98

Strongly made of seasoned hardwood frame. Heavy bottom board and deep trough to prevent loss of juices. Heavy steel press screw, 1¼ in. Heavy cross head frame, 34 inches high. Tub, 9 in. high; dia., 10 in. Heavy slats riveted to strong steel bands withstand severe pressure. Ship. weight, 50 pounds.

287 C 6320..... **$5.98**
Ship. from Warehouse in Chicago or near Toledo, O.

Grape and Fruit Crusher

$4.95

Crushes grapes and berries, releasing all the fruit juices without breaking seeds. Hardwood hopper, 13 by 16 inches; 9 inches deep; natural finish. Holds ½ bushel level with the top. Use press below for extracting the fruit juice Ship. weight, 25 pounds.

287 C 6321..**$4.95**

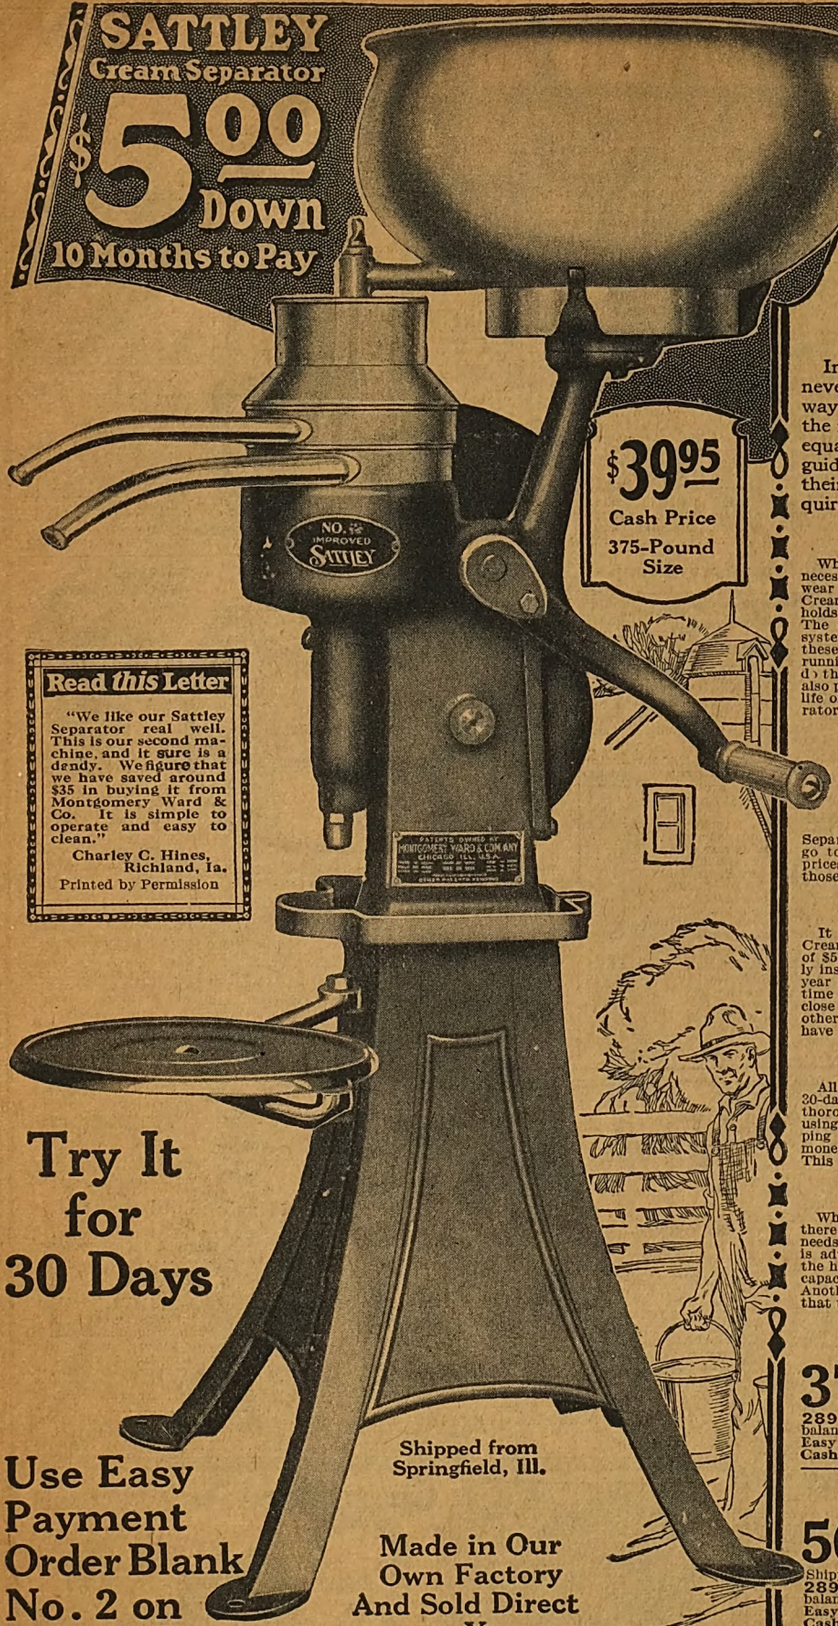
The Best Separators Ward's Ever Built

SATTLEY Cream Separator

$5.00 Down

10 Months to Pay



$39.95 Cash Price 375-Pound Size

Read *this* Letter

"We like our Sattley Separator real well. This is our second machine, and it sure is a dandy. We figure that we have saved around $35 in buying it from Montgomery Ward & Co. It is simple to operate and easy to clean."

Charley C. Hines,
Richland, Ia.

Shipped from Springfield, Ill.

Made in Our Own Factory And Sold Direct to You

As Near Perfection as Experts Can Make Them

Sold at the Lowest Prices Possible

In all the years we have been building high grade Cream Separators, we never before have been able to offer you a separator as nearly perfect in every way as the new 1925 SATTLEY. We feel no hesitation in saying that with the improvements in design made in our new 1925 models, the SATTLEY is equal in every way to the best separators made, regardless of price. Experts, guided by years of experience in building and operating separators, have put their very best efforts into this machine. This new SATTLEY fills every requirement. We believe it is positively the best separator value ever offered.

Made to Give Years of Service

When buying a cream separator it is just as necessary to consider the durability and long wear as the skimming qualities. The SATTLEY Cream Separator has a sturdy square base that holds it steady and prevents jarring or shaking. The clean cut gears and positive lubrication system reduce friction to a minimum and make these separators so smooth, quiet and light running that a child can operate them. Not only do these features make operation easy but they also prevent wear and tear and add years to the life of the separator. SATTLEY Cream Separator can be cleaned easily and thoroughly from the supply can down to the base. Because of the curved sides and bottom of the supply tank there are no sharp corners that are hard to clean; no corners nor crevices in the bowl and it can be quickly and easily removed from the driving spindle for cleaning; wide open base makes it easy to clean under the machine.

The splashproof Supply Can is low enough to be filled easily. Swinging shelf permits placing the cream can in any position. Speed indicator on the handle tells when the separator is being turned at correct speed. Thickness of the cream may be regulated by an adjustment screw.

Buy a Sattley and Save Money

To place such low prices on a separator of high quality is possible only because the SATTLEY is made in our own factory and is sold direct to you at factory prices. You pay no other profit and expenses. Before you buy a Cream Separator we suggest that you look elsewhere—go to the various dealers and compare their prices on machines of the same capacity with those of the Sattley. This will be prove to you that in buying SATTLEY Cream Separator you save from twenty to forty per cent of the usual price. Another saving in buying a SATTLEY is in ownership of a separator that gets all the butter fat from the milk. It has been proved that on many farms, where poorly constructed Cream Separators are used, there is a waste of as much as $25 worth of butter fat every month. You can be assured that the Sattley will get every bit of butter fat from the milk.

You Can Pay for It as You Use It

It is easy to buy and pay for a SATTLEY Cream Separator on our Easy Payment Plan of $5 down and the balance in 10 equal monthly installments. In this way you have nearly a year to pay for the machine and during that time it is making money for you by skimming close and saving that butter fat which would otherwise be wasted. A short time after you have sent in your order with the small down payment the separator will be in your possession; and not until you have tried it out for 30 days must you make another payment. Once a month after the 30-day trial send us another payment until the machine is paid for.

Fill out Easy Payment Order Blank No. 2 on Page 697 and send it to us with your deposit of $5.

Try It on Your Own Farm for 30 Days

All SATTLEY Cream Separators are sold on a 30-day trial. This means that, if you are not thoroughly satisfied with your machine after using it for 30 days, you can write us for shipping instructions and we will refund all your money, including freight charges both ways. This offer is proof of our confidence in the SATTLEY Cream Separator and we want you to see for yourself how easily and thoroughly it operates. Whether you pay on time or for cash you have this trial privilege. Also remember that Ward's regular guarantee protects you from defects in material or workmanship indefinitely.

There's a Sattley for Every Size Farm

Whether you have only one cow or thirty cows there is a SATTLEY Cream Separator to fit your needs. However, when buying any separator it is advisable to anticipate any enlargement of the herd and order a machine that is of ample capacity to handle your future requirements. Another advantage in buying the larger sizes is that they skim the milk faster. You will appreciate this feature especially during planting or harvesting when every minute counts. Frame is painted red. Every SATTLEY Cream Separator is furnished complete with bowl brush, tinware brush, disc washing rack, all purpose wrench, cream screw wrench, small can of oil, two rubber bowl rings, four lag screws and Book of Instructions.

No. 15—Skims 180 Quarts of Milk Per Hour

375-lb. For dairies of from one to five cows. Skims at the rate of three quarts of milk a minute or a 12-quart pail every four minutes. Speed of crank, 60 revolutions a minute. Shipping weight, 160 pounds. **$44.90**

289 C 4615—No. 15. Capacity, 375 pounds per hour. $5.00 with order and balance in ten easy monthly payments of $3.99 each.

Read Page 328

Lubrication

SATTLEY oiling system is positive and automatic. As the gears revolve, oil is thrown in a fine mist or spray to all bearings and working parts of the machine. There are no oil cups to fill or adjust and the oil is used over and over. Perfect lubrication is assured.

Crank

Near the wood grip on the crank handle is a sliding click regulator which stops clicking when the proper crank speed is reached.

Loose Discs Easy to Clean

The SATTLEY full capacity bowl is easily taken apart and put together. No more parts than are necessary for clean skimming. Each part is constructed of good material and heavily tinned to prevent rust. A special bowl holder is included which can be screwed to a convenient table or bench. This holds the bowl securely. One turn with the wrench loosens the bowl nut for removing. All parts easy to wash with our improved disc washer, which enables you to wash each disc separately. When rinsing or drying, this holder makes it easy to handle all discs as one unit.

Bowl and Spindle

The spindle enters the bowl to just the right height and spins it like a top. The bowl is, therefore, kept in perfect balance. This practically eliminates friction at the neck. The lower end of the spindle is fitted with a case-hardened steel point resting on a self-centering ball bearing which rotates on a steel disc cushioned on felt. This keeps the machine in perfect balance and makes the machine run easy. Bowl can be raised or lowered at will.

Skims More Milk in Less Time

These Cream Separators are the same as described on opposite page, except they are driven by either an electric motor, gas engine or line shaft. While a separator of this type is skimming the milk, you can be devoting your time to other work that demands attention. With the hardest work of turning done by the power unit, any woman or child can handle the machine. Power or electric drive separators insure a constant, uniform speed that is necessary for the best possible skimming.

Electric Motor Drive

It makes no difference what kind of current you have we can furnish a SATTLEY Cream Separator with a suitable motor. Our heavy duty, ¼ horse power motor, splash-proof and of standard make, insures uniform speed and cool running. It picks up speed gradually and drives the separator at a continuous, smooth, even speed. Connecting cord, 10 feet long with plug included.

Because of the free, easy motion of SATTLEY Cream Separators, only a small load is on the motor and, therefore, very little electricity is consumed. To operate one of the large size separators by electricity does not cost much more than an ordinary electric light bulb burning for the same length of time. Should anything happen to your electric current, the SATTLEY motor driven separator can be hand operated by simply slipping the belt off the pulley and attaching the crank which is included. Ward's regular guarantee and 30-day trial applies on these separators just the same as on the hand operated machines. By taking advantage of our Easy Payment Plan you can pay for the machine as you use it.

State Voltage and Kind of Current

Be sure to state the voltage and cycles of your electric current and whether it is direct or alternating. Also, if it is from a 32-volt or 110-volt farm lighting plant, or if it is 110-volt or 220-volt current from a power station. This information can usually be found on your electric meter.

For estimated total freight charges, see Page 674.

Engine Drive

The SATTLEY Power Drive Cream Separator can be operated by either gas engine or line shaft. This type of drive gives a smooth, even speed which is the most satisfactory and efficient method of operating a separator. The tight and loose drive pulley is a great convenience when the separator is driven from a line shaft which supplies power for other machinery and also when the separator is driven by a gasoline engine placed on the floor. The belt does not have to be removed if you want to operate the separator by hand.

If you already have a small gasoline engine that is being used for other purposes, you can add to its usefulness by having it operate one of these separators. Our 1½ horse power engine, No. 289 C 5044 shown on Page 668, is designed particularly for this class of work and would be a profitable investment along with one of these engine-drive cream separators.

Every Separator Is Tested

Like the SATTLEY Hand Separator, each machine is thoroughly tested at the factory for skimming efficiency and durability before it is packed for shipment. All SATTLEY Cream Separators, whether hand, electric or engine power drive, are made in our own factory where we can supervise their construction in every detail. A thorough examination and test of actual performance on your farm will prove to you that the SATTLEY Cream Separator is of fine quality throughout and that quality has not been sacrificed to make a low price. You run no risk in buying one of these machines, for Ward's regular guarantee of Satisfaction or Your Money Back, together with the 30-day trial offer, gives you absolute protection. The terms of our Easy Payment Plan permit you to pay while using it.

For Electric Company Power

SATTLEY Bench Separators

$19.95 Cash Only

$29.85 Cash Only

The bench type Separator is made for family use, restaurants and small dairies. It enables the farmer who has only a small herd to get the utmost from his milk production and is priced so low that no farmer can afford to be without one. Although smaller in size, it operates on the same principle and just as efficiently as our large separators. Equipment includes cleaning brushes and book of instructions.

150-Pound Size

Skims 18 quarts or 37 pounds of milk in 15 minutes, which is sufficient for dairies of from 1 to 3 cows. The bowl is self centering and self balancing—absolutely no vibration. Automatic lubrication. Shipping weight, 50 pounds. Can be shipped by parcel post.

489 C 4609 ..... $19.95

300-Pound Size

Skims 36 quarts or 75 pounds of milk in fifteen minutes which is sufficient capacity for dairies of from 1 to 7 cows. It has a seamless supply tank of non-splash design. Equipment and mechanical features are exactly the same as on the large SATTLEY Cream Separators. This machine actually will skim 36 gallons of milk each hour. Shipping weight, 70 pounds.

189 C 4610 ..... $29.85

The Blue Ribbon Electric Milker

Increases Milk Production

$170.00 Cash Only

The Blue Ribbon Electric Milker represents the latest development and improvements in milkers and it is priced so low that every farmer who milks 8 or more cows can hardly afford to be without one. It runs by electricity, has no complicated parts, bulky pumps, cumbersome pipe lines nor exposed moving parts. Will operate on electricity supplied from either a home lighting plant or central station line. Actual weight, only 50 pounds. The entire milking plant is on the pail cover and is easily carried. Every part is accessible for oiling or adjustment. The uniform pulsation and calflike stimulating action of the teat cups increases milk production.

Will Soon Pay for Itself

By increasing milk production and decreasing labor costs this machine will soon pay for itself. Each machine is equipped with 10 feet of connecting wire and a 3-way plug. Attaches to electric light socket. The soft, pliable rubber lip at the top exerts a natural massaging action at all times and in all weathers. The motor is a ¼ horse power. Eight cows can be milked for about 6 cents a day. **Be sure to state whether you have alternating or direct current and give voltage. If alternating current, also state number of cycles. This can usually be found on your electric light meter.** Shipping weight, 70 pounds.

289 C 4600 ..... $170.00

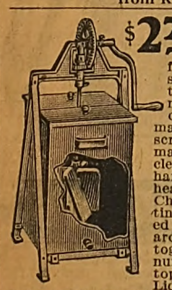
Steel Churn



$2.75

One of the best and handiest Churns for small churnings. The scientific construction of the dasher and the square metal container produce quick results in butter making. One turn of thumbscrew releases dasher so it may be removed quickly for cleaning. Dasher made of hardwood and attached to heavily tinned steel rod. Churn case is steel, triple tinned inside and neatly painted outside. Legs and standards all steel, firmly riveted together and coated aluminum finish. Gear, wheels and top castings neatly fitted. Lids select hard wood, natural finish. Shipping weights: 9, 13, 15 and 19 pounds. **Can be shipped by parcel post.**

Article Number	Cap.	Churns	Each

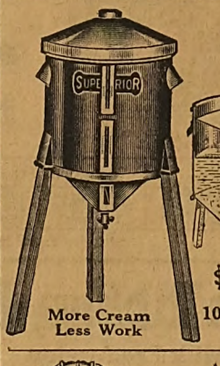
487 C 4315 . . . 75¢

Superior Cream Separator



More Cream Less Work

$3.39

10-Gallon Size

Get more cream from your milk than by the old skimming process. Our Superior Cream Separator separates cream from milk in three to four hours. Operated by adding an equal quantity of cold water or ice to the milk. Milk should be strained into the separator as quickly as possible after milking, while it is warm with natural animal heat. Cold water is then added; as the water mixes with the milk, the cream separates and rises to the top. You always have sweet, diluted milk which is a better stock food than sour milk.

The deep cone bottom with faucet permits drawing off milk without disturbing cream. Made of extra heavy tin, lock seamed and soldered; hardwood legs. Average height, 43 inches. Tank enameled blue outside and decorated. Directions included.

Prices include tank with gauge glasses, reversible cover with strainer and faucet. **The 10-gallon size can be shipped by parcel post.**

Article Number	Capacity	Ship. Weight	Each
487 C 4250	10 gallon	13 pounds	$3.39
187 C 4251	14 gallon	17 pounds	4.20

$7.65 15-Gallon Size

Popular Feed Cooker and Kettle

A Favorite for Many Years

EVERY farmer and stockman knows the advantages in feeding cooked food. This heavy, sturdy, low priced Feed Cooker is made in seven sizes ranging from 15-gallon to 75-gallon capacity. Besides its uses as a feed cooker it will be found very handy for rendering lard, scalding hogs, making soap or washing clothes.

Will Last for Years

The smoothly finished cast iron kettle is full capacity and has an extra thick bottom. Kettle is removable and easily cleaned. Jacket is one sheet of 16-gauge steel plate with steel reinforcing band at bottom. Bottom is open—build your fire right on the ground. Has handles for carrying. Close fitting fire door and frame of cast iron with opening 10½ inches by 14 inches—large enough to take good size pieces of fuel. Cast iron deflector forces the flame around the entire bottom of kettle. Uses ordinary 6-inch stove pipe. Coal grates, wood cover, smoke pipe, elbow and damper are sold separately and are listed below.

Parts Sold Separately

Prices and shipping weights of Kettles and Jackets only are listed below.

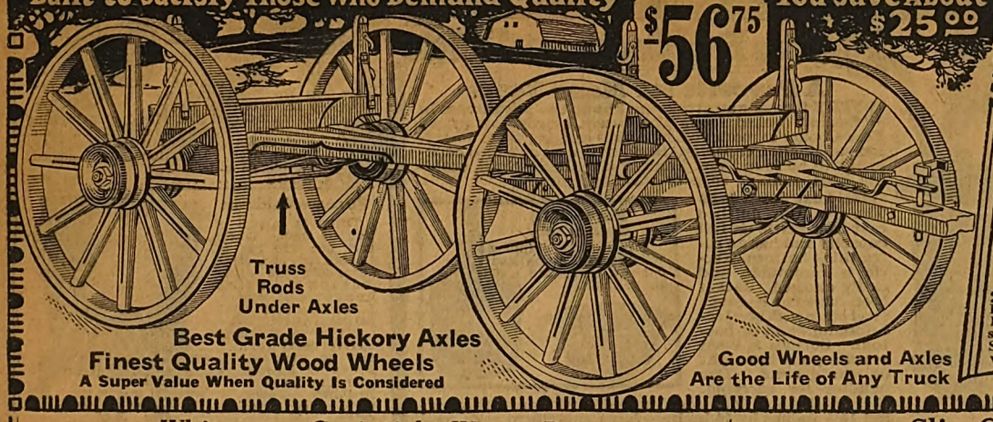
Whitewater Wood Wheel Truck—None Better Made

Built to Satisfy Those Who Demand Quality

$56.75 — **You Save About $25.00**



Best Grade Hickory Axles
Finest Quality Wood Wheels
A Super Value When Quality Is Considered

Good Wheels and Axles Are the Life of Any Truck

Built for a Lifetime of Service

A WELL BUILT TRUCK designed to meet all the requirements of general farm and road use. It is constructed throughout of good quality material, and is high grade in every way.

Read These Points of Superiority

Thoroughly seasoned extra heavy hickory axles, best quality wood wheels with full shoulders at both rim and hub; tires are sweated on hot forcing spokes, hubs and rims into a solid unit. Extra heavy, well proportioned hubs; angle steel hounds; two-ringed bolster stakes; extra heavy bolsters and sandboard selected hardwood reaches and hounds.

Specifications

Gear—Round angle steel front hound with drop tongue. All wood parts of select hardwood. **Bolsters**—38 inches between stakes. **Skeins**—3¼ by 10 inches; cast, standard pattern. **Wheels**—Height, 36 and 42 inches. Oak hubs, spokes and rims. **Tires**—3 by ⅜ inches. **Track**—Narrow, 4 feet 8 inches center to center of tires. **Painting**—Gear and wheels painted orange; striped. Capacity, 4000 pounds.

Shipping weight about 675 pounds.

287 C 7604—With oak tongue..... $56.75

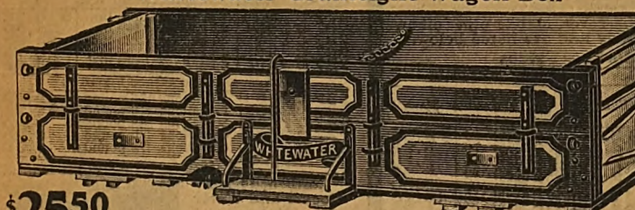
Shipped from Factories near Evansville, Ind., or near Peoria, Ill., whichever is nearest you. Allow 6 to 8 days for shipment of wide track

Whitewater Graintight Wagon Box



$25.50

A strictly first class Wagon Box. This quality, construction, painting, equipment and finish is found only in high grade wagon boxes. As usual our prices are exceptionally low.

The floor of this box is seasoned hard white pine, tongued and grooved; double bottom over front and rear bolster. Seven hardwood beams support floor, and wear plates protect sides from bolster stakes. Sides made of tough, thoroughly seasoned gumwood entirely free from knots.

End gate is patented Comstock type—can be removed without releasing rods. Tops of sides and ends are ironed. Top box rod fastener on outside; anti-spreader chain on inside. Painted dark deep green, attractively ornamented, then varnished. Size, 10½ feet long by 26 or 28 inches deep. One of these boxes, together with a steel or wood wheel truck, will make you an excellent low priced farm wagon for your lighter hauling jobs. For estimated total freight charges, see information at right. Shipping weight, about 350 pounds.

287 C 7675—26 in. deep, 38 in. wide..	**$25.50**

For Spring Wagon Seat, high back, add	**5.95**

Shipped from Factories near Evansville, Ind., or near Peoria, Ill., whichever is nearest you

Slip-On Truck Bodies for Fords

$5.65

Every farmer and dairyman who has a Ford runabout should have one of our Slip-on Bodies. They are useful for so many things and save the expense of a truck. They can be used for hauling cream and milk, vegetables, and even small stock if you construct a rack to fit them. They are very easily changed. Simply slip off the turtle back and slip on the body, bolting it in place. Not necessary to drill any holes in car. You can use your Ford for double duty—as a light truck in the daytime and a pleasure car at night.

A very substantial Body. Made of 1-inch dressed hard pine; painted one coat black; smooth bottom supported on three bolsters. Drop end gate with hinges and hooks. Heavy bolster braces. Well braced 3½-inch flare boards. Size of box 34 by 50 inches; 7 inches deep. This body will give satisfactory service where appearance in not important. For a handsomely finished job we recommend our number 287 C 7159. Shipped taken apart to save you freight. Shipping weight, 110 pounds.

287 C 7158..... **$5.65**

$7.95

This is an especially well constructed and attractive Ford truck body. It has a very high glossy finish and gives a rich substantial appearance to the outfit when mounted. Body is built of 1-inch hardwood, dressed and painted a beautiful glossy black. Size, outside, 34 by 60 inches; 8 inches deep inside. Flareboards 5 inches wide and supported by three extra strong steel braces. End gate is iron bound and has heavy strap hinges. Shipped taken apart to save you freight. shipping weight, 125 pounds.

287 C 7159..... **$7.95**

Shipped from Factories near St. Louis, Mo., or near South Bend, Ind., whichever is nearest you

The Whitewater Leads Them All

No Better Metal Wheel Truck Value Anywhere

Easy to Load
Built for Heavy Work

HIGH grade, strongly built metal wheel Truck. Regular farm wagon style with full drop tongue. Sturdily built to stand the strain of general farm, field and road use. Strongly reinforced at all points of unusual stress.

Every Detail an Evidence of Quality

Select quality hickory axles, reinforced with heavy steel truss rods. Easy running, strong, low steel wheels with 4½-inch tires; bent angle steel hounds; built low for easy loading and unloading; two-ringed bolster stakes; extra heavy hardwood bolsters, sandboards and undergearing. We specially recommend this truck as one of our biggest values and exceptionally low at the price we are offering it.

Specifications

Gear—Round angle steel front hound with drop tongue. Sandboards, bolsters and other wood parts of select hardwood. Heavy truss rods under axles. Skeins—3¼ by 10 inches; cast, standard pattern. Wheels—Black; 28-inch front, 32-inch rear. Tires—4 by ⅜ inches, grooved. Track—Narrow. 4 feet 8 inches. Painting—Gears, red. Capacity—4000 pounds. Ship. weight, about 550 pounds. Estimated total freight charges: 150 miles, $4.68; 300 miles, $6.33; 500 miles, $6.93.

287 C 7608—With oak tongue **$39.95**

For hickory doubletree set, 2 by 4 by 48-inch evener, 2½ by 36-inch singletrees, 2¾ by 40-inch neckyoke, add $4.25

For wide track truck, add 2.00

Shipped from Factories near Evansville, Ind., or near Peoria, Ill., whichever is nearest you. Allow 5 to 8 days for shipment of wide track trucks.

$39.95

Sarven Pattern Buggy and Light Wagon Wheels

Extra grade Wheels—not common repair wheels. Will more than repay their cost by the extra service you will receive. Complete with round edge tires, set ready for use. Made of tough, close grained hickory. Rims are screwed on side of each spoke to prevent splitting; extended malleable iron flange; tires bolted between spokes. We can furnish any standard size from 34 to 48 inches high. Usually rear wheels are ordered 4 inches higher than front wheels.

IMPORTANT! Read this before ordering wheels.

Sarven pattern wheels are furnished in the white only; oil finished—not painted or varnished. Wheels are without boxes, and we do not set axle boxes in hubs. **Be sure to state height desired and length and outside diameter of boxing.** Two wheels may be purchased at half the price of four wheels. **Can be shipped by freight or express only.**

Note: We can furnish heavier sizes suitable for spring delivery wagons and drays. **Write for prices.**

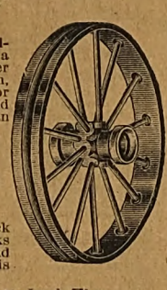
Durabilt Metal Wheels

For Farm Wagons and Trucks

Make that old wagon or truck almost as good as new by putting on a set of Durabilt Wheels. Number and size of spokes, also hub pattern, vary according to size of skein or axle. Much more convenient and better adapted for some uses than wood wheels.

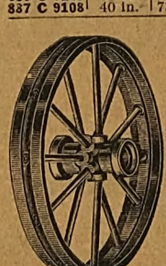


Regular Strength Durabilt Metal Wheels Capacity, 4000 Pounds Per Set of 4

These Wheels with ⅜-inch thick tires give excellent wear on trucks used in the barnyard, in fields and on dirt roads. We recommend this wheel for general farm use.

Prices Per Wheel—With ⅜-Inch Tires

Article Number	Height	Weight Per Wheel	Tire 3x⅜	Tire 4x⅜	Tire 5x⅜
887 C 9100	24 in.	47 to 55 lbs.	$3.50	$3.80	$4.35
887 C 9101	26 in.	52 to 64 lbs.	3.85	4.35	4.98
887 C 9102	28 in.	53 to 71 lbs.	4.25	4.65	5.35
887 C 9103	30 in.	54 to 74 lbs.	4.45	5.15	5.80
887 C 9104	32 in.	57 to 80 lbs.	4.85	5.40	6.35
887 C 9105	34 in.	64 to 84 lbs.	5.25	5.75	6.65
887 C 9106	36 in.	66 to 90 lbs.	5.65	6.25	7.15
887 C 9107	38 in.	70 to 93 lbs.	5.95	6.65	7.50
887 C 9108	40 in.	73 to 98 lbs.	6.45	7.15	8.15



Grooved tires are stronger and are shipped unless plain tires are ordered. Spokes are countersunk through entire thickness of tire and grooved tires protect heads from wear. For shipment allow 10 to 15 days.

Extra Strong Durabilt Metal Wheels Capacity, 5000 Pounds Per Set of 4

Capacity 5000 pounds per set of four. For use on the hard pavement, in hilly country, or rough stone or gravel roads; or where heavy loads are hauled continuously and in the larger diameters we recommend these extra heavy wheels. They have ½-inch thick tires and will give lasting service.

Prices Per Wheel—With ½-Inch Tires

Article Number	Height	Weight Per Wheel, Lbs.	Tire 3x½	Tire 4x½	Tire 5x½
887 C 9125	24 in.	55 to 74	$4.65	$5.25	$5.95
887 C 9126	26 in.	60 to 82	5.15	5.75	6.50
887 C 9127	28 in.	68 to 90	5.50	6.25	6.95

887 C 9133	40 in.	101 to 135	7.95	9.25	10.75

Shipped from Factory near Peoria, Ill.

Metal Wheels

With the picture at the left as a guide, measure your old skeins and send us the measurements of each skein in this form, filling in the exact measurements.

A....inches
B....inches
C....inches
D....inches
E....inches
F....inches

Measure the skein crosswise—**not from top to bottom**, as old skeins are often somewhat worn on the under side. Give exact sizes—we make proper allowance for play and will furnish wheels that will properly fit skeins if measurements are correct.

Measure skeins only—not your old wheels. Send us measurements for each skein to be fitted as one may be worn more than the others.

Wheels to fit standard tapered wagon axles from 2½ by 8 inches to 3½ by 11 inches, and wheels for straight axles from 2 by 8 inches to 3 by 11 inches are regular stock. Wheels with special hubs, smaller or larger than above, also can be furnished with slight delay at an additional cost of 75¢ per wheel. If you have no calipers you can cut pieces of cardboard as shown at right to find size of parts to be measured.

General Ordering Instructions on Page 329

It Is Easy to Order from Ward's

Our Special Low Priced Wagon Box $19.95

A strong, plain and serviceable Box. Made from good grade mill run lumber. While not select material as in our higher priced box, the material is sound and solid and will render long and efficient service.

Sides and ends are gumwood. Bottoms are long leaf yellow pine, tongued and grooved. Painted dark green, no striping. Comstock end gate. Side box fasteners. Anti-spreader chain. One side brace on either side; no footboards. Tops of sides and ends ironed. Grain cleats extra. Size, 10½ feet by 26 inches deep. Shipping weight, 320 pounds. **Estimated total freight charges: For 150 miles, $2.15; for 300 miles, $2.81; for 500 miles, $4.**

287 C 7689—For bolsters 38 inches between stakes **$19.95**

287 C 7690—For bolsters 42 inches between stakes **$21.95**

Stock Tonics

GLAUBER SALT

100-lb. Bag $1.98

A Mild Laxative

Glauber Salt (Sodium Sulphate) is one of the most effective stock tonics. Acts as an eliminant. Assists nature in keeping the testinal tract active and healthy. Can be used with perfect safety at any time and you will find it very satisfactory. Ward's Glauber Salt is a clear white, not the ordinary commercial grade with yellow color. Our prices are always low.

453 C 203—25-pound bag $ .89
253 C 204—100-pound bag 1.98
253 C 211—350-pound barrel, shipping weight, 370 pounds $6.40

Shipped from Factory in Chicago, Cleveland or Cincinnati, whichever is nearest you

Healthy Stock Means Greater Profits

Ward's Mineral Feeds and Stock Tonics build up general health conditions by supplying elements not found in regular feeds. This means more rapid increase in weight, and, equally important, reduces the amount of feed required and therefore the cost of feeding.

Ward's prices are low because we buy directly from the sources of production.

Our warehouses are at convenient shipping points and as we ship from the one nearest you, you save on the freight charges.

Buying in quantities you save more both on purchase price and freight charges.

POWDERED SULPHUR

100-lb. Bag $2.45

A Splendid Blood Tonic

Building healthy blood in your livestock is one of the best ways to increase your profits. Sulphur, an effective blood builder and purifier, is used almost universally by successful stock raisers. Makes healthy blood by acting indirectly on secretory and excretory organs. Sulphur should be mixed with all mineral mixtures, and may be used with any kind of feed. If used consistently will increase your profits by making stronger healthier stock. The large purchases we make enable us to give you this low price.

453 C 445—25-pound bag .....97¢
253 C 444—100-pound bag ..... $2.

Shipped from Chicago, Cleveland, Cincinnati or St. Lou whichever is nearest you

Ward's Mineral Mixtures

MINERALIZED TANKAGE

100-lb. Bag $3.65

Shorter Feeding Periods and Quicker Markets

A mixture that will assist nature in building larger frame and muscle. Contains meat tankage and complex mixture rich in protein. Ordinary grain and tankage lack the mineral elements so essential in developing healthy stock.

Ward's Mineralized Tankage saves feed, increases the weight and supplies the necessary minerals. To obtain bes results place mixture in a self feeder where stock will have ready access to it at all times.

253 C 7080—Per 100-pound bag $ 3.65
253 C 7081—Five 100-pound bags 17.50
253 C 7082—Ten 100-pound bags 33.25
253 C 7083—Twenty 100-lb. bags 65.00

Shipped from Factory in Chicago

WARD'S MINERAL MIXTURE

$1.75 100 Pound Bag

Formula Per Ton

Acid Phosphate	800 lbs.
Wood Ashes	200 lbs.
Pulverized Limestone	852 lbs.
Salt	100 lbs.
Epsom Salt	40 lbs.
Foenugreek	8 lbs.
Total	2000 lbs.

Our Own Formula

THE ingredients of Ward's Mineral Mixture are based on results of scientific tests and also the practical experience of stockmen who use mineral mixtures regularly. It contains no drugs, medicines nor filler. A good palatable mixture, and, because of the correct balance of minerals, the whole body—bone, flesh, blood, muscle, hoofs and hair—will show prompt improvement.

Contains What Ordinary Food Lacks

Grains, roots or roughage do not contain the calcium, phosphorous, iodine, sodium chloride and other chemicals that stock require. All of these elements are contained in Ward's Mineral Mixture. It has been proved that stock which is fed this mixture eats less corn and other grains; has a shorter feeding period; earns the higher prices of early markets, and is far less subject to disease. Best results in feeding Ward's Mineral Mixture are obtained by placing it in a self feeder where the stock can feed upon it as much and as often as required.

Costs Less Than to Make It Yourself

These minerals are bought by us in carload lots and the proper portions thoroughly mixed by machinery. By handling on this basis, we buy at the lowest prices and mix in the most economical way. Our saving is your saving. Ward's mixture already prepared actually costs you less than the ingredients would if bought separately.

These Low Prices Save You Money

DAIRY MINERALS

100-lb. Bag $2.85

Increases Quality and Quantity of Milk

This Mixture has been carefully compounded to increase production and quality of milk. Contains sodium chloride calcium carbonate, bone black, potassium chloride, or commercial kainite or wood ash, sulphur, glauber salt, epsom salt, copperas, potassium iodide, and red venetian, properly proportioned. To obtain best results, place the mixture in a self feeder where the stock will have access to it at all times.

COMPLEX MIXTURE

100-lb. Bag $2.85

More Benefits From Food

Contains spent bone black, sodium chloride, ground limestone, sulphur, potassium chloride, epsom salt, glauber salt, copperas, magnesium sulphate, sodium silicate, potassium aluminum sulphate and potassium iodide. It supplies the necessary minerals for bone, flesh, blood and muscle, producing more rapid growth. To obtain best results place mixture in a self feeder where the stock will have access to it at all times.

253 C 7084—Per 100-pound bag. $ 2.85

Shipped from Factory in Chicago

IOWA SIMPLE MIXTURE

Rounds Out Rations

100-lb. Bag $1.89

Bone Builder

Thorough tests by stockmen and agricultural stations have proved that it shortens the fattening period; that it stops wood chewing and dirt eating; that by rounding out the ration, it reduces the amount of ordinary feeds required.

Contains high calcium limestone, sodium chloride, spent bone black and potassium iodide.

Best results are obtained when mixture is placed in a self feeder, where stock has access to it at all times. Our prices are low. We have put only high quality ingredients in the mixture.

253 C 7210—100-pound bag ..... $ 1.89
253 C 7211—Five 100-pound bags ... 8.98

35,000 U.S. Government Blankets

Priced Below Present Cost of Making

WE couldn't possibly offer you a Stable Blanket of such splendid quality at this low price if they had to be manufactured for us today. It is only because the Government had a surplus which we bought at a sacrifice, that we are able to give you this unusual value. We could easily sell every blanket for much more than we are asking. That isn't Ward's policy, however. When we get a bargain, it is your bargain. All we ask is our usual small, fair profit. When these blankets are gone, we doubt if you ever again will see such a remarkable bargain anywhere. It will pay you to anticipate your future needs.

All First Quality New Blankets—In Perfect Condition

Price alone does not make a bargain. There must be quality too. Before buying these blankets we inspected them carefully. They are all clean and perfect in every way.

Extra Heavy. Made of extra heavy waterproof grayish brown duck. Lined throughout with a part wool heavy woven fabric.

Fit snugly. Two heavy cord surcingles with clasps in front hold blanket firmly in place. Shaped to fit the horse.

Made to Last. Blanket strongly stitched and reinforced along the edges and at all strain points. They are full standard length, 76 inches.

Materials of the same quality used in these blankets would cost us not less than $3.80 per blanket if purchased today. Labor and other charges would bring the cost of each blanket up to about $5. Add to this a fair margin of profit, and you will readily see that the price we are asking means that you will save several dollars on your purchases. Shipping weight, each, 10 pounds.

Order Several At This Price While They Last

95 C 4000—Each.....**$2.25**

Hummer Special $1.98

Special Bargain in Good Quality Blankets

A new Blanket this season which will interest those who are looking for good value at exceptionally low prices. Blue mixed ground with wide fancy striped border. Carefully woven from good materials and contains about 25 per cent wool. Shipping weight, each, 4½ to 6 pounds.

$4.50 Storm Prince

Fine Quality—Heavy Weight—Large Size

For the past ten years these Blankets have been among our most popular selling blankets. The body is of alternate dark and light gray bars with broad fancy striped border. It is woven on heavy hard twisted warp and the fabric is warm, fluffy and strong with the same finish as our highest priced blankets. Contains about 40 per cent wool. The buckle and strap front fasteners are securely sewed on with heavy 3½ by 9-inch duck under stay. The quality of this standard blanket will please you. It is the best horse blanket we have ever seen at a price so low. Order one now for each of your horses. Size, 84 inches by 90 inches. Shipping weight, each, about 9 pounds.

95 C 4564—Each.....**$4.50**

$5.25 Stormy Knight

A Beautiful Plaid at a Low Price

The rich blending of shaded orange and yellow in the wide border and body stripe on a ground of dark and light gray plaid give it a very attractive appearance. The material is of splendid quality, very warm and strong and will stand the hardest wear. Has buckle and strap front fastener with 3½ by 9-inch heavy duck under stay strongly stitched; will not pull out. Blanket stitch binding on lower edges. This handsome Blanket is an unusual value. Contains at least 40 per cent wool. All Ward's blankets are sold under our guarantee of Satisfaction or Money Back. Shipping weight, each, about 7 and 8 pounds.

95 C 4579—Size, 80 inches by 84 inches. Each.....**$5.25**
95 C 4580—Size, 84 inches by 90 inches. Each..... **6.25**

$6.75 Harvester Plaid

Ward's Finest Quality Blanket

Our best quality Blanket and we cannot recommend it too highly. We have been selling it every year for about ten years and it always has given exceptional satisfaction. Carefully woven and contains over 40 per cent wool. Made in a pretty plaid with striped border of harmonizing colors in brown, gold and black. The rich colors give it a very handsome appearance. Heavy buckle and strap front fasteners, with heavy 3½ by 9-inch duck under stay giving it extra strength at these points. Edges blanket stitch bound. It will give your horse all the necessary protection from cold winds and storms. You will find a blanket like this an absolute necessity many days during the winter. Extra large size, 84 by 90 inches. Shipping weight, each, 8 pounds.

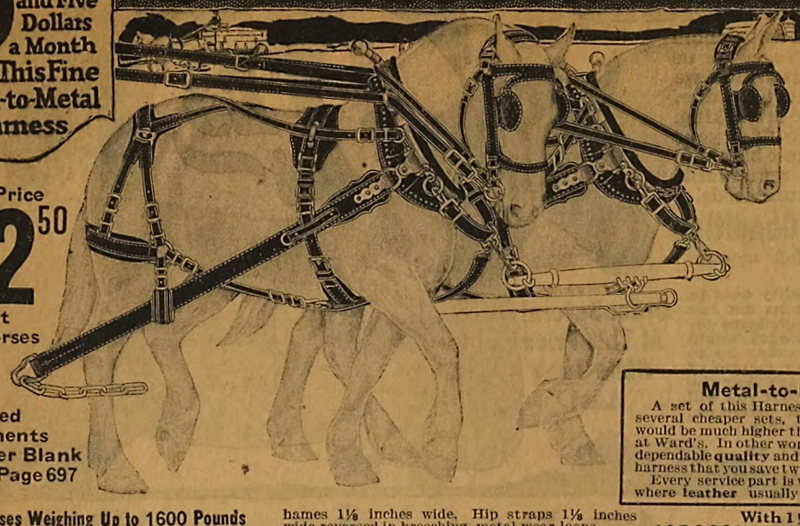
The Best Wearing Harness Ever Sold at These Low Prices and Easy Terms

Only $5.00 Down and Five Dollars a Month Buys This Fine Metal-to-Metal Harness

Cash Price $62.50 A Set For 2 Horses



If Ordered on Payments Use Order Blank No. 2 on Page 697

Ward's Metal-to-Metal Harness

Costs No More, But Outwears Ordinary Harness

NOWHERE else can you buy Metal-to-Metal Harness of this high quality at a price so low and with the added advantage of Easy Payment terms. The metal-to-metal feature consists of specially constructed metal wear loops used at those points of strain where leather usually rubs against metal. This construction eliminates friction and tends to distribute the strain over entire harness. The crossed back strap construction is easier on your horses—the heavy fold across the rump takes considerable strain from the breeching when your team is traveling down hill or backing up. The double adjustment on hip straps and back straps allows you to change the position of either the breeching or the rump safe.

Metal-to-Metal Is Stronger Than Any Other of Same Quality

A set of this Harness will outpull and outwear several cheaper sets, the combined cost of which would be much higher than the price of this good set at Ward's. In other words, there is so much honest, dependable **quality** and so many **years** of use in this harness that you save two ways—service and first cost.

Every service part is wide, strong, extra heavy; and where **leather** usually rubs against metal in the ordinary harness, we have put wear loops of **metal**. The best of workmanship and material and the greatest care have been used in designing, cutting, shaping, stitching and finishing and in selecting the hardware.

This harness is unrivaled for smart appearance and genuine built in quality. Japanned (black) finish hardware and well dressed black straps make it every bit as good looking as it is long lasting.

For Horses Weighing Up to 1600 Pounds

Bridles. Equipped with our popular 1½-inch easily adjusted ring crown with 1-inch layer. Have 1-inch cheeks, double and stitched; 1-inch double and stitched nosebands; double and stitched combination front and winker braces; sensible cup shaped blinds; ¾-inch bit strap; ⅝-inch throat latch; ⅞-inch flat side reins.

Lines. Standard 1⅛-inch by 18 feet. Riveted, double and stitched about 30 inches in center; security metal wear loops, flat spring snaps.

Traces. Heavy three-ply; 6 feet long (1½-inch two-row stitched; 1¾ and 2-inch, three-row stitched). Wide scalloped safe; extra 6-link heel chain sewed in; 1½-inch belly band billets.

Pads. Swell shaped, harness leather 5 inches wide, double and stitched with 1½-inch layer. Have 1½-inch market straps; metal wear loops.

Back and Hips. Heavy crossed back straps to hames 1⅛ inches wide. Hip straps 1⅛ inches wide reversed in breeching, metal wear loops.

Breeching. Is 2-inch folded with 1¼-inch layer; 1½-inch side straps; 1-inch lazy straps with 2-inch liner. Equipped with metal wear loops. 1⅛-inch folded belly bands with 1¼-inch layer. Have roller buckles and leather loops.

Breast Straps. Are 1½-inch, and 1½-inch martingales stitched to combination metal roller snaps. Metal wear loops.

Spreaders. Are ¾-inch with Adams wood rollers.

Hames. U. S. Hame Co. new improved "Red Band," Japanned (black) tubular steel; with 1⅜-inch solid brass ball tops. 1-inch hame straps.

Trimming. Japanned (black) finish, patent buckles.

For estimated total freight charges, see information on opposite page. Shipping weight, per set, 85 pounds.

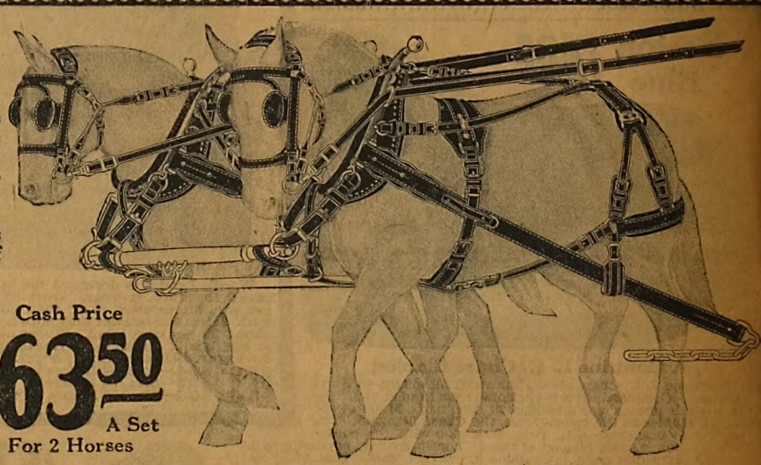
Only $5.00 Down and Five Dollars a Month Buys This Fine Harness

Ward's Best Harness

High Quality—Heavy Weight Leather

Only $5 puts this fine quality, heavy weight Harness on your horses. And you may complete your payments by paying only five dollars a month. Ward's has adopted this plan of selling harness on Easy Payments for two reasons. First, so that we can serve more customers; naturally, our increased production brings prices down. Second, so no one need buy inferior quality harness, as this plan brings the finest quality harness within the reach of everyone.



We Have Made This All Leather Harness Extra Strong for Extra Service

This fine Work Harness is unusually strong and serviceable, and has an appearance that you would expect to find only in a much higher priced harness. Every buckle, strap, loop and mounting is of high quality and the best workmanship. The traces have solid leather ends for bolt hames. The straps are wider and heavier than in most harness. Only leather made from native hides is used in this harness throughout.

Nowhere in any of Ward's harness will you find a strap of soft flakey leather which is commonly called "stag" leather (bull hide). Pure linen thread, well waxed, is used in stitching. Our special buckles and sewed loops insure longer wear. It is reinforced and strengthened in those places where the strain is greatest. This set will give unusually long service. You can buy harness at Ward's without risk because you must be satisfied or we will refund your money.

We list this harness in three styles and three sizes of traces.

195 C 290 —Suitable for all work.
195 C 1297—Harness without pad.
195 C 296 —Especially for farm work.

Cash Price $63.50 A Set For 2 Horses

Specifications of Ward's Best All Leather Harness

Bridles. Heavy 1½-inch folded ring crown with 1-inch layer; 1-inch short cheeks; ¾-inch bit straps; 1-inch heavy double and stitched nose bands; combination double and stitched front and winker braces. Sensible Concord cup shaped blinds; ⅝-inch buckled throat latch; and round side reins with ⅞-inch check-up straps.

Lines. Plump 1⅛-inch by 18 feet with sewed and riveted laps. Safety buckles and flat spring snaps on ends. Inside check buckles on outside check.

Traces. Full three-ply 6 feet long, (1½-inch, two-row stitched; 1¾ and 2-inch, three-row stitched); double capped copper riveted; turned leather end for bolt hames; six link heel chain sewed in. Bellyband billets 1½-inch. Wide scalloped safe at upper end.

Pads. Double and stitched heavy harness leather 5¼ inches wide, swell shaped; 1½-inch layer with dees; 1½-inch market straps to buckle into bellyband billets. High Japanned (black) bridges riveted on.

Bellybands. Heavy, folded to 1⅞ inches with 1¼-inch layer. Two-row stitched, buckle and billet ends.

Back and Hips. Popular three-ring style; 1⅛-inch divided back straps reversed at hames with wide leathers; 1⅛-inch double hip straps to buckle into lead-ups; rump safe and scalloped safes under trace carriers.

Breeching. Heavy, folded to 2¼ inches with 1½-inch layer; 1½-inch lead-ups with wide safes; 1-inch double side straps with snaps on ends; 1-inch lazy straps with wide leather liners, buckled on. Two leather loops on lead ups.

Breast Straps. Full 1½-inch with reinforced loops where straps attach to rings on hames; have heavy metal snaps, slides and roller buckles; soft leather loops.

Martingales. 1½-inch double and stitched around front end; patent Conway buckles; sewed at end with ring in loop; ⅞-inch collar straps and slides.

Hame Straps. 1-inch by 21 inches; roller buckle with metal loops. Extra good quality.

Hames. Famous U. S. Hame Co. new improved "Red Band" tubular steel with 1⅜-inch brass ball top.

For estimated total freight charges, see information on opposite page. Shipping weight, per set, about 85 pounds.

Read *this* Letter

"I received the Harness very promptly and am well pleased with it. It would have cost me $75 to get one here that was as good so I saved $25. It is unusually strong.

"I bought a harness from Ward's twelve years ago, and it is on the old team yet. I paid $27 for it, and it is still a good harness."

Ben Woodward,
Hesperia, Mich.

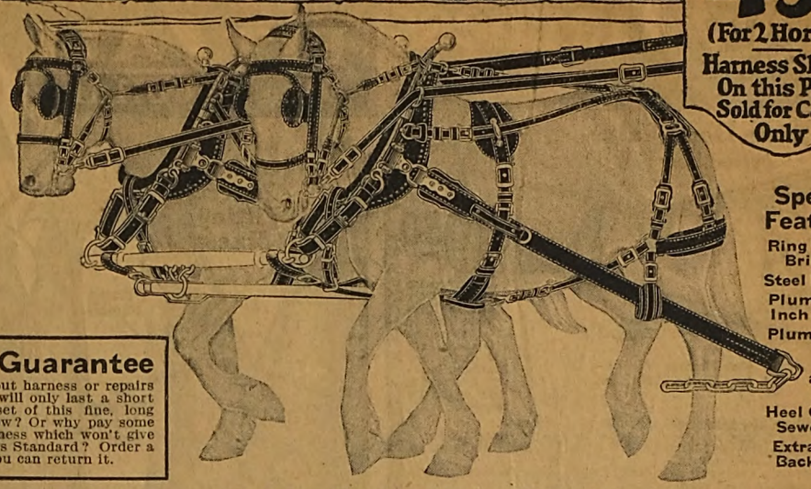
Only at Ward's Can You Buy Harness of This Good Quality at a Price So Low

$49.95 A Set (For 2 Horses)
Harness Shown On this Page Sold for Cash Only

Our Most Popular Team Harness

Good Leather and Workmanship Throughout

DEALERS can not afford to sell Harness of this high quality at a price anywhere near what we ask, because they do not have the volume of sales we have. The demand for this set has become so great that we are able to take all the advantages of volume buying, which always means lower manufacturing cost. When we cut the cost in this way, we always pass that saving along to you; we never take it as an additional profit for ourselves. That is why we can nearly always undersell on almost anything. As proof of our sincerity in claiming that this is the best harness you can buy at a price so low, we sell it to you with the distinct understanding that if you are not satisfied with the quality or with the savings, you can return it.



Special Features
- Ring Crown Bridles
- Steel Hames
- Plump 1⅛-Inch Lines
- Plump 1⅛-Inch Back and Hip Straps
- Heel Chains Sewed In
- Extra Wide Back Pads

Every Set Backed by Ward's Money Back Guarantee

Ward's Standard Harness is such an unusual value that every set sold usually brings more orders from the same neighborhood. The high quality leather, sturdy construction, careful stitching, first quality mounting and skilled workmanship satisfy the most critical buyer. It is just a trifle lighter weight than our best grades listed on the opposite page.

Why worry along with wornout harness or repairs and makeshifts that at best will only last a short time, when you can secure a set of this fine, long wearing harness at a price so low? Or why pay some dealer $15 to $25 more for harness which won't give any better service than Ward's Standard? Order a set; if you are not satisfied, you can return it.

Ward's Prepared to Give You Prompt Shipments

We have purchased a large stock of this harness and are prepared to fill your orders the same day received. Each set is thoroughly inspected before leaving the factory, and again before leaving our shipping rooms. This insures your receiving complete harness in perfect condition, ready to put on your team.

Buy the Style You Like Best

We list here four of the most popular styles used throughout the country, styles that are most suitable to the work to be done and to the horses to be fitted.

195 C 200—Breeching Harness.
195 C 202—Plow Harness.
195 C 209—Breeching Harness without back pad. Any style pad will fit this harness.
195 C 215—Side Backer Harness for backing or hilly country.

Unusual Value—For Horses Weighing Up to 1600 Pounds

Bridles. Are 1½-inch folded ring crown with 1-inch layer; ⅞-inch short cheeks; ¾-inch bit straps; ¾-inch nosebands; combination double and stitched front and winder braces; Concord blinds; ⅝-inch buckled throat latch; round side reins and ⅞-inch check up straps with snaps at both ends.

Lines. Are 1½ inches by 18 feet. Have sewed and riveted laps, security buckles on ends and flat spring snaps.

Traces. Heavy three-ply (1½-inch two-row stitched, or 1¾-inch three-row stitched), 6 feet long wide scalloped safe; jointed Concord clip for bolt hames, six-link heel chains sewed in.

Pads. Are 4½-inch swell shaped, all harness leather double and stitched. High bridges riveted on 1¼-inch reversed market straps. Japanned (black) trimmings.

Belly Bands. Are 1⅞-inch folded with 1¼-inch layer; two-row stitched.

Back and Hips. Three-ring style; 1⅛-inch divided back straps to hames with wear leather; 1¼-inch hip straps reversed into breeching with wear leather. Large rump safes and scalloped safes under trace carriers.

Breeching. Is 2-¼inch folded, with 1⅛-inch layer; 1⅛-inch side straps looped in breeching rings with snaps on ends; 1-inch lazy straps, with 2-inch liner buckled on.

Breast Straps. Are 1½-inches by 4½ feet with roller buckle and twin loops, snaps and metal slides. Reinforced where straps attach to rings on hames.

Martingales. Are 1½-inch double and stitched around front loops; ⅞-inch collar straps.

Hames. U. S. Hame Co. Red Band Japanned (black) tubular steel with 1¾-inch brass bail tops, bolt style. Hame straps are 1 inch.

Trimming. Japanned (black) finish.

Collars

Ward's Genuine FIT ALL Horse Collar

Each $4.25

Easy to adjust. Simply change the pegs on both upper and lower flaps from one set of holes to another, and fasten the collar pad straps.

TO show our confidence in this Horse Collar, we want you to try one of them for 30 days. See for yourself how perfectly it fits without the use of pads. After 30 days use, if not satisfied, send it back and we will refund your money.

Made in Four Different Styles—Wide Size Range

1 **Canvas Face.** Split leather back and rim with good quality heavy canvas face. Has wear leathers at throat and hame chafes. Sole leather top pad. This is a new collar that is giving the best of results.
2 **Buff and Black.** Back and rim of buffed leather, called buckskin strap leather. The face is of good quality black leather.
3 **Black and Russet.** Back and rim of the best heavy black collar leather. Face of heavy, select russet collar leather. A splendid collar and a bargain at the price we ask.
4 **All Russet Leather.** Face, back and rim of extra heavy, choice russet collar leather, very smooth. Made for those who want only the best.
The pressed sole leather pad is form fitting, and is reinforced on top with two sheets of drawn steel through which the pegs are riveted. Face, back and rim stitched to form the broad flexible bands across top. Outer seams thong stitched and machine sewed. Rim seam thong stitched. No pressure at upper neck. Choice of four styles and five size ranges.

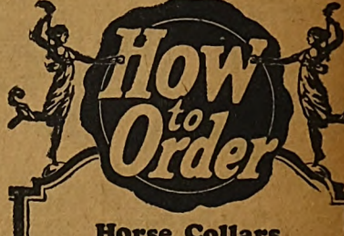
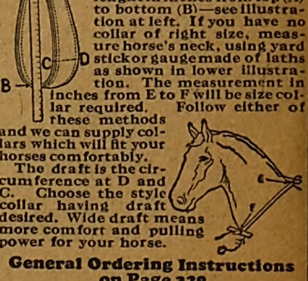
595 C 958—Size, 23 inches..... **6.50**



Horse Collars

If you have an old Horse collar that fits, give inside lenght in inches from top (A) to bottom (B)—see illustration at left. If you have no collar of right size, measure horse's neck, using yard stick or gauge made of laths as shown in lower illustration. The measurement in inches from E to F will be size collar required. Follow either of these methods and we can supply collars which will fit your horses comfortably.



The draft is the circumference at D and C. Choose the style collar having draft desired. Wide draft means more comfort and pulling power for your horse.

How to Order

Saddles

The tree is the hardwood inside frame, which gives the saddle its shape. The size refers to seat space measured in inches from the top of the cantle to the base of the horn. The most commonly used sizes are 14, 14½ and 15-inch for men weighing from 120 to 200 pounds. Small men and youths use 13 and 13½-inch trees. Double rigged means saddle has two cinchas; three-quarter rigged means one cincha.

Harness Parts
Made of Genuine Oak Tanned Leather

$5.50 A Set For 2 Horses

Ward's Finest Quality Buckle and Billet Lines

All laps strongly sewed and securely riveted. Buckle and billet at front ends, with leather loops. Both edges are creased. The point of greatest strain, where the short check joins the long check, is a double thickness of leather, heavily sewed for about 30 inches. Roller buckles at bit ends, large Conway buckles for easy adjustment of checks, and small buckle at end of lines—all black japanned. Made of oak bark tanned leather. Black. Shipping weight, per set, 5 to 6 pounds.

95 C 388—1 inch by 18 feet. Per set (2 complete lines) $5.50
95 C 389—1 inch by 20 feet. Per set (2 complete lines) 5.95
95 C 391—1⅛ inches by 18 feet. Per set (2 complete lines) 6.25
95 C 392—1⅛ inches by 20 feet. Per set (2 complete lines) 6.60

Only oak tanned native packers' hides are used in the making of Ward's Harness and Repair Parts. They are free from brands, wire scratches and scars. These are highest priced hides, most desirable for making quality harness.

$4.98 A Set For 2 Horses

Metal-to-Metal Lines
Best Quality at a Saving

We select with great care only choice grade oak tanned leather and have these Metal-to-Metal Lines built for extra hard service by making the outside checks double and stitched for about 30 inches at the center. Laps are sewed and riveted. Metal-to-Metal buckles and flat spring snaps on ends of checks. These features assure much longer life and give you a feeling of security you do not get with ordinary lines. We believe these are the best lines ever offered at this low price. Shipping weight, per set, 5 to 6 pounds.

95 C 382—1 inch by 18 feet. Per set (2 complete lines) $4.98
95 C 383—1 inch by 20 feet. Per set (2 complete lines) 5.35

It Is Easy To Order From Ward's

A Few Simple Measurements Enable Us To Fill Your Orders for Clothing Quickly and Correctly

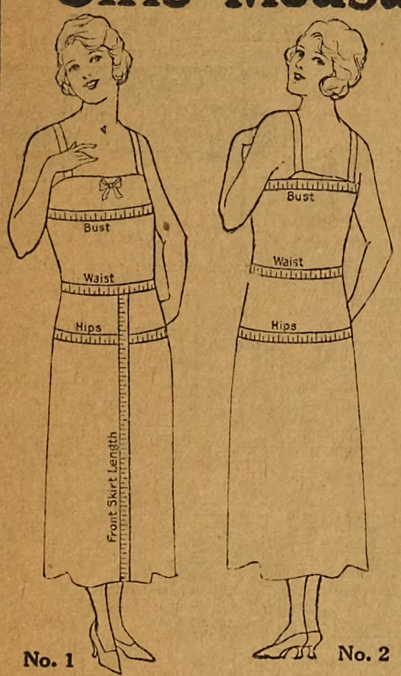
It is easy to get comfortable fitting wearing apparel at Ward's. Ordering by mail is simple, pleasant and profitable. Your satisfaction is guaranteed here.

Have someone take your measurements for you. Do not endeavor to measure yourself.

Do not have the tape measure drawn too tightly; just enough to fit comfortably. Be sure it does not slip out of position while measurements are being taken.

Be sure to send us correct figures, plainly written.

Women's, Misses' and Girls' Measurements



No. 1 No. 2

Bust: Have the tape measure placed around the fullest part of bust, well up under the arms, over shirtwaist or dress. Do not take this measurement too tight and do not allow tape measure to slip down in back. Make no allowance whatever. See No. 1. and No. 2.

Waist: Have the tape measure placed around the waist at smallest part of waist over your corset. See No. 1 and No. 2.

Hips: Have the tape measure placed around the hips about 7 inches below your natural waist line over your skirt. Do not allow tape measure to slip up or down. See No. 1 and No. 2.

Front Length of Skirt: Have this measurement taken by placing tape measure at natural waist line in front and continue down to whatever length skirt is desired. See No. 1.

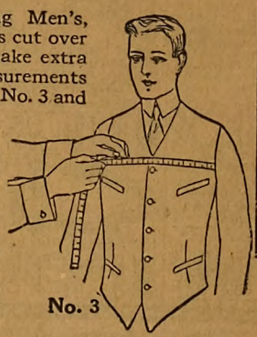
Girls' Sizes in Years: To find your daughter's correct size for dresses, take measurements carefully – and state size wanted as shown in table:

Sizes, years	7	8	10	12	14
Average bust measure, inches	30	31	32	33	34
Average length, inches	27	28	32	36	40

Men's, Young Men's and Youths' Measurements

All of our Men's, Young Men's, Youths' and Boys' clothing is cut over full size patterns. Do not make extra allowance. Give exact measurements taken as indicated by charts No. 3 and No. 4.

When Ordering Clothing Be Sure to Send Us Complete Sizes. Also Your Height Weight and Age

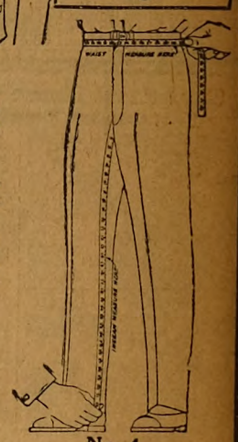


No. 3

Chest: Have the tape measure placed all around the body over chest close up under the arms and over shoulder blades in the back. Have measurements taken over vest as illustrated in No. 3. When ordering suits, **state height, weight and age.**

Waist: Have the tape measure placed all around your waist just above hips. See first measurement illustrated in No. 4.

Inseam: Have tape measure placed close up in crotch and continue down the leg to the desired length as shown in No. 4. The above measurements should be taken over trousers and tape measure should not be drawn too tightly. When ordering trousers or overalls, state waist and inseam measurements, **also height and weight.**



No. 4.

Boys' Suit Sizes in Years:

Sizes, years	5	6	7	8	9
Chest, inches	24	24¾	25½	26¼	27
Sizes, years	10	11	12	13	14
Chest, inches	27¾	28½	29¼	30	30¾
Sizes, years	15	16	17	18	
Chest, inches	31½	32¼	33	34	

Give Sizes As Follows When Ordering

Blouses: State bust measure.

Girls' Coats: Order by age only. See description.

Misses' and Juniors' Coats: State age and bust measure. See description.

Women's Coats: State bust measure.

Girls' Dresses: State age. Order by age only, corresponding to 30 to 34-inch bust measure. See description.

Junior Misses' Dresses: Order by age only, corresponding to 33 to 39-inch bust measure. See description.

Women's and Misses' Dresses: State bust measure.

House Dresses, Kimonos, Bath Robes and Aprons: State bust measure.

Women's Sweaters: Add 2 inches to bust measure taken over dress. Even number sizes only, 34 to 46.

Underwear, Knit and Muslin: For Union Suits, Vests and Shirts, state bust measure. Drawers, waist measure.

Back Lace Corsets: Take waist measure tightly over corset and subtract 2 inches to allow for the lacing.

Front Lace Corsets and Topless Corsets: Take waist measure tightly over corset and subtract 1 inch.

Misses' and Women's Skirts: State waist and hip measure, also front length.

Misses' and Women's Raincoats: State bust measure.

Girls' Raincoats: State age usually taken for. See description.

Women's and Misses' Suits: State actual bust, waist and hip measurements and front length of skirt, also height and weight.

Maternity Garments: See description of garments.

Suits—Men's, Young Men's or Youths': State chest measure taken over vest, waist measure and inseam measure; also height and weight.

Overcoats—Men's, Young Men's or Youths': State chest measure taken over vest; also height and weight.

Trousers: State waist measure and inseam measure; also height and weight.

Coats: State chest measure taken over vest; also height and weight.

Vests: State chest measure taken over vest.

Men's Mackinaws: State chest measure taken over vest.

Overalls: State waist measure and inseam measure; also height and weight.

Overall Jackets: State chest measure taken over vest.

Outing Coats: State chest measure taken over clothing to be worn beneath outing coat.

Raincoats: State chest measure taken over vest; also height and weight.

Rubber Raincoats and Oiled Slicker Clothing: State chest measure taken over vest; also height and weight.

Boys' Suits: State age and chest measure; also height and weight.

Boys' Knickerbockers: State age.

Boys' Coats: State age and chest measure.

Boys' Mackinaws: State age and chest measure.

Boys' Overalls: State age; also waist and inseam measure.

Boys' Overall Jackets: State age; also chest measure.

Men's Sweaters: Add 2 inches to chest measure taken close up under the arms over shirt, or state one size larger than coat size. Sweater sizes run in even numbers, 34 to 46.

Shirts: See each description.

How to Measure for Gloves

Draw tape measure around over the knuckles (as shown in picture to the left) not too tight, and not including the thumb. To this measurement add ¼ inch for dress gloves and ½ inch for work gloves, which gives your correct size. Women's unlined kid glove sizes: 5¾, 6, 6¼, 6½, 6¾, 7, 7¼, 7½, 7¾, 8. Women's silk fabric and lined glove sizes: 5½, 6, 6½, 7, 7½, 8, 8½. Men's dress glove sizes: 7½, 8, 8½, 9, 9½, 10, 10½. Men's work glove sizes: 7½, 8, 8½, 9, 9½, 10, 10½, 11. Children's gloves: Order by age. State age child usually is taken for.

For Babies' Bonnets

Measure the head as illustrated by placing tape measure around the head and face, beginning at the arrow point shown in picture, which is on the neck just below the ear and continues around the face to point on opposite side. Measurement in inches is the size of bonnet to order.

Every Article Shown in This Catalogue Is Listed on Pages 313 to 327

How to Measure for Hats and Caps For Children, Boys and Men

In order to fit you properly, it is necessary to measure the head accurately with a tape measure as shown. Compare the number of inches your head measures with this scale of hat sizes and send us the hat size you wear. Careful measurement insures proper size and fit.

Head Measure Size	Corresponding Hat Size	Head Measure Size	Corresponding Hat Size
18⅜ inches	6	21⅝ inches	7
19 inches	6⅛	22 inches	7⅛
19⅜ inches	6¼	22⅜ inches	7¼
19¾ inches	6⅜	22¾ inches	7⅜
20⅛ inches	6½	23⅛ inches	7½
20½ inches	6⅝	23½ inches	7⅝
20⅞ inches	6¾	23⅞ inches	7¾
21¼ inches	6⅞		

Other Measurements

See our special Measurement Chart for Shoes, which is on Page 230 in our shoe section. It is a self measurement chart which enables us to fit your foot correctly.

Write Us in Your Own Language

Česi a Slováci

Můžete nám psáti česky nebo slovensky, když jest to pro vás pohodlnější. Českým nebo slovenským dopisům a objednávkám věnujeme stejnou pozornost jako anglicky psaným.

Prohlédněte si dobře obrázek a přečtěte si popis v katalogu každého zboží, které objednáváte. Udejte číslo, barvu a velikost a pošlete také peníze na poštovné, když objednávka má býti poslána po poště.

Deutsch

Schreiben Sie uns auf deutsch, falls Sie dies vorziehen. Ihre Aufträge werden mit gleicher Sorgfalt ausgeführt.

Bitte beachten Sie genau Abbildung und Beschreibung der Gegenstände, die Sie bestellen möchten. Vergessen Sie nicht, Nummer, Preis, Grösse und Farbe anzugeben und Ihrem Briefe genug Geld beizufügen, um den Wert der Ware und eventuelle Postgebühren zu decken.

Español

Ud. puede escribirnos en español si le es más conveniente. Contestaremos sus cartas, y sus órdenes, con la misma esmerada atención como si fuesen escritas en inglés.

Suplicamos una cuidadosa atención á las ilustraciones y descripciones de nuestro catálogo. De cada artículo que Ud. ordene, sírvase mencionar el número, tamaño y color en su órden, y envíenos dinero suficiente para cubrir el costo total de las mercaderias, incluyendo franqueo, si su orden es para ser enviada por correo.

Français

Écrivez nous en français si vous le préférez. Vos commandes feront l'objet de nos meilleurs soins. Etudiez bien l'illustration et la description de l'article que vous comptez commander. Indiquez en le numéro, le prix, ainsi que la couleur et les mésures. Ajoutez à votre lettre une somme d'argent suffisante pour couvrir le prix de la marchandise y compris l'affranchissement, si la marchandise devra être expédiée par la poste.

Hollandsch

U kan ons in de Hollandsche taal schrijven, indien dit gemakkelijker voor u is. Alle bestellingen worden zorgvuldig uitgevoerd, onverschillig of deze in de Engelsche of in een andere taal geschreven zijn.

Ieder artikel in onzen catalogus is duidelijk beschreven en geillustreerd. Geef nummer, maat en kleur op den bestelbrief aan en zend ons het totaal bedrag der bestelling, frankeeringskosten inbegrepen, indien de bestelling per post moet worden gezonden.

Italiano

Se ciò Vi riesce più facile, potete scriverci in Italiano anzichè in Inglese. Risponderemo con uguale sollecitudine alle V/e gradite lettere ed i V/i ordini riceveranno, da parte nostra, la medesima attenzione come se fossero scritti in Inglese.

Per ogni articolo che Vi compiacerete ordinarci, Vi preghiamo di volerne studiare prima attentamente la illustrazione e la descrizione che, dello stesso, si fa nel n/o catalogo. Siate ben sicuri di menzionare nel V/o ordine: il **numero** dell'articolo, la **grandezza** ed il **colore** che preferite. Favorirete inoltre rimetterci per intero l'ammontare dell'importo del V/o ordine, più le spese di posta se la spedizione Vi deve essere fatta con questo mezzo.

Norsk

De kan skrive til os paa Norsk, om det falder lettere for Dem. Vi vil svare Deres breve og bestillinger med den samme nøiagtighed, som om de var skrevne paa Engelsk.

Venligst se nøie paa illustrationen og læs forklaringen i katalogen af hver artikel, De ordrer. Opgiv artikel nummer, størrelse og kulør naar bestillinger sendes, og indlæg nok penge til at betale total beløbet af varerne, iberegnet porto, om Deres bestillinger skal sendes pr. post.

Polskie

Można do nas pisywać po polsku. Listy i zamówienia odpowiemy z najdokładniejszą starannością, taksamo jak otrzymujemy zamówienia pisane w języku angielskim.

Uprasza się aby zastanowić się nad każdą ilustracyą i opisem podanem w katalogu. Trzeba podać dokładnie numer, wielkość i kolor rzeczy zamawianej, sumę pieniężną za rzeczy zamawiane włączając także koszta za przesyłkę wraz z zamówieniem.

Portuguez

Podeis escrever-nos na lingua portugueza se os convir ~~mais fazer~~ isso. Daremos ás vossas encommendas a mesma cuidadosa attenção que ellas receberiam se as escrevesseis em inglez. Eimportante que estudeis attentamente no nosso catalogo a illustração e descripção dada n'elle de cada artigo que desejeis encommendar, e que ao tempo de mandar-nos a encommenda nos deis o numero que o artigo traz no catalogo, e tambem o tamanho e a côr. Tamben é preciso enviar-nos bastante dinheiro para cobrir o importe total das mercadorias, incluindo o porte, se desejais que enviemos as mercadorias pelo correio.

Ward's Specials

The bargains shown here have been selected especially for Ward's customers. We guarantee that every article is exactly as pictured and each is outstanding value.

Genuine Bull Durham Tobacco

2 Pounds $1.50

Twenty 1⅝-oz. sacks of Bull Durham for $1.50 is the biggest Tobacco value you can get anywhere. Each sack is ½ oz. larger than standard size. The favorite of smokers everywhere. First class condition.

53 C 5820—20 sacks (2 pounds) Bull Durham Tobacco $1.50

Postage, 20 sacks, 8¢ extra

Something New "Auto Steer" Coaster Wagon $4.98

EVERY boy will want one of these new "Auto Steer" Coaster Wagons. The auto handle which is Ward's exclusive feature makes this wagon easy to steer and attractive in design.

A Greatly Improved Coaster

You will say you have never seen a Coaster Wagon quite as good as this one. Large enough to hold two youngsters comfortably—strong enough to support a dozen. The new steering device makes steering easier, better and safer than ever before. The shaped wood handle furnishes an easy, sure hold for young hands. No troublesome tongue to get in the way. Better and safer because no matter how fast the going or how sharp the turn the wagon is always under perfect control.

Wood Tongue Included

When the youngsters wish to change their Auto Steer Coaster into a wagon the steering handle can be removed from its specially constructed socket simply by loosening a single bolt. The usual wood tongue which we include at this price is just as easily attached or detached. This new steering arrangement is an exclusive feature designed especially for Ward's. You will find it on no other coaster wagon made, regardless of the price you pay.

16 by 36 Birchwood Body

Ball Bearing Double Disc Wheels

Why the Price Is So Low

We make these wagons in our own factory and we add only one small profit on each wagon. This and quantity production makes the price so low.

Specifications

Underbracing of strong channeled steel. Solid birch body, natural finish, trimmed a bright red. Sturdy, 10-inch double disc steel wheels painted a bright red. ¾-inch rubber tires. Ball bearings. Nickeled hub caps. Strong steel brake. Size of body, 16 by 36 inches. Wood tongue is 23 inches long and has handy steel grip. Shipping weight, 38 pounds. **Can be shipped by parcel post.**

448 C 1740 ..... $4.98

Extra Bargain

Boys' Sports Clothing

$4.75

All Wool Blazer

This very popular Blazer is one of our outstanding bargains. It is comfortable, durable and has that fine appearance that boys like.

Made in a loose fitting style of a medium weight All Wool plaid material suitable for summer or fall wear. Popular sports collar. All Wool knit bottom. Choose from two fine color combinations—gray and black plaid or red and black plaid.

SIZES: 8 to 18 years. State size.

42 C 6619—Gray and black plaid.
42 C 6621—Red and black plaid.

PRICE, Postage, 12¢ extra $4.75

$1.98

Strong Khaki Breeches

Breeches have always been popular with boys. They look well and will stand the hard wear boys give their clothes. These made of durable khaki material are strongly reinforced at all strain points. Double seat and knees for extra service. Lace bottoms.

SIZES: 8 to 18 years. State size; also height and weight.

42 C 235—Drab only.

PRICE, Postage, 10¢ extra $1.98

Fine Long Wearing Outfit—Breeches and Blazer

The Breeches and Blazer shown above make an ideal combination for the active outdoor boy. Order the red plaid or the gray plaid blazer and these strong khaki breeches at a big saving.

State sizes and colors wanted.

42 C 6623—Blazer and Breeches.

PRICE, Postage, 2 garments, 20¢ extra $6.45

Unbleached—Seamless Sheet

$1.00

Size, hemmed, about 81 by 86 inches. Economical housewives will be interested in this bargain, and will want several of these splendid quality, unbleached Sheets at this very low price.

A Real Bargain

For half a century Ward's has led in offering big values in cotton goods. These sheets are made of durable, heavy unbleached cotton yarns that will bleach with laundering. They are seamless, with neat hems. You will be greatly pleased with these quality sheets at our low price.

For Many Household Uses

Many people prefer to buy sheets of this soft cream color, as they can be used as foundations for appliqued quilts or bedspreads, curtains dresser covers, fancy aprons or for other artistic uses.

Two sewed together will make a durable, long wearing mattress cover. The protection to your good mattresses more than justifies the expense of such covers.

18 C 9803—Each $1.00

Postage, each, 9¢ extra

$11.14 Set of Six

Golden Oak

Solid Oak Dining Chairs $1.89 Each

Ward's leadership in furniture values is again strikingly shown in this extraordinary Chair bargain. Solid oak, finished either Golden or Fumed Brown. Strongly made throughout to insure good service. Notice especially the four stretchers and continuous back posts.

Slip Seat Construction

These chairs have full slip seat construction. You get them here at the price dealers usually pay. Neatly upholstered in Brown Imitation Spanish Leather. Only because we contracted for over 75,000 are we able to offer these fine chairs at such substantial savings. Size of seat, 16½ by 14 inches; height, 36 inches. Shipping weight, each, 12 pounds.

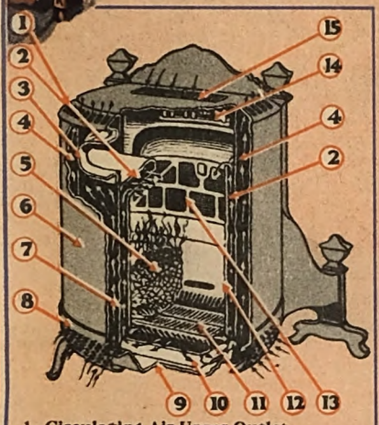
The Most Beautiful Heater Ever Made

The Windsor Fireside-Franklin

Looks Like a Fireplace—Heats Like a Stove

A CHEERFUL open fireplace and a circulating air heater combined. Remove the doors and you have a fireplace; leave them on and you have a regular heater with nickeled mica feed door; a heater that can be placed in any room. Ward's has taken a genuine old style Franklin Heater and added all the latest improvements, such as hot blast control; circulating air; open fireplace appearance; porcelain enamel finish; shiny nickel trimmings; large, heavy corrugated fire box with duplex grates for burning hard or soft coal or wood; reversible pipe collar so that pipe can be connected straight in or up and a large deep ash pit with roomy ash pan. Besides being the most beautiful Heater ever made, the WINDSOR FIRESIDE FRANKLIN is the most modern and up to date heater on the market today.

Just like a furnace, this stove heats by the circulating air method (see illustration at left). Cold air is drawn off the floor into the circulating air chamber and comes in contact with the hot body. Here it is heated and then circulated out and up into the rooms. You always have perfect control of the fire. A draft slide in the lower feed door allows a slow draft, but by removing this lower door a roaring fire can be started with instant heat as a result. Check draft slides in the main top and upper main front enable you to instantly cool down an exceptionally hot fire.



1. Circulating Air Upper Outlet.
2. Linings with Hot Blast Control.
3. Reversible Pipe Collar.
4. Circulating Air Chamber.
5. Large Fire Box Burns Coal or Wood.
6. Circulating Air Steel Body.
7. Main Heater Heavy Steel Body.
8. Circulating Air Lower Inlet.
9. Large and Deep Ash Pit.
10. Removable, Large, Convenient Ash Pan.
11. Duplex Grates for Burning Coal or Wood.
12. Heavy Corrugated Cast Iron Linings.
13. Nickeled Mica Feed Door.
14. Main Front Check Draft Control.
15. Main Top Check Draft Control.

Specifications

ENAMELED PARTS. Top ornament, main front, side columns, andirons, main hearth, hearth slide, hearth side wings with tile design, hearth front, lower blower door.

NICKELED PARTS. Side column ornaments, andiron ornaments, upper mica feed door, and foot rail.

Heater body and circulating air jacket are made of heat resisting Armco iron. All other parts are cast iron.

Entire height, 36 inches; entire depth, 25 inches; entire width, 36¾ inches. Size of upper feed door, 14¾ by 6 inches; lower feed door, 14½ by 6½ inches. Size of fire box, 15 by 11 by 10 inches; takes 14½-inch wood. Height of andirons, 13 inches. Length of foot rail, 19 inches. Shipping weight, 260 pounds.

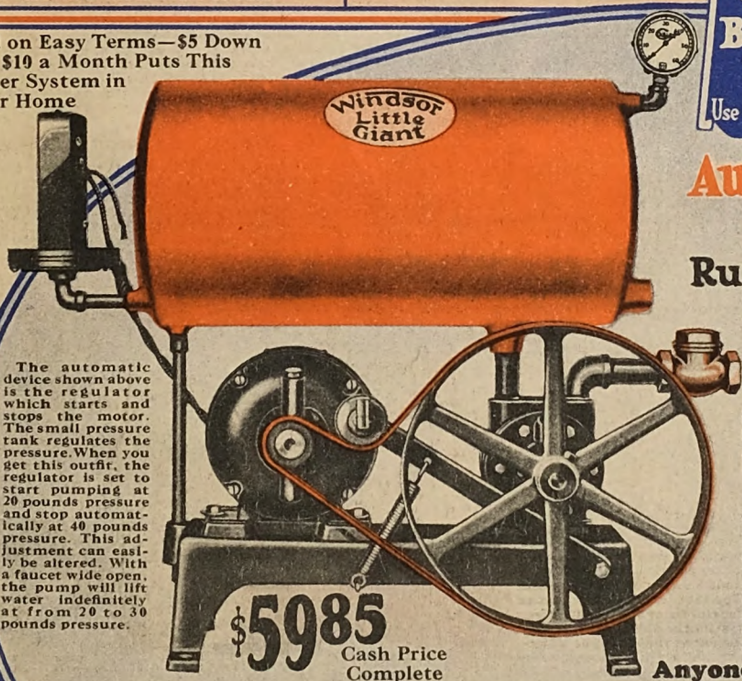
Use Special Easy Payment Order Blank on Page 697

Sold on Easy Terms—$5 Down and $10 a Month Puts This Water System in Your Home



The automatic device shown above is the regulator which starts and stops the motor. The small pressure tank regulates the pressure. When you get this outfit, the regulator is set to start pumping at 20 pounds pressure and stop automatically at 40 pounds pressure. This adjustment can easily be altered. With a faucet wide open, the pump will lift water indefinitely at from 20 to 30 pounds pressure.

$59.85 Cash Price Complete

Automatic Electric Water System of Your Own for $59.85 CASH PRICE

Running Water Under Pressure Everywhere, All the Time

NO modern convenience you can put in your home will contribute more to its comfort than running water. Think what it means—a porcelain sink in the kitchen, a bath tub, wash bowl, toilet, hot and cold running water. A turn of the tap and you have running water wherever you want it; in the house, in the barn or poultry yard, or for spraying the lawn or washing your car.

Finest System Ever Sold at Anywhere Near This Price

The Windsor Little Giant Automatic Water Supply System requires no underground or elevated storage tank. It pumps direct from well or cistern into your pipes. The tank shown is a small one used merely to regulate the pressure. The pump starts automatically whenever you use enough water to lower the tank pressure. Pump stops automatically when pressure is restored. No attention required. You get fresh, cool pure water always; no stale, warm water from a supply tank. By installing an ordinary water heater and tank, you can have hot as well as cold water. The Windsor System can be operated from 32-volt farm lighting current or any regular city current. The rotary pump has a capacity of from 200 to 250 gallons per hour under sprinkling pressure; enough to supply the average farm or city home or summer cottage with water for every purpose, including lawn sprinkling or fire fighting.

Anyone Can Set It Up—Only Two Simple Connections to Make

The complete system, including tank, is only 27 inches in length, 13 inches in width and 24 inches in height over all. A very small space is all that is required. It is easy to install. We send you the outfit ready to set up and attach to suction pipe and discharge. It is tapped for ¾-inch suction and ¾-inch discharge pipes. Complete instructions included. It is only necessary to make two pipe connections, attach to the lighting wires and the outfit is ready for operation. Use Easy Payment Order Blank No. 1 on Page 697. Shipping weight, 140 pounds.

Article Number	Kind of Current	Cash Price	Easy Payment Price
263 C 57	105 to 120-volt 60-cycle A. C.	$59.85	$67.50
263 C 58	Farm Lighting Plant, 32-volt	77.50	81.75

Shipped from Factory at Indianapolis, Ind.

THE PUMP, of the latest improved rotary type, is much more efficient than the plunger type pump. The shaft is supported on plain bearings, lubricated by grease cups with packing glands at ends. There are only two parts in the Windsor pump which will show wear under ordinary use. Either can be replaced in a few minutes at a trifling cost. We guarantee the Windsor Little Giant outfit to do all we claim for it and to give you entire satisfaction.

THE MOTOR used is a high grade ¼ horse power electric motor. This can be furnished for any current—32-volt farm lighting or 105 to 120-volt 60-cycle alternating. The cost of operation is small; only about 3¢ per thousand gallons, based on 10 cent electricity. This is much less than the usual operating cost of such pumps.

Lifts Water 28 Feet

The Windsor Pump will easily lift water 28 feet, which is 5 feet more than most shallow well pumps will lift. It will force it to any reasonable height desired. No other pump has so few working parts. There are no valves, crossheads, springs, pistons or leather suction washers to wear or get out of order.

$25 down and Twenty-five Dollars a Month Soon Pays For Any of These Sets

Airline Conqueror

Five Tubes~Single Dial Control

Ward's Finest Radio Receiving Set Easiest to Operate—Most Selective

WAIT no longer. Select your Radio Receiving Set NOW. You can not realize what you are missing. In country homes particularly a good radio set is a necessity. If it gave you no more than the daily markets, weather forecasts and news bulletins, radio would be a paying investment. Radio does more than that. No matter where you live, it will bring into your home the wholesome entertainment and education that you and your children want to hear. It will give you a newer, broader outlook on life.

You Have Never Seen or Used a Radio Set That Will Please You as Well

When you have seen and tried Ward's *Guaranteed* Airline Conqueror you will say, "This is the set for me." No matter what radio sets you have heard or used, you will at once see the superiority of this new single control Radio Receiving Set. If you were an expert and set out to build yourself an ideal radio set without regard to cost, you could not possibly construct a better one than this *Guaranteed* Airline Conqueror. If you employed the finest cabinet maker to design and build a cabinet for it, it would be like one of the models shown here.

Our engineers were told to build a radio set, regardless of cost, that would give all the results of the finest sets made, without the usual complicated control. They brought us the Conqueror with just one dial to turn, a receiver that will give you the station you want without any guesswork, without any delicate adjustments, and with the volume, sweetness of tone and fine appearance of radio sets costing double the price.

Cabinet Model—Separate Loud Speaker

Your choice of Genuine Walnut or Genuine Adam Brown Mahogany. Complete equipment includes the Airline Junior Loud Speaker described on Page 497. Size, 30 by 14¾ by 15¼ inches. State finish wanted.

$119 Cash Price

Features That Make It an Ideal Receiving Set

The *Guaranteed* Airline Conqueror is sold in any of the four styles shown here. This gives you a wide choice. You can buy it with or without loud speaker and with or without equipment. All models operate on storage "A" battery only. The "B" batteries are contained within the cabinets of all models. Space for the "A" batteries also is provided in the desk and console models. Equipment, when included, consists of Airline DeLuxe (2 year guaranteed) 6-volt 90-ampere storage "A" battery, two Airline 45-volt Jumbo "B" batteries, one Airline DeLuxe head phone set, five C-301A or UV-201A tubes and full antenna equipment. The tuning control is a single dial, working on a vernier principle, which permits very selective tuning. The self tuned dial readings revolve behind a genuine 14-Karat gold plated window as explained at the right. It is extremely selective and you can tune right through interference.

Try It for 30 Days—Buy on Easy Terms if You Wish

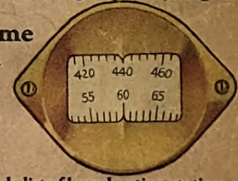
We are very proud of our *Guaranteed* Airline Conqueror. We believe it to be the best radio receiving set ever made, regardless of price. To show our complete confidence, we sell it to you for cash or on easy payments with the understanding that you may try it in your home for 30 days. If in that time you are not convinced it is the best radio value; or if for any reason at all you are not thoroughly satisfied, write us for shipping instructions. We will refund all you have paid.

Only One Dial to Tune

The easiest radio set to tune ever made. Just turn one dial and select the program you wish. Nothing could possibly be easier. No bother to get stations with the *Guaranteed* Airline Conqueror.

Genuine 14-Karat gold plated fittings

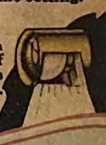
The Same Station at the Same Dial Setting



We include list of broadcasting stations and their wavelengths with every set. Simply turn wavelength dial to reading corresponding to wavelength of station you wish to hear. Record dial setting; and if you wish to hear the same station again, simply turn to the same setting.

The Pilot Light

Lights only when set is in operation. Tells instantly if set is turned on or off. Saves batteries and illuminates dial.



Easiest to operate; beautiful tone; very selective. One of the finest ever designed for the American home.

Desk Model Conqueror An Ideal Arrangement

A writing desk Radio Receiving Set combination that can be used in most any room in the house. Plenty of space for books, documents, writing material and other articles usually kept in a desk. Also a drawer for head phones, etc. One lower compartment for batteries, battery charger, hydrometer and voltmeter. Top of desk raises for easy inspection of the set. Other compartment has book shelf. Loud speaker built in on level with your ears. No straining for weak announcements. The most practical radio cabinet ever designed. Beautiful two-tone finish in your choice of Genuine Walnut, Genuine Golden Oak or Genuine Adam Brown Mahogany. Size 36½ by 46 by 15½ inches. State finish wanted.
